This issue of the annual architectural journal provides an invaluable survey of the most noteworthy and critical developments in Dutch architecture over the past year, focusing particularly on new types of housing, circular economy, and the public role of architecture in the era of privatization.

Hauptbeschreibung European law (EC law and EEA law) was suddenly confronted with the great global crisis of the financial markets in the autumn of 2008 in an intensity never experienced before. How flexible the rules on the internal market of the European Union and on the European Economic Area are shaped in order to cope with the challenges of such an era of crisis is the topic of this volume. Its seven contributions analyse the impact of the crisis on the free movement of capital, the free movement of services, the rules on competition and the development of the relation between Norway and the European Union.

Zeno's Republic, a design of the ideal state consisting of gods and wise citizens, is subjected to a new reading as the vision of a society where life is lived according to natural law. Attached are the fragments with German translations. Zenons Politeia, der Entwurf eines idealen Staates aus Göttern und Weisen, erfährt in der vorliegenden Studie eine neue Deutung als

Gesellschaftsform, in der das Leben nach dem Gesetz der Natur verwirklicht ist. Beigegeben ist eine Sammlung der Testimonien.

Voluntary death plays a central role in various discourses of the Hebrew Bible, Second Temple Period Judaism, Early Christianity and its pagan environment, Rabbinic Judaism as well as in Islam. The established concepts of martyrdom are challenged. - Das freiwillige Sterben spielt eine zentrale Rolle in zahlreichen Diskursen der Hebräischen Bibel, im Judentum des Zweiten Tempels, im frühen Christentum und seiner paganen Umwelt, im rabbinischen Judentum und im Islam. Ein verallgemeinernder Martyriumsbegriff wird der Komplexität dieses Phänomens nicht gerecht.

Hauptbeschreibung On 9 November 1989, the Berlin Wall was opened, signalling the beginning of the end of the communist regimes in Central and Eastern Europe. By 1990, free elections had been held in most countries in the region. Forty - in some cases fifty - years of communism had come to an end. However, the 'revolutions' of 1989 were not uniform processes: the starting points were different, the trajectories were different

- and outside Central Europe even the outcomes of the transitions from communism were different. The fall of communism also caused the Soviet empire to crumble, and the Soviet Union itself fell apart in December 1991 - as did Czechoslovakia in 1993, and Yugoslavia in a gradual process that was to last from 1991 to 2008. This book originated in a conference held in Oslo 11-13 November 2009, arranged by the E.ON Ruhrgas scholarship programme for political science, and commemorating the 20th anniversary of the 'revolutions' in Central and Eastern Europe. The 16 chapters take stock of developments after 1989, with special emphasis on the causes and effects of the transitions, including the processes of state unification and separation that followed in the wake of the 'revolutions'. The book is divided into four main parts: regime transitions from communism; state unification and separation; party system continuity and change since 1989 (in Germany, the Czech Republic, Hungary, and Poland); and on the effects of German unification on external and internal German relations. The geographical scope thus varies from chapter to chapter, but the main emphasis is on Germany and its closest Central European neighbours. A three-level series of grammar reference and practice books for teenage and young adult learners. Active Grammar Level 2 covers all the grammatical points usually taught at B1-B2 (CEF) level. The book presents grammar points in meaningful context through engaging and informative texts, followed by clear explanations. Useful tips highlight common mistakes that intermediate students usually make. Carefully graded exercises provide plenty of challenging practice and encourage students to apply their own ideas creatively to grammar learning. A large number of contrastive revision exercises in the book and on the CD-ROM allow students to assess and monitor their progress. This version without answers and CD-ROM is suitable for classroom use and self-study.

*Uzbekistan to Mauretania and Nigeria, from Malta to Sudan, and including the Ki-Nubi Creole as spoken in Uganda and Kenya. The multilingual word atlas will consist of three volumes in total with some 500 onomasiological maps in full colour. Each map presents a topic or notion and its equivalents in Arabic as collected from the dialectological literature (dictionaries, grammars, text collections, ethnographic reports, etc.), from the editors' own field work, from questionnaires filled out by native speakers or by experts for a certain dialect region, and also from the internet. This first volume "Mankind, Nature, Fauna and Flora" contains subjects such as 'family members', 'professions', 'human qualities'. The atlas will be indispensable for everyone interested in the modern spoken Arabic language, as well as for dialectologists and for semanticists.*

Now in its sixth edition, Poultry Diseases is once again fully revised with the addition of vital new material. It remains the standard reference work on health and disease for those involved in the poultry industry, government and veterinary education. Following a familiar structure, readers of the sixth edition gain concise but major reviews on current knowledge of general and disease-specific topics discussed over 45 (5 new) chapters in seven sections. With a large international team of contributors led by an authoritative editor team and a Foreword by Professor Frank Jordan, Poultry Diseases is an invaluable resource for the practicing veterinarian, poultry inspector, agricultural manager or veterinary student. Covers common and rarer diseases found in all species of poultry (including chickens, ducks, turkeys, game birds and guinea-fowl). Each chapter outside the General Overview section identifies clearly Epidemiology, Clinical Signs and Differential Diagnosis, Pathogenesis, Treatment and Control. Systems chapters discuss disorders of selected body systems in detail, leading to differential diagnosis of the specific disorder Comprehensive Appendices of
