This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs form an overall outline with

File Type PDF Seducing Drake Palma File Sharing

distilled details of what students can learn encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains.

The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. The Dictator's Seduction is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a "vernacular politics" based on popular idioms of masculinity and

File Type PDF Seducing Drake Palma File Sharing

fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under the dictator, Derby emphasizes the role that public ritual played in Trujillo's exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how

claims that he embodied the popular barrio antihero the tiguere (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. The Dictator's Seduction sheds new light on the cultural contrivances of autocratic power.

This book provides an up-to-date, critical review of theoretical concepts connecting artists and urban development. It focuses on the multidimensionality of potential and actually observed interactions between artists and cities and their impacts on urban space, its form, functions and perceptions. Departing from the viewpoint that a more nuanced geography of artists is still needed to fully conceptualise the diversity of roles artistic creatives play in urban transformations, the book presents contributions with a common denominator of distinguishing

File Type PDF Seducing Drake Palma File Sharing

artists as a unique professional and social group. The essays focus on the complexity of the artists' spatial preferences and analyse a myriad of expressions of artists' presence in urban centres in different geographic, political, economic, social, and spatial contexts drawing on experiences from 16 cities across Europe. The book presents several case studies ranging from Spain to Russia and from Scandinavia to Slovenia, and offers new pathways into understanding the implications of artists' residence and activities in contemporary cities. Apart from presenting less obvious expressions of artists' involvement in urban transformations such as their participation in urban planning or grass root urban movements, the volume explores the ambivalence of artists' interactions with cities. Particular chapters test several divergent narratives of artistic creatives

as inspirers and instigators of urban changes, pioneers of gentrification, contesters and resisters of neoliberal urban policies or mere indicators of transformations inspired by other actors, instrumentalized by public and private stakeholders.

Acoustic Properties: Radio, Narrative, and the New Neighborhood of the Americas discovers the prehistory of wireless culture. It examines both the coevolution of radio and the novel in Argentina, Cuba, and the United States from the early 1930s to the late 1960s, and the various populist political climates in which the emerging medium of radio became the chosen means to produce the voice of the people. Based on original archival research in Buenos Aires, Havana, Paris, and the United States, the book develops a literary media theory that understands sound as a transmedial

phenomenon and radio as a transnational medium. Analyzing the construction of new social and political relations in the wake of the United States' 1930s Good Neighbor Policy, *Acoustic Properties* challenges standard narratives of hemispheric influence through new readings of Richard Wright's cinematic work in Argentina, Severo Sarduy's radio plays in France, and novels by John Dos Passos, Manuel Puig, Raymond Chandler, and Carson McCullers. Alongside these writers, the book also explores Che Guevara and Fidel Castro's *Radio Rebelde*, FDR's fireside chats, Félix Caignet's invention of the radionovela in Cuba, Evita Perón's populist melodramas in Argentina, Orson Welles's experimental New Deal radio, Cuban and U.S. "radio wars," and the 1960s African American activist Robert F. Williams's proto-black power *Radio Free Dixie*.

From the doldrums of the Great Depression to the tumult of the Cuban Revolution, *Acoustic Properties* illuminates how novelists in the radio age converted writing into a practice of listening, transforming realism as they struggled to channel and shape popular power.

Transfigurations brings our cultural obsession with film violence into a renewed dialogue with contemporary theory.

Grønstad argues that the use of violence in Hollywood films should be understood

semiotically rather than viewed realistically; Transfigurations thus alters both our methodology of reading violence in films and the meanings we assign to them, depicting violence not as a self-contained incident, but as a convoluted network of our own cultural ideologies and beliefs.

It's the ultimate case of trying without buying and, despite the limitations of the human body in question (previous owner one suicidally unsuccessful writer, Deelan Gunn), Luce seizes the opportunity to run riot through the realm of the senses. This is his chance to straighten the biblical record (Adam, it's hinted, was a misguided variation on the Eve design), to celebrate his favorite achievements (everything from the

This Open Access book, building on research initiated by scholars from the Leiden-Delft-Erasmus Centre for Global Heritage and Development (CHGD) and ICOMOS Netherlands, presents multidisciplinary research that connects water to heritage.

Through twenty-one chapters it explores landscapes, cities, engineering structures and buildings from around the world. It describes how people have actively shaped the course, form and function of water for human settlement and the development of civilizations, establishing socio-

economic structures, policies and cultures; a rich world of narratives, laws and practices; and an extensive network of infrastructure, buildings and urban form. The book is organized in five thematic sections that link practices of the past to the design of the present and visions of the future: part I discusses drinking water management; part II addresses water use in agriculture; part III explores water management for land reclamation and defense; part IV examines river and coastal planning; and part V focuses on port cities and waterfront regeneration. Today, the many complex systems of the past are necessarily the basis for new

File Type PDF Seducing Drake Palma File Sharing

systems that both preserve the past and manage water today: policy makers and designers can work together to recognize and build on the traditional knowledge and skills that old structure embody. This book argues that there is a need for a common agenda and an integrated policy that addresses the preservation, transformation and adaptive reuse of historic water-related structures. Throughout, it imagines how such efforts will help us develop sustainable futures for cities, landscapes and bodies of water.
