The Eskimo curlew, which once made its migration from Patagonia to the Arctic in flocks so dense that they darkened the sky, was brought to the verge of extinction by the wanton slaughter of game-hunters. Following the doomed search of a solitary curlew for a female of its kind, Fred Bodsworth's novel is a haunting indictment of man's destruction of the natural world. From the Paperback edition.

Lynsey G. never imagined that she would ever work in porn, but at 24 years old, with a degree in English literature and an empty bank account, she found herself reviewing the film East Coast ASSault for an adult magazine in New York City. One interview later and it was official: she was a porn journalist. The job was supposed to be temporary—just a paycheck until she could spark her legitimate writing career—but she loved it and spent nearly a decade describing the nuances of money shots and the effectiveness of sex toys. As both a porn consumer and a porn critic, she was not quite an insider, not quite an outsider, but came to know the industry intimately. She found it so fascinating that she co-founded WHACK! Magazine. Finally, she had a platform to voice her thoughts and observations of the adult film world, as well as educate the rest of us about what really goes on behind the scenes. Eventually, Lynsey was thrust back into the “real? world, but not before realizing that one of the most diverse and nebulous—and profitable—industries on the planet isn't so quite as different from the rest of the world as she thought. Tantalizing, eye-opening, and witty, Watching Porn is a provocative book about an average girl's foray into the porn industry and the people who make it what it is, both in front of and behind the camera.

This volume offers groundbreaking dialogue by many of the most prominent scholars in the field in a definitive treatment of central issues in theism and Christian faith.

Orphan Leo Cotton has finally built a family, but the advent of bipolar depression wakes him from this dreamlife to reveal dark truths about the man he'd married. One year later, Leo is lost. Embarrassed by a dead-end job that barely pays the bills, he can't help but notice that those around him are all enjoying success. When his closest friend, Sara, asks him to be her best man, Leo reaches the last straw: how can he possibly afford these lavish festivities on his wages? A Grindr chance encounter reveals that a shortcut to riches does exist . . . but in the end, this reckless route may cost him the loved-ones he aims to impress and welcome terrible danger . . . Leo's trip will take him afar, but answers lie only within.

This family-sized compendium presents 250 of the greatest riddles and puzzles of all time. There are classical logic puzzles, lateral thinking puzzles, "who am I?" riddles, mathematical brain teasers, word ladders, ditloids, and a large selection of illustrated pen and paper, coins, cups, and toothpicks puzzles (please view the preview of this book for a full listing). This is the first time a collection of such breadth has been compiled and formatted especially for e-reader devices. The puzzles have been carefully organized into 25 chapters, and each question is hyperlinked to its solution, to provide utmost ease of navigation. Alongside the world's most famous riddles, are some lesser known gems, and some brand new puzzles, in print here for the first time. Our aim was to create a definitive compendium of riddles and puzzles to bring enjoyment to people of all ages. We hope you will enjoy unraveling them as much as we enjoyed creating and editing them. Here are a handful of sample riddles: Outside the Box Riddles: You need to divide a round birthday cake into eight pieces, so each of your guests will have something to eat. How can you do this by making only three straight cuts with a knife, and without moving any of the pieces? The king's two bodyguards developed an ingenious method for assuring the king's safety. With the king standing between them, they would face in opposite directions; one looking to the west and the other to the east, but at the same time, and without the use of any reflective surfaces, they would both be able to observe the king clearly. How was this possible? Pure Logic Riddles: There are two glasses. One contains water, and the other contains an equal quantity of wine. A teaspoon of water is removed and mixed into the glass of wine. A teaspoon of the wine-water mixture is then removed and mixed into the glass of water. Which of the mixtures is now purer? The sorcerer's tower was enchanted in such a way that it was able to build itself. Bricks, slates, tiles, and panes of glass, all flew to it of their own accord and danced into position. The tower doubled in size every day until after 100 days it reached a height that provided fine views over the entire realm. How many days did the tower take to reach half its full height? Lateral Thinking Puzzles: Five men are going to church. It starts to rain, and four of the men begin to run. When they arrive at the church, the four men who ran are soaking wet, whereas the fifth man, who didn't run, is completely dry. How is this possible? Think Twice Riddles: If you are running a race, and you overtake the person in second place, what place do you move into? Word Riddles: SOS is read the same forwards, backwards, and even upside-down. What four-letter word also shares these properties? Number Puzzlers: How many letters are there in the answer to this question? You have an opportunity to buy a hen. In fact, you have been offered a choice between two quite remarkable animals. One of the hens produces six dozen dozen eggs per month, and the other produces a half dozen dozen. Admittedly, both seem impressive. Does it matter which hen you choose? Traditional Poetic Riddles: Five creatures cross a field of snow; But leave a single track behind Whose loops and bows are soon, I know, Unravalled by the mind. Coins, Cups, and Toothpicks Illustrated Riddles: A coin is dropped into an empty bottle and a cork is then inserted in the neck of the bottle. How is it possible to remove the coin without taking out the cork, or breaking the bottle? At Elsinore Books we pride ourselves on creating beautiful e-books, and devote great attention to formatting, and ease of navigation. This book contains a cleanly styled contents page that permits easy movement between puzzles. You can return at any time to the contents page by clicking on the name of each chapter.

Project Procurement: A Real-World Guide to Procurement Skills provides insight into the procurement community across sectors and across the globe. Here, the author covers the most widely used techniques and methods for supplier management, including supplier qualification and selection, supplier development, and supplier performance evaluation during different project stages—topics that have rarely been discussed in the procurement community, because they have traditionally been the area of expertise among financial experts. This book will take you through different types of contracts, their selection in particular scenarios, and illustrates them through real-life examples. Accessible and far-reaching in its grasp of various project procurement scenarios, this book is an indispensable reference for procurement professionals making a career in buying, from junior buyers up to the supply-chain heads of organizations.

In the wake of what has come to be called the 'cultural turn', it is often asked how the state should respond to the different and sometimes conflicting justice claims made by its citizens and what, ultimately, is the purpose of justice in culturally diverse societies. Building upon the work of a diversity of theorists, this book demonstrates that there is a distinct 'epistemic' tradition of liberalism that can be used to critique contemporary responses to cultural diversity and their underlying principles of justice. It critically examines multicultural, nationalist and liberal egalitarian approaches and argues that an epistemic account of liberalism, that emphasises social complexity rather than cultural diversity or homogeneity, is the most appropriate response to the question of justice in modern culturally diverse societies. Epistemic Liberalism will be of interest to students and scholars of contemporary political theory and philosophy, liberal political theory and the politics of culture and identity.

AN INDIE NEXT PICK! Jennifer E. Smith meets *The Fangirl's Guide to the Galaxy* in Lily Anderson's *Not Now, Not Ever*, a deliciously nerdy companion to *The Only Thing Worse than Me Is You* ONE OF Paste's BEST YOUNG ADULT BOOKS IN NOVEMBER 2017 "A wonderful book." —School Library Journal Elliot Gabaroché is very clear on what she isn't going to do this summer. 1. She isn't going to stay home in Sacramento, where she'd have to sit through her stepmother's sixth community theater production of *The Importance of Being Earnest*. 2. She isn't going to mock trial camp at UCLA. 3. And she certainly isn't going to the Air Force summer program on her mom's base in Colorado Springs. As cool as it would be to live-action-role-play *Ender's Game*, Ellie's seen three generations of her family go through USAF boot camp up close, and she knows that it's much less Luke/Yoda/"feel the force," and much more one hundred push-ups on three days of no sleep. And that just isn't appealing, no matter how many Xenomorphs from *Alien* she'd be able to defeat afterwards. What she is going to do is pack up her determination, her favorite Octavia Butler novels, and her Jordans, and run away to summer camp. Specifically, a cutthroat academic-decathlon-like competition for a full scholarship to Rayevich College—the only college with a Science Fiction Literature program, and her dream school. She's also going to start over as Ever Lawrence: a new name for her new beginning. She's even excited spend her summer with the other nerds and weirdos in the completion, like her socially-awkward roommate with neon-yellow hair, and a boy who seriously writes on a typewriter and is way cuter than is comfortable or acceptable. The only problem with her excellent plan to secretly win the scholarship and a ticket to her future: her golden-child, super-genius cousin Isaiah has had the same idea, and has shown up at Rayevich smugly ready to steal her dreams and expose her fraud in the process. This summer's going to be great.

Katerina is stifled by her loveless marriage to a bitter man twice her age, whose family are cold and unforgiving. When she embarks on a passionate affair with a young worker on her husband's estate, a force is unleashed inside her, so powerful that she will stop at nothing to get what she wants. Leskov's wrote the novella in the Kiev university's punishment room. He described how his hair stood on end as he worked on it alone in that cold place and swore he would never describe such horrors again. It was published in Dostoyevsky's Epoch magazine in 1865 and is a picture of almost unrelieved wickedness and passion. Ignored at first by contemporaries it is now regarded as a masterpiece.

The New York Times Bestseller Peggy Orenstein broke ground with her bestselling *Girls & Sex*, exploring young women's right to pleasure and agency in sexual encounters. Now she turns her focus to boys with an examination of how young men are navigating sexual culture in these changing times - and what we need to do help them. Drawing on comprehensive interviews with young men, psychologists and experts in the field, *Boys & Sex* dissects 'locker room talk'; pornography as the new sex education; the role of empathy; boys' understanding of hookup culture and consent; and their experience as both perpetrators and victims of sexual assault. By presenting young men's experience in all its complexity, Orenstein unravels the hidden truths, hard lessons and important realities of young male sexuality in today's world. The result is a provocative and paradigm-shifting work that offers a much-needed vision of how boys can truly move forward as better men.

When post-grad Rachael Hamilton accidentally gate-crashes a pro-athlete party, she ends up face-to-face with Ryan Carter, the NFL's most beloved quarterback. While most girls would be thrilled to meet the attractive young millionaire, Rachael would rather spend time with books than at sporting events, and she has more important things to worry about than romance. Like her parents pressuring her to leave her unpaid publishing internship for law school. But when Ryan's rookie teammate attaches himself to Rachael, she ends up cohosting Friday-night dinners for half a dozen football players. Over pancake brunches, charity galas and Alexander the Great, Rachael realizes all the judgments she'd made about Ryan are wrong. But how can a Midwestern Irish-Catholic jock with commitment problems and an artsy, gun-shy Jewish New Englander ever forge a partnership? Rachael must let down her barriers if she wants real love—even if that opens her up to pain that could send her back into her emotional shell forever. 89,000 words

In today's globalized world, halal (meaning 'permissible' or 'lawful') is about more than food. Politics, power and ethics all play a role in the halal industry in setting new standards for production, trade, consumption and regulation. The question of how modern halal markets are constituted is increasingly important and complex. Written from a unique interdisciplinary global

perspective, this book demonstrates that as the market for halal products and services is expanding and standardizing, it is also fraught with political, social and economic contestation and difference. The discussion is illustrated by rich ethnographic case studies from a range of contexts, and consideration is given to both Muslim majority and minority societies. Halal Matters will be of interest to students and scholars working across the humanities and social sciences, including anthropology, sociology and religious studies.

Divided into three sections, Linda Phyllis Austern collects eighteen, cross-disciplinary essays written by some of the most important names in the field to look at this stimulating topic. The first section focuses on the cultural and scientific ways in which music and the sense of hearing work directly on the mind and body. Part Two investigates how music works on the socially constructed, representational or sexualized body as a means of healing, beautifying and maintaining a balance between the mental and physical. Finally, the book explores the action of music as it is heard and sensed by wider social units, such as the body politic, mass communication, from print to sound recording, and broadcast technologies.

The strong God of Exodus. The ancient poetry of the Psalms, and the eternal teachings of Proverbs. Matthew, Mark, Luke, and the mystical beauty of John. The new heaven and earth of Revelation. Bible verses—an enduring source of guidance, peace, and rejuvenation—are here given a very special treatment in colorful letterpress illustrations that bring each phrase to life in a fresh and meaningful way. The verses are drawn from seven translations (including the New International Version, The New Revised Standard Version, and The King James Bible) and arranged in order, beginning with Genesis 1:1. These selections include 100 of the most distinctly meaningful passages of the Old and New Testament, made even more powerful through the transformative lens of art. Like a contemporary update on medieval illuminated manuscripts, the book combines the timeless words of the Bible with timely artwork—in this case, hand-lettering and illustration in a variety of beautiful styles and remarkable aesthetics from 25 contemporary artists. It's a new and vibrant way to experience the living word.

'How lovely - green velvet and silver. I call that a dream, so soft and delicious, too.' She rubbed a fold of the skirt against her cheek. 'Mine's silver lamé, it smells like a bird cage when it gets hot but I do love it. Aren't you thankful evening skirts are long again?' Ah, the dresses! But oh, the monotony of the Season, with its endless run of glittering balls. Even fabulously fashionable Polly Hampton - with her startling good looks and excellent social connections - is beginning to wilt under the glare. Groomed for the perfect marriage by her mother, fearsome Lady Montdore, Polly instead scandalizes society by declaring her love for her uncle 'Boy' Dougdale, the Lecherous Lecturer, and promptly eloping to France. But the consequences of this union no one could quite expect . . . Love in a Cold Climate is the wickedly funny follow-up to The Pursuit of Love and explores the mystery of sexual attraction.

Named One of the 16 Best Young Adult Books of 2016 (So Far) by Paste Magazine! Trixie Watson has two very important goals for senior year: to finally save enough to buy the set of Doctor Who figurines at the local comic books store, and to place third in her class and knock Ben West--and his horrendous new mustache that he spent all summer growing--down to number four. Trixie will do anything to get her name ranked over Ben's, including give up sleep and comic books--well, maybe not comic books--but definitely sleep. After all, the war of Watson v. West is as vicious as the Doctor v. Daleks and Browncoats v. Alliance combined, and it goes all the way back to the infamous monkey bars

incident in the first grade. Over a decade later, it's time to declare a champion once and for all. The war is Trixie's for the winning, until her best friend starts dating Ben's best friend and the two are unceremoniously dumped together and told to play nice. Finding common ground is odious and tooth-pullingly-painful, but Trixie and Ben's cautious truce slowly transforms into a fandom-based tentative friendship. When Trixie's best friend gets expelled for cheating and Trixie cries foul play, however, they have to choose who to believe and which side they're on—and they might not pick the same side. Stephanie Perkins meets 10 Things I Hate About You in *The Only Thing Worse Than Me Is You*, a fresh, romantic debut from author Lily Anderson inspired by *Much Ado About Nothing*.

You Took the Last Bus Home is the first and long-awaited collection of ingeniously hilarious and surprisingly touching poems from Brian Bilston, the mysterious 'Poet Laureate of Twitter'. With endless wit, imaginative wordplay and underlying heartache, he offers profound insights into modern life, exploring themes as diverse as love, death, the inestimable value of a mobile phone charger, the unbearable torment of forgetting to put the rubbish out, and the improbable nuances of the English language. Constantly experimenting with literary form, Bilston's words have been known to float off the page, take the shape of the subjects they explore, and reflect our contemporary world in the form of Excel spreadsheets, Venn diagrams and Scrabble tiles. This irresistibly charming collection of his best-loved poems will make you laugh out loud while making you question the very essence of the human condition in the twenty-first century.

The most comprehensive collection of essays on Renaissance poetry on the market. Covering the period 1520–1680, *A Companion to Renaissance Poetry* offers 46 essays which present an in-depth account of the context, production, and interpretation of early modern British poetry. It provides students with a deep appreciation for, and sensitivity toward, the ways in which poets of the period understood and fashioned a distinctly vernacular voice, while engaging them with some of the debates and departures that are currently animating the discipline. *A Companion to Renaissance Poetry* analyzes the historical, cultural, political, and religious background of the time, addressing issues such as education, translation, the Reformation, theorizations of poetry, and more. The book immerses readers in non-dramatic poetry from Wyatt to Milton, focusing on the key poetic genres—epic, lyric, complaint, elegy, epistle, pastoral, satire, and religious poetry. It also offers an inclusive account of the poetic production of the period by canonical and less canonical writers, female and male. Finally, it offers examples of current developments in the interpretation of Renaissance poetry, including economic, ecological, scientific, materialist, and formalist approaches.

- Covers a wide selection of authors and texts
- Features contributions from notable authors, scholars, and critics across the globe
- Offers a substantial section on recent and developing approaches to reading

Renaissance poetry A Companion to Renaissance Poetry is an ideal resource for all students and scholars of the literature and culture of the Renaissance period. Anthony Lane on Con Air— “ Advance word on Con Air said that it was all about an airplane with an unusually dangerous and potentially lethal load. Big deal. You should try the lunches they serve out of Newark. Compared with the chicken napalm I ate on my last flight, the men in Con Air are about as dangerous as balloons. ” Anthony Lane on The Bridges of Madison County— “ I got my copy at the airport, behind a guy who was buying Playboy ’ s Book of Lingerie, and I think he had the better deal. He certainly looked happy with his purchase, whereas I had to ask for a paper bag. ” Anthony Lane on Martha Stewart— “ Super-skilled, free of fear, the last word in human efficiency, Martha Stewart is the woman who convinced a million Americans that they have the time, the means, the right, and—damn it—the duty to pipe a little squirt of soft cheese into the middle of a snow pea, and to continue piping until there are ‘ fifty to sixty ’ stuffed peas raring to go. ” For ten years, Anthony Lane has delighted New Yorker readers with his film reviews, book reviews, and profiles that range from Buster Keaton to Vladimir Nabokov to Ernest Shackleton. Nobody ’ s Perfect is an unforgettable collection of Lane ’ s trademark wit, satire, and insight that will satisfy both the long addicted and the not so familiar.

----- How should we talk about sex? It is a thing we have and also a thing we do; a supposedly private act laden with public meaning; a personal preference shaped by outside forces; a place where pleasure and ethics can pull wildly apart. Since #MeToo many have fixed on consent as the key framework for achieving sexual justice. Yet consent is a blunt tool. To grasp sex in all its complexity - its deep ambivalences, its relationship to gender, class, race and power - we need to move beyond 'yes and no', wanted and unwanted. We need to interrogate the fraught relationships between discrimination and preference, pornography and freedom, rape and racial injustice, punishment and accountability, pleasure and power, capitalism and liberation. We need to rethink sex as a political phenomenon. Searching, trenchant and extraordinarily original, *The Right to Sex* is a landmark examination of the politics and ethics of sex in this world, animated by the hope of a different one.

One in a series of books analyzing the political, economic, social and national security systems and institutions of a range of countries, and how they are shaped by cultural factors. Here, Armenia, Azerbaijan and Georgia are examined both as they existed before and during the Soviet era, and how they have developed since 1991. The marked relaxation of information restrictions, which began in the late 1980s and accelerated after 1991, has allowed the reporting of nearly complete data on every aspect of life in the three countries.

Tory-voting writer met Hussein Sharif, 22, an African-born, inner city, Tory-hating Muslim, they assumed they had little in common. But newly related by marriage, they decided to go on a walk through Britain to get to know each other. Guy's mission was to explain to Hussein how wonderful British life and culture was, and Hussein's was to describe to Guy the realities of life as a young black Muslim in Britain in 2019. Over a forty-mile hike they made friends, fell out, told stories, encountered strangers, argued, laughed and got very sore feet. Held up by COVID-19 and dramatically diverted by BLM, they reached the end of their walk together, but for both of them it marked the start of a new and more important journey.

Veronica Mars meets *The Craft* when a teen girl investigates the suspicious deaths of three classmates and accidentally ends up bringing them back to life to form a hilariously unlikely--and unwilling--vigilante girl gang. Meet teenage Wiccan Mila Flores, who truly could not care less what you think about her Doc Martens, her attitude, or her weight because she knows that, no matter what, her BFF Riley is right by her side. So when Riley and Fairmont Academy mean girls June Phelan-Park and Dayton Nesseth die under suspicious circumstances, Mila refuses to believe everyone's explanation that her BFF was involved in a suicide pact. Instead, armed with a tube of lip gloss and an ancient grimoire, Mila does the unthinkable to uncover the truth: she brings the girls back to life. Unfortunately, Riley, June, and Dayton have no recollection of their murders. But they do have unfinished business to attend to. Now, with only seven days until the spell wears off and the girls return to their graves, Mila must wrangle the distracted group of undead teens and work fast to discover their murderer...before the killer strikes again.

Based on a discussion of conflicts in the urbanization process, this book provides theoretical and practical solutions for the preservation and development of urban localities. On the basis of informative case studies, it reveals the similarities and unique aspects of urbanization in Germany and China. The process of urban growth and the future trend of locality and urbanization are also examined. The book gathers contributions from architects, landscape designers, environmental engineers, urban planners and geographers, who analyze urban issues from their individual perspectives and provide methods for preserving and developing urban localities. As such, it expresses responses to urban development trends against the backdrop of sustainability in the 21st century.

The latest version, Scratch 3, features an updated interface, new sprites and programming blocks, and extensions that let you program things like the micro:bit. In Super Scratch Programming Adventure!, kids learn programming fundamentals as they make their very own playable video games. They'll create projects inspired by classic arcade games that can be programmed (and played!) in an afternoon. Patient, step-by-step explanations of the code and fun programming challenges will have kids creating their own games in no time. This full-color comic book makes programming concepts like variables, flow control, and subroutines effortless to absorb. Packed with ideas for games that kids will be proud to show off, Super Scratch

Programming Adventure! is the perfect first step for the budding programmer. Covers Scratch 3

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include:

- types of school refusers
- why children refuse to go to school
- symptoms
- short term and long term consequences
- accurate assessment
- treatment options
- what parents can do
- what schools can do
- dealing with anxious high achievers
- how to help children on the autism spectrum with school refusal

A biography of venture capitalist and entrepreneur Peter Thiel, the enigmatic, controversial and hugely influential power broker who sits at the dynamic intersection of tech, business and politics Since the days of the dot-com bubble in the late 1990s, no industry has made a greater global impact than Silicon Valley. And few individuals have done more to shape Silicon Valley than billionaire venture capitalist and entrepreneur Peter Thiel. From the technologies we use every day to the delicate power balance between Silicon Valley, Wall Street and Washington, Thiel has been a behind-the-scenes operator influencing countless aspects of contemporary life. But despite his power and the ubiquity of his projects, no public figure is quite so mysterious. In the first major biography of Thiel, Max Chafkin traces the trajectory of the innovator's singular life and worldview, from his upbringing as the child of immigrant parents and years at Stanford as a burgeoning conservative thought leader to his founding of PayPal and Palantir, early investment in Facebook and SpaceX, and relationships with fellow tech titans Mark Zuckerberg, Elon Musk and Eric Schmidt. The Contrarian illuminates the extent to which Thiel has sought to export his values to the corridors of power beyond Silicon Valley, such as funding the lawsuit that bankrupted the blog Gawker to strenuously backing far-right political candidates, including Donald Trump for president. Eye-opening and deeply reported, The Contrarian is a revelatory biography of a one-of-a-kind leader and an incisive portrait of a tech industry whose explosive growth and power is both thrilling and fraught with controversy.
