"A very comprehensive book containing chords from the beginning stages and beyond. Everything is very well explained with no stone left unturned. I'd highly recommend it to anyone who's starting out with the guitar." -- Nigel Elliott, Guitarist & Tutor (N.Ireland) Guitar Chords for Beginners contains 65 different chords arranged in easy fingerings. Technique: Fretting hand technique for playing guitar chords is looked at in detail with diagrams. Where necessary, some chords are taught incrementally because taking on only the harder aspects of a chord's fingering first means our hand is freer to adjust. Other chords are shown with different fingerings for you to choose which you prefer. Playing

guitar chords may seem like a contortion for the hands of the beginner so there is some basic guidance on stretching to keep the hands flexible. Audio and More: Each guitar chord has a downloadable audio example enabling you to hear if you have played it right, or to hear what you need to work towards. There is an introduction to moveable power chords and barre chords, in which barre chords are shown as easier cut-down versions of full barre chord shapes. At the back of Guitar Chords for Beginners there is a list of suggested songs that contain chords from within the book. Grab a copy today! "I like what's been put together! The information covered in technical issues for beginners especially explaining the difference between chords on piano and guitar is great. I think starting with the small position chords for C and G etc and building up to full position is also really important for beginners. The picture diagrams of hand position is a nifty feature, I know lots of beginners respond more to visuals and will often revert to looking at the hand pictures rather than the chord diagrams. Also think the added audio clips are a great feature so students can compare the sounds of their chords with the audio for reference. There could be a couple of chord progressions at the end of each section (Apart from the song suggestions at the end of the book) and strumming patterns. That would be an added feature that I think could work nicely, although this would make for a larger book and it is only £1.99 for the eBook. Otherwise I think what's been put together is great :)" -- Anthony Bierman, Bmus(Hons) Contemporary/Jazz Guitar (South Africa) "Looks fab. I particularly like the different ways of playing the A chord. The physical warm-up exercises for flexibility are also good. It is good that movable major and minor barre chords are shown as partial versions to make them initially easier, and beginners might find extra interest where near the back of the book easy open versions of other more exotic chords are shown, such as Dm(maj7), the "James Bond" chord." -- Campbell Murray, RGT & MU Registered Tutor (Scotland)

How to Play Guitar

Guitar Method for the Complete Beginner

A Beginner's Guide with Step-by-Step Instruction for Acoustic and Electric Guitar

Hal Leonard Guitar Method

The First 100 Chords for Guitar

*(Guitar Method). Southpaws rejoice! This world-famous method is now available in a special edition just for lefties, with customized photos and diagrams. Students enjoy the method's easy-to-follow format that gives them a solid music education while letting them play songs right away. Book 1 provides beginning instruction, covering tuning; 1st-position melody playing; C, G, G7, D7 and Em chords; rhythms through eighth notes; solos and ensembles; and strumming. Features a chord chart, and traditional songs like: Amazing Grace * Greensleeves * and When the Saints Go Marching In.*

(Instrumental Folio). Play 50 of your favorite pop tunes on your flute! This collection

features arrangements written in accessible keys and ranges with lyrics and chord symbols. Songs include: All My Loving * Blowin' in the Wind * Clocks * Don't Stop Believin' * Every Breath You Take * Fireflies * Hey, Soul Sister * In My Life * Love Story * My Girl * Nights in White Satin * Sweet Caroline * Unchained Melody * Viva La Vida * What a Wonderful World * You've Got a Friend * and more.

Frustrated with those terrible YouTube video guitar tutorials? Well, the feeling is mutual. Spending years researching all popular beginner guitar books out in the market and using them for 20 years teaching my students. There was never a time where I had to jump to other guitar material to cover what was missing in the current book I was teaching off of. Are they ever going to come out with a book that will cover what's needed for beginning guitarists? This is where my journey began to create the ultimate beginners guitar book. Now it can be in your hands today! "The Only Beginner's Guitar Book You'll Ever Need" gives you everything a total beginner needs from: 1. Covering all 15 basic guitar chords (majors, minors, sevenths) 2. Finger exercises that help build strength and dexterity while playing. 3. Covers eighth notes and rests. (all beginner books do not cover this topic) 4. 10 original tunes. 5. Proper strumming patterns. 6. Play in different styles, including rock, blues, latin, folk, and classical. 7. Very simple to follow instructions and illustrations. And much more... "The Only Beginner's Guitar Book You'll Ever Need" is a slam dunk for anyone interested in speeding up their guitar process.

LearnToPlayMusic.com's classical guitar lessons for beginners are used by students and guitar teachers worldwide to learn how to play guitar. For over 30 years, our team of professional authors, composers and musicians have crafted guitar lesson books that are a cut above the rest. We offer a huge selection of music instruction books that cover many different instruments and styles in print, eBook and app formats. Awarded the 'Quality Excellence Design' (QED) seal of approval for eBook innovation, LearnToPlayMusic.com continues to set the standard for quality music education resources.

"We loved the book. The information was well paced and concise enough not to overwhelm. Any beginner would definitely benefit from having this book, and it's a great reminder for those who might have forgotten details or are looking for them." -- Nimal De Silva, The Music Garage (Singapore)

"Plenty of detail that goes into posture, hand position, thumb position, etc. The notation and strumming is really good here because it builds up in stages. In a lesson, you can introduce it in this way piece by piece and not overwhelm the student." -- Michael Hanna, Grade 8 RS.Guitar - Larne Guitar School (N.Ireland)

Learn to Play Guitar is comprehensive and clear with over 180 photographic examples, illustrations and purpose made diagrams. This guitar book includes 42 downloadable mp3 tracks of full band demo and backing track with the guitar removed for you to play over. Learn to Play Guitar bridges the gaps explaining guitar techniques that can be taken for granted by more experienced guitar players. Melodies: To get you straight into playing music, numbers have been added underneath guitar tablature to assist with the rhythm. Later on, the rhythmical aspect of conventional music notation is covered so you can use it in conjunction with tablature. Rhythm Guitar: Changing between chords and strumming are presented as separate subjects initially, so that you can develop coordination in each hand independently. They are then brought together

starting basic and getting more advanced until there is a rhythm guitar musical piece to play. Music theory: The major scale, minor scale, major and minor pentatonic scales and basic major and minor chord construction are explained in terms of the fret-board and reinforced by musical pieces in various styles to make the learning process practical and enjoyable. What else?: Fret-board layout, power chords, barre chords, how to string a guitar, how to practise guitar, palm muting and basic lead guitar techniques. Please Note: The eBook includes musical pieces so is not suitable for smaller screens. "This top value eBook and MP3 package covers a wide range topics essential for all guitarists. Over 100 pages with plenty of information and solid advice that a player can dip into as needed. Evans does not gloss over the often neglected area of reading notation for rhythm. There are many examples to practice (melodies and rhythm patterns) with the backing tracks. I was especially interested in the final section of exercises to keep your body guitar-ready. A very useful tool to help you progress with your guitar playing." -- Hedley Timbs BA(Mus), Grad.Dip. Teaching (New Zealand) "Awesome. Well laid out, easy to look at and there is the supplemental material to top it off. The theory may get tedious for some, it's hard to not teach theory but most people seem to have an aversion to it, the idea of discipline I think." -- Gernot Schlegel, Professional Guitarist & Teacher (Canada) "There's two ways of learning the guitar - the first is to learn enough of the basics to fly towards playing your favourite songs competently, and the second is to intensively gain an understanding of the instrument by forming a solid foundation through taking your time with it in the early stages. The book titled "Learn to play Guitar" by Gareth Evans is of the latter approach. Through reading and learning from this book, players can discover a deep, extensive and in-depth approach to the technique, theory and everything else related to being a good beginner guitarist. Newcomers can learn positive and productive exercises to train their body to better play the guitar (not just their fingers) and across the 120 or so pages within, it's clear that the writer has put a lot of time into figuring out the right approach for starters to take when adjusting to the standard 6-string. Would recommend this for anyone who is looking to get a really solid grip on how to play the guitar, and also to tutors who are looking at ways to improve their own tutoring abilities." -- Logan Ellis, Mgr. Spiderhands Productions Ltd (New Zealand) "Learn to play Guitar is an ideal companion to support the beginner on their new found musical journey. Highly recommended." -- Liam Cain, BMus (hons) Professional Guitarist (UK)
