Modernist writing has always been linked with cinema. The recent renaissance in early British film studies has allowed cinema to emerge as a major historical context for literary practice. Treating cinema as a historical rather than an aesthetic influence, this book analyzes the role of early British film culture in literature, thus providing the first account of cinema as a cause for modernism. Shail's study draws on little-known sources to create a detailed picture of cinema following its 'second birth' as both institution and medium. The book presents a comprehensive account of how UK-based modernism originated as a consequence of—rather than a conscious aesthetic response to—this new component of the cultural landscape. Film's new accounts of language, endeavor, time, collectivity and political change are first considered, then related to the patterns that comprised modernist texts. Authors discussed include Ford Madox Ford, Joseph Conrad, Wyndham Lewis, Ezra Pound, H.D., James Joyce, Virginia Woolf and Dorothy Richardson.

Even as we celebrate the return of our military from wars in the Middle East, we are becoming increasingly aware of the struggles that await veterans on the home front. Red, White, and True offers readers a collection of voices that reflect the experiences of those touched by warúfrom the children of veterans who encounter them in their fathersÆ recollections of past wars to the young men and women who fought in the deserts of Iraq and Afghanistan. The diversity of perspectives collected in this volume validates the experiences of our veterans and their families, describing their shared struggles and triumphs while honoring the fact that each personÆs military experience is different. Leila LevinsonÆs powerful essay recounts her fatherÆs experience freeing a POW camp during World War II. Pulitzer Prizeûwinning author Tracy Kidder provides a chilling account of being a new second lieutenant in Vietnam. Army combat veteran Brooke King recounts the anguish of raising her young children by day while trying to distinguish between her horrific memories of IED explosions in Baghdad and terrifying dreams by night. These individual stories of pain and struggle, along with twenty-nine others, illustrate the inescapable damage that war rends in the fabric of society and celebrate our dauntless attempts to repair these holes with compassion and courage.

This book provides an inside into the complex relationship between Hindi and Urdu. A comparison of 20th century short stories that were published in both Hindi and Urdu are used as a basis to define the boundaries between both languages.
This book is a compilation of, as the title implies, short stories, poems, and incoherent ramblings. It maintains no single style, but works around the general theme of impermanence: in life, love, science, and God.
Wallace Stegner founded the acclaimed Stanford Writing Program-a program whose alumni include such literary luminaries as Larry McMurtry, Robert Stone, and Raymond Carver. Here Lynn Stegner brings together eight of Stegner's previously uncollected essays-including four never-before-published pieces -on writing fiction and teaching creative writing. In this unique collection he addresses every aspect of fiction writing-from the writer's vision to his or her audience, from the use of symbolism to swear words, from the mystery of the creative process to the recognizable truth it seeks finally to reveal. His insights will benefit anyone interested in writing fiction or exploring ideas about fiction's role in the broader culture.

The Art & Craft of the Short Story explores every key element of short fiction, including story structure and form; creative and believable characters; how to begin and where to end; and the generation of ideas; as well as technical aspects such as point of view; plot; description and imagery; and theme. Examples from the work of a wide variety are used. The author includes five of his own stories to demonstrate these topics.
The American Short Story Cycle shows the roots of modernism and postmodernism winds through the short story cycle. Reviewers ranging from the The New York Times to Amazon do not know what to call books like Jennifer Egan?s A Visit from the Goon Squad or Jhumpa Lahiri?s Unaccustomed Earth. Why do such popular and acclaimed books spark debates about what they are and how they should be read? The American Short Story Cycle provides a history of this genre that has been hiding in plain sight. Dating back to the early nineteenth century and proliferating to the present, the short story cycle has been wildly popular both in the US and around the world. Stories in a cycle, which can be read singly but mean more together, reflect the individualism and pluralism that shape modern experience. This book gives a name and theory to the genre that has fostered the aesthetics of fragmentation and recurrence that characterize fiction today.
In this wickedly humorous manual, language columnist June Casagrande uses grammar and syntax to show exactly what makes some sentences great—and other sentences suck. Great writing isn't born, it's built—sentence by sentence. But too many writers—and writing guides—overlook this most important unit. The result? Manuscripts that will never be published and writing careers that will never begin. With chapters on "Conjunctions That Kill" and "Words Gone Wild," this lighthearted guide is perfect for anyone who's dead serious about writing, from aspiring novelists to nonfiction writers, conscientious students to cheeky literati. So roll up your sleeves and prepare to craft one bold, effective sentence after another. Your readers will thank you.

These texts are a mixture of established classics and more contemporary work. A comparative approach -- using two or more selections on the same theme -- helps students understand the qualities of the story or poem. -- Each selection is illustrated with film stills or other material to set the scene and stimulate discussion. -- Exercises focus on personal response; on discussing literary qualities such as style, character, imagery, and ideas; and on developing language awareness in terms of grammar, vocabulary, and different styles of writing.
My first aunt, Tua-Ee, left hand on hip, right hand holding a ladle of boiling salted vegetable and duck soup, would administer the test. Looking straight into our eyes, she would ask, "Is the soup done?" If we got it wrong, she scolded us, "Next time, what would your mother-in-law say, ah? Your mother n-e-v-e-r teach you. Where to put your face? So malu!" My cousin and I swore we would never ever get married and live with mothers-in-law who would administer the "Is the soup done?" test and put our mothers to shame. In this intimate collection of autobiographical stories that every woman should read, Swi offers tales of deep reflection that relate to the tears and laughter, and the love and pain felt by girls and women in Malaysia and Singapore over the last 75 years.
Swi recalls the convent sisters in Malacca who educated her and her classmates about sex, the camaraderie among girlfriends, and desires fulfilled. She explores issues of life and death and shares memories of the unforgettable men in her life. Swi holds in high regard the mothers under banana leaf umbrellas who dreamed great dreams for their children, and she introduces us to memorable characters incIduing 'bling, bling, the real thing, Pansy', a lecherous Baba patriarch and his complaining wife, a Jonker Street cake shop baker whose strong arms are made to hug, a Singaporean academic with low EQ, and a nameless Malaysian bondmaid who must secure her place in a wealthy household. These are stories from the heart.
Insofar as literary theory has addressed the issue of literature as a means of communication and the function of literary fiction, opinions have been sharply divided, indicating that the elementary foundations of literary theory and criticism still need clarifying. Many of the "classical" problems that literary theory has been grappling with from Aristotle to our time are still waiting for a satisfactory solution. Based on a new cognitive model of literature as communication, Farner systematically explains how literary fiction works, providing new solutions to a wide range of literary issues, like intention, function, evaluation, delimitation of the literary work as such, fictionality, suspense, and the roles of author and narrator, along with such narratological problems as voice, point of view and duration. Covering a wide range of literary issues central to literary theory, offering new theories while also summarising the field as it stands, Literary Fiction will be a valuable guide and resource for students and scholars of the theory of literature.
