In these troubled times, do you wonder about the future and the destiny of humanity? Do you want to know the true purpose of your existence on Earth and in the Universe? The most secret book in the world holds the answers you seek! Named as one of the 100 Most Spiritually Influential Living People by Watkins Mind Body Spirit, Zinovya Dushkova, Ph.D., is one of the few who has gained access to the million-year-old manuscript widely known as the Book of Dzyan, which contains answers to humanity's most pressing questions. Written in the language of the Gods, called Sanzar, it is secretly hidden in the heart of the Himalayas, accessible to only a chosen few over the course of human history, including Gautama Buddha, Jesus Christ, Pythagoras, Plato, and Helena Blavatsky. Now, for the first time ever, Dr. Dushkova has presented a never-before-seen excerpt from the mysterious Book of Dzyan in The Book of Secret Wisdom to bring new meaning and hope into your life. Beautiful and enlightening, it will reveal not only our past, but also our present and future. To facilitate your understanding of this profound and poetic text, the book contains a comprehensive glossary gleaned from the supreme sources of wisdom. In The Book of Secret Wisdom, you will discover the answers to these questions: • What are the ultimate goal and purpose of human existence? • What is the cause of natural disasters, global warming, and epidemics? • What really happened in 1999 and 2012? • What Great Event occurred invisibly in 2017? • When will Armageddon and the Last Judgment occur? • What should you expect in the coming decades? • Why are people dying, and is there a chance to be immortal? • Why does it seem that time is speeding up? • What is the famous Philosopher's Stone? and much, much more! The all-embracing and undistorted Truth presented in this book was once accessible only to the privileged initiates of ancient civilizations who spent much of their lives seeking it. But now it is available to you in the pages of The Book of Secret Wisdom, a book that offers unprecedented access to the world's most ancient mysteries. If you are a spiritual seeker who enjoys expanding the boundaries of your understanding, this book is for you. "This book is an immeasurable treasure of knowledge. Its depth and scope are incredible." – 2016 Benjamin Franklin Awards Judge "It reads beautifully like a storybook, feels like a fable, and reveals valuable lessons of love for this lifetime." – Alyson Gracie, Wellness Specialist, Pilates & Yoga Instructor "One of the most inspiring, all encompassing, volumes of true truth I have read in all my years of seeking truth." – April Gieseking "It is deep, deeper and vast than you could have ever imagined." – Aakriti, Goodreads Don't wait! Buy The Book of Secret Wisdom now to unveil the future and destiny of humanity!

The Asia-Pacific region needs to maximize the benefits of education to enable it to compete in an economic future dominated by innovation, in which assessing student progress must be an empowering rather than delimiting factor. This detailed exposition of the theoretical basis and application tools of self-directed learning-oriented assessment (SLOA) reflects the very latest research championed by the Assessment Research Centre at The Hong Kong Institute of Education. Featuring a range of relevant case studies, it explores the varied theoretical issues related to SLOA and offers an integrated view of the system fully in line with the constructivist paradigm of learning which advocates formative rather than summative assessment. Many of the initiatives outlined here are firsts in the region. SLOA is already being applied in many schools with links to the ARC. It is an approach to assessment that acknowledges the centrality of self-directed learning and which positions assessment as a tool to enable and enhance self-directed learning. It draws on several theories of learning and assessment, including the constructivist notion that learning is best achieved when students take ownership of their educational process, setting their own goals and monitoring their own progress towards those goals. SLOA has been the research and service approach of the ARC since 2005. In the intervening years the centre has developed a number of tools to facilitate SLOA learning and assessment, including vertical ability scales, teacher-friendly computer software and packages for self-directed learning.
