*This book collects selected papers from the 7th Conference on Signal and Information Processing, Networking and Computers held in Rizhao, China, on September, 2020. The 7th International Conference on Signal and Information Processing, Networking and Computers (ICSINC) was held in Rizhao, China, on September, 2020.*

*Ever felt like you need an inspired action plan on how to step up? Stepping up could be about taking on your first leadership or management role. It could be about changing*

## Online Library Step Up To Networking

*your career, or leaving employment to start up on your own. It could be about changing the way you run a team already under your management. Whatever your circumstances, you will face the same issues we all do: changing attitudes, changing technology and our fast-moving rollercoaster of a world. Stepping Up will inspire and equip you to understand and respond to that change and develop your ability to lead yourself and others through it. Follow the practical five point framework on how to step up and fulfil your ambitions:*

- 1. Vision – How to reset your rules in a complex and changing landscape*
- 2. Values –*

## Online Library Step Up To Networking

*Develop your leadership mission by understanding why you want to lead 3. Velocity – Invest in yourself and build the skills and capabilities of a great leader 4. Votes – Invest in your team and bring together a fantastic team of people to take you on your journey 5. Victories – Deliver brilliant results and ensure you can deliver on your promises Accelerate your skills and potential, and take charge of your leadership career. “This book is so needed. A manual for the leadership generation that want to create their own future.” Kathryn Parsons. Co-Founder & Co-CEO, Decoded. ““Leadership can*

Software Defined Networks: A Comprehensive Approach, Second Edition provides in-depth coverage of the technologies collectively known as Software Defined Networking (SDN). The book shows how to explain to business decision-makers the benefits and risks in shifting parts of a network to the SDN model, when to integrate SDN technologies in a network, and how to develop or acquire SDN applications. In addition, the book

## Online Library Step Up To Networking

emphasizes the parts of the technology that encourage opening up the network, providing treatment for alternative approaches to SDN that expand the definition of SDN as networking vendors adopt traits of SDN to their existing solutions. Since the first edition was published, the SDN market has matured, and is being gradually integrated and morphed into something more compatible with mainstream networking vendors. This book reflects these changes, with coverage of the OpenDaylight controller and its support for multiple southbound protocols, the Inclusion of NETCONF in discussions on controllers and devices, expanded coverage of

## Online Library Step Up To Networking

NFV, and updated coverage of the latest approved version (1.5.1) of the OpenFlow specification.

Contains expanded coverage of controllers Includes a new chapter on NETCONF and SDN Presents
