But when two of her models are found gruesomely murdered within weeks of one another, Sarah begins to suspect it's more than mere coincidence. Teamed with a motley crew of friends--including a street urchin, a gay aristocrat, a Jewish butcher and his wife, and a beautiful young actress--Sarah delves into the crime of the century. But just as she starts unlocking the Ripper's secrets, she catches the attention of the local police, who believe she knows more than she's revealing, as well as from the Ripper himself, now bent on silencing her and her friends for good. Caught in the crosshairs of a ruthless killer, Sarah races through Whitechapel's darkest alleys to find the truth...until she makes a shocking discovery that challenges everything she thought she knew about the case. Portrait Of A Killer: Jack The Ripper -- Case Closed

Investigate one of the most compelling killers of all time! **Jack the Ripper: The Casebook** takes readers on a tour of Victorian London's underworld where the slayings took place, from street corner taverns to unsavory lodging houses. One by one the murder victims are revealed, the circumstances of their killings investigated, and the suspects analyzed. What amateur sleuths will find most fascinating here are the many facsimiles of contemporary documents, including letters allegedly sent by Jack the Ripper to police and elsewhere, police reports, press articles, and personal correspondence. These facsimiles provide readers with access to all the available information so they, too, can try to unravel this century-old mystery.

Having discovered the double identity of the wealthy Transylvanian nobleman, Count Dracula, a small group of people vow to rid the world of the evil vampire. Horrific, horrendous, unspeakable, **The Whitechapel Murderer, Jack the Ripper**, stalked the streets of East London in 1888, slaughtering prostitutes and bewildering the police who were hunting him. They never succeeded in apprehending him, and

to this day the mystery of his identity remains an enigma. But he did leave clues to his identity, and numerous theories have been entertained throughout the one hundred and twenty years since he held London's East End in his grip of terror. This book looks at the evidence left by the murderer and the reports and investigative papers which recorded the atrocities that the Ripper performed. It takes time to analyse the existing information and evaluate the letters sent to the police. It is the strongest and most powerful book ever written on the murders. It dispels a lot of myths attached to the Ripper, and eliminates a lot of the previously conjectured perpetrators, leaving only those who realistically could have been...Jack the Ripper.

Jack the Ripper

Now updated with new material that brings the killer's picture into clearer focus. In the fall of 1888, all of London was held in the grip of unspeakable terror. An elusive madman calling himself Jack the Ripper was brutally butchering women in the slums of London's East End. Police seemed powerless to stop the killer, who delighted in taunting them and whose crimes were clearly escalating in violence from victim to victim. And then the Ripper's violent spree seemingly ended as abruptly as it had begun. He had struck out of nowhere and then vanished from the scene. Decades passed, then fifty years, then a hundred, and the Ripper's bloody sexual crimes became anemic and impotent fodder for puzzles, mystery weekends, crime conventions, and so-called "Ripper Walks" that end

with pints of ale in the pubs of Whitechapel. But to number-one New York Times bestselling novelist Patricia Cornwell, the Ripper murders are not cute little mysteries to be transformed into parlor games or movies but rather a series of terrible crimes that no one should get away with, even after death. Now Cornwell applies her trademark skills for meticulous research and scientific expertise to dig deeper into the Ripper case than any detective before her—and reveal the true identity of this fabled Victorian killer. In *Portrait of a Killer: Jack the Ripper, Case Closed*, Cornwell combines the rigorous discipline of twenty-first century police investigation with forensic techniques undreamed of during the late Victorian era to solve one of the most infamous and difficult serial murder cases in history. Drawing on unparalleled access to original Ripper evidence, documents, and records, as well as archival, academic, and law-enforcement resources, FBI profilers, and top forensic scientists, Cornwell reveals that Jack the Ripper was none other than a respected painter of his day, an artist now collected by some of the world's finest museums: Walter Richard Sickert. It has been said of Cornwell that no one depicts the human capability for evil better than she. Adding layer after layer of circumstantial evidence to the physical evidence discovered by modern forensic science and expert minds, Cornwell shows that Sickert, who died peacefully in his bed in 1942, at the age of 81, was not only one of Great Britain's greatest painters but also a serial killer, a damaged diabolical man driven by megalomania and hate. She exposes Sickert as the

author of the infamous Ripper letters that were written to the Metropolitan Police and the press. Her detailed analysis of his paintings shows that his art continually depicted his horrific mutilation of his victims, and her examination of this man's birth defects, the consequent genital surgical interventions, and their effects on his upbringing present a casebook example of how a psychopathic killer is created. New information and startling revelations detailed in *Portrait of a Killer* include: - How a year-long battery of more than 100 DNA tests—on samples drawn by Cornwell's forensics team in September 2001 from original Ripper letters and Sickert documents—yielded the first shadows of the 75- to 114 year-old genetic evid...

Between the mid and late 1970s, Bundy admitted to the murders of more than thirty young women and girls across the American states of Washington, Oregon, Idaho, Utah, and Colorado. Reports of Bundy's murders reached the police and trickled down through the press to ordinary citizens; panic ensued. Yet while the killings were taking place, no-one could see that the string of brutal murders happening all over the northwest of America was perpetrated by the same man. Ted Bundy's story does not end with his capture, nor does it end with his trial and conviction. Even moments before he was executed by electric chair, the most notorious serial killer in U.S. history revealed more crimes and more victims. We will never know the true number of Bundy's victims. Edmund Kemper To the average American, there was nothing out of the ordinary about Edmund Kemper before 1973. Standing at six-foot-nine, the young man was a giant, but he was gentle, soft spoken, and shy. He lived with his mother into his mid-

twenties and frequented local bars, cozying up to police officers--a job he had once hoped to hold himself but couldn't since he was too tall. This was one reality of Kemper's life--the reality he wanted those around him to see. There was another side to the man though, a much darker side. Kemper's actions in his life shocked America, who dubbed him the Co-Ed Killer for his urge to murder and violate co-ed girls in Northern California. H. H. Holmes H. H. Holmes' story has become one of legend. Holmes committed his crimes at a time in history where the idea of murdering on a mass scale was just being introduced to the world through the actions of Jack the Ripper. Unlike Jack the Ripper though, Holmes' motives were clear; he killed out of greed, convenience, and curiosity. Fueled by an intense desire for money, Holmes sought the fastest way to make money with the least amount of effort possible. Throughout his life he would commit devastating murders for money, properly earning him the title of America's first serial killer. Charles Manson A small man with wild, matted hair, wide eyes, and a swastika tattooed on his forehead, Charles Manson is instantly recognizable as the deranged cult leader who was responsible for the deaths of nine people in the late 1960s. Manson was a career criminal who got his education in the U.S. prison system and learned at an early age that only those who have power over others will survive. Jack the Ripper In 1888, between August and November, the women of London's East End were terrorized by a deranged serial killer. A man was stalking the streets at night, seizing random women who worked those streets and killing them. This man mutilated his victim's bodies after death, removing body parts, taking

**organs. No one has ever been able to identify Jack the Ripper.
