Ein idyllisches Dorf im Winterschlaf, ein ungewöhnlicher Job und ganz große Gefühle Es ist kurz vor Weihnachten, als Beth Hals über Kopf ihren Job im städtischen Alten- und Pflegeheim hinwirft. Sie will sich neu orientieren und eine Anstellung finden, die mit Kind besser vereinbar ist. Filled with all the larger-than-life characters and enchanting storytelling that made readers fall for *The Reader* on the 6.27, Jean-Paul Didierlaurent's follow-up novel, *The Rest of Their Lives*, is set to charm the world. It's hard to find love with a job like Ambroise's - an embalmer in a small French town, he rarely spends time with the living. And while Manelle - a home-help for the elderly - enjoys her days taking care of her spirited clients, she finds her evenings are often spent with TV dinners for one. So when chance - and an unusual road trip - bring Ambroise and Manelle together, they are both more than ready for the rest of their lives to begin . . .

'Set at a time of lengthening shadows, this is a novel about the sparks that illuminate the dark: of wisdom, compassion, defiance and courage. It is wry, piercing and also, fittingly, radiant.' Daily Mail From Robert Seethaler, the author of the Man Booker International shortlisted *A Whole Life*, comes a deeply moving story of ordinary lives profoundly affected by the Third Reich, in the tradition of novels such as Fred Uhlman's classic *Reunion*, Bernhard Schlink's *The Reader* and Rachel Seiffert's *The Dark Room*. When seventeen-year-old Franz exchanges his home in the idyllic beauty of the Austrian lake district for the bustle of Vienna, his homesickness quickly dissolves amidst the thrum of the city. In his role as apprentice to the elderly tobacconist Otto Trsnjek, he will soon be supplying the great and good of Vienna with their newspapers and cigarettes. Among the regulars is a Professor Freud, whose predilection for cigars and occasional willingness to dispense romantic advice will forge a bond between him and young Franz. It is 1937. In a matter of months Germany will annex Austria and the storm that has been threatening to engulf the little tobacconist will descend, leaving the lives of Franz, Otto and Professor Freud irredeemably changed.

Woodland friends gather to watch shooting stars, and help each other through dangers along the way.

London is the new edition of the London by Gian Butturini of 1969. In June 1969, Butturini travelled to London and was instantly captivated by the dynamics of the 'Swinging City': a decade defined by social revolution, freedom of expression and political controversy. Picking up a camera for the first time, he was drawn to the immediacy of the photographic medium that allowed him to create images through a direct encounter with the world, without the need for preliminary drawings or predetermined parameters -- a way of working that was radically different from his design work. The resulting black and white photographs testify to Butturini's fascination with the darker side of London -- the 'true, bare' version of the city belonging to the disenfranchised, destitute and marginalized rather than the City's bowler hats or the changing of the guards that belonged to the realm of tourism. Disillusionment prevails in the gritty images, which evoke not only the atmosphere in the capital in the late 1960s but also Butturini's own disenchantment with social injustice and discrimination. It all began in Victoria Station when he saw a young man staggering by with a syringe embedded in a vein. The Tube, pubs and streets were the stage of a frenzied humanity unseen by the tourists, who were wooed by Piccadilly and Carnaby Street, and by the Barnum Circus of showcases. Butturini recorded shots of everyday life full of pain and sarcasm, but also of joy and lyricism: two old people lying down and hugging each other on a lawn, the hippies, the fashionable young women, the poor homeless, coloured people often relegated to the humblest places, the pacifist demonstrations, the improvised orators at Speakers' Corner. There was nothing stereotyped, but plenty of irony, a focus on authenticity and a careful selection of images.

The Boy and the Gorilla

The perfect feel-good festive romance for autumn 2019

A Novella

The Pasha of Cuisine

This profoundly moving tale about a grieving boy and an imaginary gorilla makes real the power of talking about loss. On the day of his mother's funeral, a young boy conjures the very visitor he needs to see: a gorilla. Wise and gentle, the gorilla stays on to answer the heart-heavy questions the boy hesitates to ask his father: Where did his mother go? Will she come back home? Will we all die? Yet with the gorilla's friendship, the boy slowly begins to discover moments of comfort in tending flowers, playing catch, and climbing trees. Most of all, the gorilla knows that it helps to simply talk about the loss--especially with those who share your grief and who may feel alone, too. Author Jackie Azúa Kramer's quietly thoughtful text and illustrator Cindy Derby's beautiful impressionistic artwork depict how this tender relationship leads the boy to open up to his father and find a path forward. Told entirely in dialogue, this direct and deeply affecting picture book will inspire conversations about grief, empathy, and healing beyond the final hope-filled scene.

Designed for teaching astrophysics to physics students at advanced undergraduate or beginning graduate level, this textbook also provides an overview of astrophysics for astrophysics graduate students, before they delve into more specialized volumes. Assuming background knowledge at the level of a physics major, the textbook develops astrophysics from the basics without requiring any previous study in astronomy or astrophysics.

Physical concepts, mathematical derivations and observational data are combined in a balanced way to provide a unified treatment. Topics such as general relativity and plasma physics, which are not usually covered in physics courses but used extensively in astrophysics, are developed from first principles. While the emphasis is on developing the fundamentals thoroughly, recent important discoveries are highlighted at every stage.

A Tale of Old Styria

Katharina's husband isn't coming home for the weekend—again—so she's on her own. When their chaotic daughter Helli has a nosebleed, Kat has to dash off to school to pick her up. Then their son, Alex, announces he's bringing his new girlfriend home for the first time. Kat's best friend from college is coming around tonight too, and she's wondering if she should try to seduce him—but first she needs to do the shopping, the vacuuming and the laundry, deal with an exploding clothes-dryer, find their neighbour's severed thumb in the front yard and catch a couple of escaped rodents. When she's got all that sorted, perhaps she'll have time to think about the thing she's been trying not to think about—the lump she's just found in her breast. Because you can't just die and leave a huge mess for someone else to clean up...can you? And wasn't there supposed to be more to life than this? Mareike Krügel lives in Schleswig-Holstein with her husband and their two children. She has received numerous literary awards, including the Friedrich Hebbel Prize. Look at Me is her fourth novel, and the first to be translated into English. 'Funny, moving and thought-provoking.' BookMooch 'Kat and her family are deeply flawed but likeable characters; you want to cheer them on...A good read, suitable for long, dark evenings.' Otago Daily Times 'A quirky ride that masterfully blends a sardonic sense of humour with a deeply embedded fear of mortality.' Readings 'For all the chaos of Katharina's life and for all the humour of her narrative voice, this well-written and surprisingly complex novel has an unexpected gravitas.' Age 'Definitely one of those "read in one sitting", "hard to put down" books.' Nudge Books 'An enjoyable and thought provoking read.' MindFood 'With a heroine so well-realised she feels like a friend, and piercingly true ruminations on the strange courses that life can take, Look At Me is a wildly impressive English-language debut.' Traditional clothing represents the regions where it is produced along with their cultures and handcraft. Its creativity and longevity is inspiring high fashion designers of today and tomorrow. Traditional clothing is essentially haute couture. Made with high quality fabrics and elaborate workmanship, it embodies cultural heritage and style. Encompassing a surprising variety of garments, it represents premium handcraft, an awareness of tradition, a sense of belonging, and an affinity to one's homeland. At the same time, folkloric clothing is inspiring some of today and tomorrow's most ambitious and radical fashion designers. In Traditional Couture, photographer Gregor Hohenberg succeeds in building a visual bridge between the outmoded and the avant-garde in German folkloric fashion. He portrays the individuals, young and old alike, who wear traditional attire in all the regions of his homeland, as well as their surroundings. Furthermore, he depicts the distinctive garments in all their glorious detail: pearls, seams, embroidery, and colors--all of which are completely unaffected by the seasonal influences of the fashion industry. This book is a dazzling journey in pictures featuring an almost overwhelming abundance of visual symbols and stylistic inspiration. At the same time, Traditional Couture captures the grace and dignity with which clothing is worn. The book eschews kitschy German folklore to show how donning traditional dress can change one's composure, lend charisma, and make statement while providing a relaxed sense of self-confidence and feeding passion for special attire at special occasions. There is simply no other clothing that represents the wearer's biography and region in quite the same way. Traditional German outfits are made to last a lifetime and handed down to future generations. Some of their details are so elaborately made that hardly anyone has the time or skill to create them today. Tailors that still master this art are in high demand far beyond regional borders. Consequently, traditional clothing is a handcraft that connects people. The distinctive quality, identity, and intensity of the attire featured in Traditional Couture is inspiring fashion designers to rethink their collections in new directions. While giant fashion brands are surrendering to global, fast-lived trends, more and more small manufacturers are creating enduring garments: heirlooms instead of throw-away t-shirts.

Measuring the World recreates the parallel but contrasting lives of two geniuses of the German Enlightenment - the naturalist and explorer Alexander von Humboldt and the mathematician and physicist Carl Friedrich Gauss. Towards the end of the 18th century, these two brilliant young Germans set out to measure the world. Humboldt, a Prussian aristocrat schooled for greatness, negotiates savannah and jungle, climbs the highest mountain then known to man, counts head lice on the heads of the natives, and explores every hole in the ground. Gauss, a man born in poverty who will be recognised as the greatest mathematician since Newton, does not even need to leave his home in Göttingen to know that space is curved. He can run prime numbers in his head, cannot imagine a life without women and yet jumps out of bed on his wedding night to jot down a mathematical formula. Measuring the World is a novel of rare charm and readability, distinguished by its sly humour and unforgettable characterization. It brings the two eccentric geniuses to life, their longings and their weaknesses, their balancing act between loneliness and love, absurdity and greatness, failure and success.

Joey Barbarossa likes being a cop, because it makes dealing drugs easier. Any time a fellow pusher gives him trouble, Joey's detective badge and police-issue Glock have a way of making the problem disappear. For compensation, Justice demands Barbarossa start spying on Sidel, who's just made him his personal chauffeur. The drug-dealing detective can't say no. Sidel is preparing for a run at the mayor's office, but before his campaign kicks off he has to deal with two mob bosses who want him dead. He and Barbarossa don ski masks and start holding up mafia establishments, but as the pressure rises and the friendship frays, the only question is which cop will turn on the other first.

Though best known for his editing and posthumous publication of his friend Franz Kafka's writing, Max Brod was a major novelist in his own right. Tycho Brahe's Path to God, widely considered his finest work and viewed by many as a small masterpiece, concerns the relationship between the great Danish astronomer and the younger, intellectually superior Johannes Kepler. Brod's representation of this complicated relation grew out of his acquaintance with the young Albert Einstein, reproduces his struggles with the Expressionist poet Franz Werfel, and strangely anticipates the most famous act Brod would ever perform: publishing Kafka's writings without his permission. As Brahe attempts to create a diplomatic compromise between the old Ptolemaic system of planetary motion and its modern, Copernican revision, Kepler discards the principle of compromise root and branch.

Cow is the story of a Spanish agricultural labourer, Ambrosio, who goes to Switzerland as a Gastarbeiter. He is bound for Innenwald, a village in the Swiss highlands, and the novel begins as he is about to spend a summer working for Farmer Knuchel. It ends in the abattoir of the neighbouring city, at the end of the seven hard years of labour that have destroyed him. There he sees Blosch, the once magnificent lead cow on Knuchel's farm, now a sad, condemned creature in the abattoir. Cow was acclaimed as a contemporary classic on first publication. Now more than ever it must be read as a book of archaic power about man, his work and his food and, most importantly, as a damning indictment of the relationship between man and the animal world.
