Book 2

The 4th novel in the bestselling Conqueror series, continuing the life and adventures of the mighty Khan dynasty.

This book proposes a new, pragmatic way of approaching economic development which features policy learning based on a comparison of international best policy practices. While the important role of government in promoting private sector development is being recognized, policy discussion often remains general without details as to what exactly to do and how to avoid common pitfalls. This book fills the gap by showing concrete policy contents, procedures, and organizations adopted in high-performing East Asian economies. Natural resources and foreign aid and investment can take a country to a certain income level, but growth stalls when given advantages are exhausted. Economies will be caught in middle income traps if growth impetus is not internally generated. Meanwhile, countries that have soared to high income introduced mindset, policies, and institutions that encouraged, or even forced, accumulation of human capital – skills, technology, and knowledge. How this can be done systematically is the main topic of policy learning. However, government should not randomly adopt what Singapore or Taiwan did in the past. A continued march to prosperity is possible only when policy makers acquire

capability to formulate policy suitable for local context after studying a number of international experiences. Developing countries wanting to adopt effective industrial strategies but not knowing where to start will benefit greatly by the ideas and hands-on examples presented by the author. Students of development economics will find a new methodological perspective which can supplement the ongoing industrial policy debate. The book also gives an excellent account of national pride and pragmatism exhibited by officials in East Asia who produced remarkable economic growth, as well as serious effort by an African country to emulate this miracle.

This volume is a study of Chinese food from a cultural and historical perspective. Its focus is on traditional China before establishment of the People's Republic. It identifies and provides comprehensive information on a broad range of Chinese food plants and animals for general readers, as well as for specialists whose interests have led them to questions relating to the food of China. Readers will find discussions regarding origins, how things came to be, time and place of food-plant and animal domestication, the spread of plants and animals from and to China, and other historical questions regarding the foods used by the Chinese people. The book is written with Canton and the southeast as points of departure, but embraces all of China and is directed towards people unfamiliar with China.

These are the first three stories of the Tollins. Yes, they do have wings, but no, they aren't fairies. Tollins are a lot less fragile than fairies. In fact, the word fragile can't really be used to describe them at all. They are about as fragile as a house brick. In "How to Blow Up Tollins" a fireworks factory comes to the village of Chorleywood and the Tollins find themselves being used as industrial supplies. Being blasted into the night sky or spun round on a Catherine wheel is nowhere near as much fun as it sounds. It's up to one young Tollin to save his people from becoming an ingredient. In "Sparkler and the Purple Death" our hero looks execution in the face. Luckily, the executioner's mask is backwards. Finally, in "Windbags and Dark Tollins" Tollin society faces a threat from the Dorset countryside, which, again, is much more frightening and nail-bitingly dramatic than it actually sounds. In 1981, Plenum Press published a text entitled *The Nature and Treatment of*

the Stress Response by Robert Rosenfeld, M. D. , and me. That text attempted to do what no other text from a major publisher had previously attempted, that is, to create a clinically practical guide for the treatment of excessive stress and its arousal-related syndromes-this to be captured between the same covers in combination with a detailed, clinically relevant pedagogy on the neurological and endocrinological foundations of the stress response itself. That volume has enjoyed considerable success having found markets among practicing professionals and clinical students as well. The fields of psychosomatic medicine, health psychology, behavioral medicine, and applied stress research have appreciably expanded their boundaries since the publication of the aforementioned volume. Although remarkably little of the clinical utility of that volume has been eroded with time, it was felt that an updated and more integrative clinical textbook needed to be offered to practicing clinicians and students within clinical rather than simply create a second edition of training programs. For lovers of thrilling adventure and grand history, the bestselling co-author of the #1 New York Times bestseller *The Dangerous Book for Boys* has written a magnificent novel with a hero for the ages: the legendary, visionary conqueror Kublai Khan. A succession of ruthless men have seized power in the wake of Genghis Khan's death—all descendants of the great leader, but none with his indomitable character. One grandson, Guyuk, strains the loyalties of the tribes to the breaking point, and another, Mongke, brutally eliminates the opposition and dispatches his younger brothers Kublai and Hulegu to far-flung territories. Hulegu displays his barbarity with the savage destruction of Baghdad and his clash with the Khan's age-old enemies, the cult of assassins. But it is Kublai—refined and scholarly, always considered too thoughtful to take power—who will devise new ways of warfare and conquest as he builds the dream city of Xanadu and pursues the ultimate prize: the ancient empire of

Sung China. His gifts will serve him well when an epic civil war breaks out among brothers, the outcome of which will literally change the world. BONUS: This edition includes an excerpt from Conn Iggulden's *The Blood of Gods*. "Conqueror is as real as military fiction gets. From the daring and critically-acclaimed master of historical fiction Conn Iggulden, SHIANG is the second book in the Empire of Salt, an epic fantasy series of spellbinding imagination . . . IF THESE STONES COULD SPEAK, THEY WOULD CALL FOR WAR. In Shiang, the young king rules without dissent. Mazer swordsmen stand watch on every corner, looking for the first sign of rebellion. This city is a place of quiet and slow dignity, like a man eating rice with a razor pressed against his throat. Yet with one sharp movement, order is overturned. The balance of centuries is undone in the sudden spill of blood - and in the darkness, something terrible returns to Shiang. Far to the west, four Shiang masters approach the city walls of Darien. The sword saint and his companions have crossed a continent to bring an old man home for punishment. They will not be denied, even if the whole city stands in their way. TWO ANCIENT CITIES. ONE FINAL WAR.

From the author of the bestselling *The Dangerous Book for Boys* The year is 53 B.C. Fresh from victory in Gaul, Julius Caesar leads battle-hardened legions across the Rubicon river—threatening Rome herself. Even the master strategist Pompey is caught unprepared by the strike, and forced to abandon his city. The armies of Rome will face each other at last in civil war, led by the two greatest generals ever to walk the seven hills. Thus begins Conn Iggulden's towering saga of Julius Caesar as he approaches his final destiny—a destiny that will be decided not by legions but by his friend Brutus and an Egyptian queen named Cleopatra, who will bear his only son.... For Caesar, the campaign against Pompey will test his military genius and his appetite for glory to their limits, as the greatest fighting machine the world has ever seen divides against itself in

a bloody conflict that will set brother against brother until victory or death. But for Caesar, another kingdom beckons—a world of ancient mysteries and languid sensuality, where a beautiful, bewitching woman waits to snare his heart. The Gods of War follows Julius Caesar through politics and passion, ruthless ambition and private grief, and into the corruption of power itself. Those he has loved will play a part in his triumphs—as will the jealousy and hatred of his enemies. From the spectacles of the arena to the whispered lies of conspirators, Conn Iggulden brings to life a world of monumental drama. And at its heart is one extraordinary friendship—marked by fierce loyalty and bitter betrayal, with dark events shrouded in noble ideals.

Rarely, if ever, does a new writer dazzle us with such a vivid imagination and storytelling, flawlessly capturing the essence of a land, a people, a legend. Conn Iggulden is just such a writer, bringing to vivid life one of the most fascinating eras in human history. In a true masterpiece of historical fiction, Iggulden takes us on a breathtaking journey through ancient Rome, sweeping us into a realm of tyrants and slaves, of dark intrigues and seething passions. What emerges is both a grand romantic tale of coming-of-age in the Roman Empire and a vibrant portrait of the early years of a man who would become the most powerful ruler on earth: Julius Caesar. On the lush Italian peninsula, a new empire is taking shape. At its heart is the city of Rome, a place of glory and decadence, beauty and bloodshed. Against this vivid backdrop, two boys are growing to

manhood, dreaming of battles, fame, and glory in service of the mightiest empire the world has ever known. One is the son of a senator, a boy of privilege and ambition to whom much has been given and from whom much is expected. The other is a bastard child, a boy of strength and cunning, whose love for his adoptive family—and his adoptive brother—will be the most powerful force in his life. As young Gaius and Marcus are trained in the art of combat—under the tutelage of one of Rome’s most fearsome gladiators—Rome itself is being rocked by the art of treachery and ambition, caught in a tug-of-war as two rival generals, Marius and Sulla, push the empire toward civil war. For Marcus, a bloody campaign in Greece will become a young soldier’s proving ground. For Gaius, the equally deadly infighting of the Roman Senate will be the battlefield where he hones his courage and skill. And for both, the love of an extraordinary slave girl will be an honor each will covet but only one will win. The two friends are forced to walk different paths, and by the time they meet again everything will have changed. Both will have known love, loss, and violence. And the land where they were once innocent will be thrust into the grip of bitter conflict—a conflict that will set Roman against Roman . . . and put their friendship to the ultimate test. Brilliantly interweaving history and adventure, Conn Iggulden conjures a stunning array of contrasts—from the bloody stench of a battlefield to the opulence of the greatest city in history, from the tenderness of a lover to the treachery of an assassin. Superbly rendered, grippingly told, *Emperor, The Gates of*

The first of two epic novels which tell the story of one of the most charismatic heroes history has ever known - Spartacus, the gladiator slave who took on and nearly defeated the might of

Rome, during the years 73–71 BC. Historically very little is known about Spartacus. We know that he came from Thrace, a land north of Greece, that he once fought in the Roman legions and that, during two fateful years, he led a slave army which nearly brought Rome to its knees. In Ben Kane's brilliant novel, we meet Spartacus as he returns to Thrace, ready to settle down after a decade away. But a new king has usurped the throne. Treacherous and violent, he immediately seizes Spartacus and sells him to a Roman slave trader looking for new gladiators. The odyssey has begun which will see Spartacus become one of the greatest legends of history, the hero of revolutionaries from Karl Marx to Che Guevara, immortalised on screen, and now brought to life in Ben Kane's great bestseller – a novel which takes the story to its halfway point and is continued in *Spartacus: Rebellion*. Ben Kane was born in Kenya and raised there and in Ireland. He studied veterinary medicine and University College, Dublin, but after that he travelled the world extensively, indulging in his passion for ancient history. He lives in North Somerset with his wife and two young children. Carrying the narrative from General Wedemeyer's assumption of

command to the end of the war, this volume concludes with Americans still working to improve the Chinese Army while attempting to fly in sufficient supplies from India and Burma.

Based on one of history's most epic stories of adventure, *The Falcon of Sparta* masterfully depicts the ferocity, heroism, and savage bloodshed of the ancient world. Conn Iggulden, the New York Times bestselling author of the *Emperor, Conqueror, and Wars of the Roses* series, returns to the ancient world with a ferociously violent epic. 401 BC. In the ancient world, one army was feared above all others. The Persian king Artaxerxes rules an empire stretching from the Aegean to northern India. As many as fifty million people are his subjects. His rule is absolute. Though the sons of Sparta are eager to play the game of thrones . . . Yet battles can be won—or lost—with a single blow. Princes fall. And when the dust of civil war settles,

the Spartans are left stranded in the heart of an enemy's empire, without support, without food, and without water. Far from home, surrounded by foes, it falls to the young soldier Xenophon to lead the survivors against Artaxerxes's legendary Persian warriors. The fifth installment of Bernard Cornwell's bestselling Saxon Tales chronicling the epic saga of the making of England, "like Game of Thrones, but real" (The Observer, London)—the basis for The Last Kingdom, the hit television series coming to Netflix in Fall 2016. At the end of the ninth century, King Alfred of Wessex is in ill health; his heir, an untested youth. His enemy, the Danes, having failed to conquer Wessex, now see their chance for victory. Led by the sword of savage warrior Harald Bloodhair, the Viking hordes attack. But Uhtred, Alfred's reluctant warlord, proves his worth, outwitting Harald and handing the Vikings one of their greatest defeats. For Uhtred, the sweetness of victory is soon overshadowed by tragedy. Breaking with Alfred, he joins the Vikings, swearing never again to serve the Saxon king. Instead, he will reclaim his ancestral fortress on the Northumbrian coast. Allied with his old friend Ragnar—and his old foe Haesten—he aims to invade and conquer Wessex itself. But fate has different plans . . . In the year 937, the new king of England, a grandson of Alfred the Great,

readies himself to go to war in the north. His dream of a united kingdom of all England will stand or fall on one field—on the passage of a single day. At his side is the priest Dunstan of Glastonbury, full of ambition and wit (perhaps enough to damn his soul). His talents will take him from the villages of Wessex to the royal court, to the hills of Rome—from exile to exaltation. Through Dunstan’s vision, by his guiding hand, England will either come together as one great country or fall back into anarchy and misrule . . . From one of our finest historical writers, The Abbott’s Tale is an intimate portrait of a priest and performer, a visionary, a traitor and confessor to kings—the man who can change the fate of England.

The brilliant retelling of the Wars of the Roses continues with Trinity, the second gripping novel in the new series from historical fiction master, Conn Iggulden. 1454: King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness for over a year, his eyes vacant, his mind a blank. His fiercely loyal wife and Queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day know the love of his father. Richard Duke of York, Protector of the Realm, extends his influence throughout the kingdom with each month that Henry slumbers. In 1437, after years of regency, the pious and gentle Henry VI, the Lamb, comes of age and accedes to the English throne. His poor health and frailty of mind render him a weakling king - Henry depends on his closest men, Spymaster Derry Brewer and William de la Pole, Duke of Suffolk, to run his kingdom. Yet there are those, such as the Plantagenet Richard, Duke of York, who believe England must be led by a strong king if she is to survive. With England's territories in France under threat, and rumours of revolt at home, fears grow that Henry and his advisers will see the country slide into ruin. With a secret deal struck for Henry to marry a young French noblewoman, Margaret of Anjou, those fears become all too real. As storm clouds gather over England, King Henry and his supporters

find themselves besieged abroad and at home. Who, or what can save the kingdom before it is too late?
