From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

Father Goriot is one of French novelist Honore de Balzac's most important pieces of writing. Three lives intertwine in Paris: an old man, a criminal and a law student. The novel evokes an unstable period in France, when many were desperate to climb the social ladder into the upper classes, and it questions social institutions such as marriage. The city is an important presence in this work. Balzac was both praised and censured for his realistic portrayal of city life.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. This is a study of the structure and composition of the official learning current in medieval Arabic culture. This comprises natural sciences both exoteric and esoteric (medicine, alchemy, astrology and others), traditional and religious sciences (such as theology, exegesis and grammar), philosophical sciences such as metaphysics and ethics, in addition to technical disciplines like political theory and medicine, and other fields of intellectual endeavour. The book identifies and develops a number of conceptual elements common to the various areas of official Arabic scientific discourse, and shows how these elements integrate these disparate sciences into an historical epistemic unity. The specific profile of each of these

different sciences is described, in terms of its conceptual content, but especially with reference to its historical circumstances. These are seen to be embodied in a number of institutional supports, both intellectual and social: paradigms, schools of thought, institutions of learning, pedagogic techniques, and a body of professionals, all of which combine to form definite, albeit ever renewed, traditions of learning. Finally, an attempt is made to relate Arabic scientific knowledge in the Middle Ages to patterns of scientific and political authority. First published in 1986.

From the moment that Gjorg's brother is killed by a neighbour, his own life is forfeit: for the code of Kanun requires Gjorg to kill his brother's murderer and then in turn be hunted down. The bride's heart goes out to Gjorg, and even these 'civilised' strangers from the city risk becoming embroiled in the fatal mechanism of vendetta.

How can schools and the school curriculum contribute to building democratic citizens? This is a major question posed by governments, educational systems, schools, teachers and researchers around the world. One important way is to identify the competences needed for preparing democratic citizens and incorporate these within both the formal and informal school curriculum. Another question must then be posed- what competences do young citizens need to be considered as active and engaged in modern democracies? In 2011 an invited research

symposium of leading civic and political educators, and social scientists from across Europe met in Hannover, Germany to consider this key concern facing Europe today. In examining the above questions the symposium addressed two significant issues: 1. Identify key competencies required for active citizenship of young people in Europe of the future. 2. Translate those competencies to school-based activities in the form of curricular and pedagogical strategies. The publication Civic Education and Competences for Engaging Citizens in Democracies addressed the first issue and this volume addresses the second issue. Through discussion in the invited symposium, previously prepared papers, and participation in a modified Delphi Technique the participants have prepared chapters for this book. The chapters of this book represent the contribution of the participants before, during and after the symposium with opportunities for review and reflection about competences for democratic citizenship and the role of schools and the curriculum. Murray Print and Dirk Lange are professors from the University of Sydney and Leibniz University of Hannover respectively and are national leaders in civics and citizenship education in their respective countries. They have brought together a group of leading European civic and citizenship educators from different academic fields to explore the key issue and to identify the competences for young people to become active and engaged European citizens.

In the third book of his popular trilogy on creating and sustaining arts organizations, Michael Kaiser reveals the hidden engine that powers consistent success. According to Kaiser, successful arts organizations pursue strong programmatic marketing campaigns that compel people to buy tickets, enroll in classes, and so on—in short, to participate in the organization’s programs. Additionally, they create exciting activities that draw people to the organization as a whole. This institutional marketing creates a sense of enthusiasm that attracts donors, board members, and volunteers. Kaiser calls this group of external supporters the family. When this hidden engine is humming, staff, board, and audience members, artists, and donors feel confidence in the future. Resources are reinvested in more and better art, which is marketed aggressively; as a result, the “family” continues to grow, providing even more resources. This self-reinforcing cycle underlies the activities of all healthy arts organizations, and the theory behind it can be used as a diagnostic tool to reveal—and remedy—the problems of troubled ones. This book addresses each element of the cycle in the hope that more arts organizations around the globe—from orchestras, theaters, museums, opera companies, and classical and modern dance organizations to service organizations and other not-for-profit cultural institutions—will be able to sustain remarkable creativity, pay the bills, and have fun doing so!

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand’s magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America’s best-loved novels by PBS’s The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand’s most extensive

statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century’s leading artists.

“From this century, in France, three names will remain: de Gaulle, Picasso, and Chanel.” –André Malraux Coco Chanel created the look of the modern woman and was the high priestess of couture. She believed in simplicity, and elegance, and freed women from the tyranny of fashion. She inspired women to take off their bone corsets and cut their hair. She used ordinary jersey as couture fabric, elevated the waistline, and created bell-bottom trousers, trench coats, and turtleneck sweaters. In the 1920s, when Chanel employed more than two thousand people in her workrooms, she had amassed a personal fortune of \$15 million and went on to create an empire. Jean Cocteau once said of Chanel that she had the head of “a little black swan.” And, added Colette, “the heart of a little black bull.” At the start of World War II, Chanel closed down her couture house and went across the street to live at the Hôtel Ritz. Picasso, her friend, called her “one of the most sensible women in Europe.” She remained at the Ritz for the duration of the war, and after, went on to Switzerland. For more than half a century, Chanel’s life from 1941 to 1954 has been shrouded in vagueness and rumor, mystery and myth. Neither Chanel nor her many biographers have ever told the full story of these years. Now Hal Vaughan, in this explosive narrative—part suspense thriller, part wartime portrait—fully pieces together the hidden years of Gabrielle “Coco” Chanel’s life, from the Nazi occupation of Paris to the aftermath of World War II. Vaughan reveals the truth of Chanel’s long-whispered collaboration with Hitler’s high-ranking officials in occupied Paris from 1940 to 1944. He writes in detail of her decades-long affair with Baron Hans Günther von Dincklage, “Spatz” (“sparrow” in English), described in most Chanel biographies as being an innocuous, English-speaking tennis player, playboy, and harmless dupe—a loyal German soldier and diplomat serving his mother country and not a member of the Nazi party. In Vaughan’s absorbing, meticulously researched book, Dincklage is revealed to have been a Nazi master spy and German military intelligence agent who ran a spy ring in the Mediterranean and in Paris and reported directly to Nazi propaganda minister Joseph Goebbels, right hand to Hitler. The

book pieces together how Coco Chanel became a German intelligence operative; how and why she was enlisted in a number of spy missions; how she escaped arrest in France after the war, despite her activities being known to the Gaullist intelligence network; how she fled to Switzerland for a nine-year exile with her lover Dincklage. And how, despite the French court's opening a case concerning Chanel's espionage activities during the war, she was able to return to Paris at age seventy and triumphantly resurrect and reinvent herself—and rebuild what has become the iconic House of Chanel.

"[Thich Nhat Hanh] shows us the connection between personal, inner peace and peace on earth." --His Holiness The Dalai Lama Nominated by Martin Luther King, Jr. for a Nobel Peace Prize, Thich Nhat Hanh is one of today's leading sources of wisdom, peace, compassion and comfort. The 20th anniversary edition of the classic text, updated, revised, and featuring a Mindful Living Journal. Buddha and Christ, perhaps the two most pivotal figures in the history of humankind, each left behind a legacy of teachings and practices that have shaped the lives of billions of people over two millennia. If they were to meet on the road today, what would each think of the other's spiritual views and practices? Thich Nhat Hanh has been part of a decades-long dialogue between two great contemplative traditions, and brings to Christianity an appreciation of its beauty that could be conveyed only by an outsider. IN lucid, meditative prose, he explores the crossroads of compassion and holiness at which the two traditions meet, and he reawakens our understanding of both. "On the altar in my hermitage," he says, "are images of Buddha and Jesus, and I touch both of them as my spiritual ancestors."
