THE NEED In many manufacturing industries worldwide, quality is a major strategy for gaining the competitive edge.

Quality in the Japanese auto industry, for example, means the quality of everything the company does as well as the quality of the product itself. This includes the quality of

Read Book Tally 9

Practical

Problems Service

sales; of market research to find out what the customer wants, needs, and expects; of new product development; of ordering processes; of billing; of service of the product; etc. What does this have to do with service organizations? Until recently, the really tough competition from

Read Book Tally 9

Practical

Problems Service

abroad, especially from Japan, has been in manufacturing.

Competition is now growing in service industries as well. Any company, whether foreign or domestic, that learns the ideas and tools of quality and practices quality management will become a serious competitive threat to
