Two misfits walk 2,000km along the Camino to find themselves and, perhaps, each other. 'Charming and absorbing' Daily Mail 'Sleepless in Seattle meets Wild . . . A beautifully crafted tale of love, self-acceptance, and blisters' Sunday Express Zoe, a sometime artist, is from California. Martin, an engineer, is from Yorkshire. Both have ended up in picturesque Cluny, in central France. Both are struggling to come to terms with their recent past - for Zoe, the death of her husband; for Martin, a messy divorce. Looking to make a new start, each sets out alone to walk two thousand kilometres from Cluny to Santiago de Compostela, in northwestern Spain, in the footsteps of pilgrims who have walked the Camino for centuries. The Camino changes you, it's said. It's a chance to find a new version of yourself, and a new beginning. But can these two very different people find themselves? Will they find each other? In this smart, funny and romantic journey, Martin's and Zoe's stories are told in alternating chapters by husband-and-wife team Graeme Simsion and Anne Buist. Two Steps Forward is a novel about renewal - physical, psychological and spiritual. It's about the challenge of walking a long distance and of working out where you are going. And it's about what you decide to keep, what you choose to leave behind and what you rediscover along the way. Optioned for film by Ellen deGeneres.

The New York Times bestselling author of A Work in Progress and Note to Self moves fully into adulthood with his illuminating, soulful, bleeding collection of narrative, poetry, and original film photography. Humanitarian, entrepreneur, and content creator Connor Franta first captivated readers with A Work In Progress, ruminating on his Midwestern roots to his early start as a visionary and online thought-leader. He continued his soul-searching-through-a-broken-heart with Note to Self, challenging readers—and himself—to ponder the spectrum of humanity and their place within it. Now as Franta approaches thirty, life is no less confusing, but he finds this journey endlessly fascinating. Writing about confusion and clarity, loneliness and whirlwind romances, despair and elation—and everything in between—Franta invites readers back into the intimacy of his mind. House Fires magnifies a young man's emotional warfare with his past, the daze of wandering through modern times in search of purpose, and the electricity flying from tomorrow's potential.

A socially awkward genetics professor who has never been on a second date sets out to find the perfect wife, but instead finds Rosie Jarman, a fiercely independent barmaid who is on a quest to find her biological father. Reprint.

A New York Times bestseller! “ Lively and absorbing. . . ” — The New York Times Book Review "Engrossing." —Wall Street Journal “ Entertaining and well-researched . . . ” —Houston Chronicle Three noted Texan writers combine forces to tell the real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as Forget the Alamo definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record, and the origin of the conflict over Mexico's push to abolish slavery papered over. Forget the Alamo provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.

A curated collection of the New York Times' travel column, "Footsteps," exploring iconic authors' relationships to landmarks and cities around the world Before Nick Carraway was drawn into Daisy and Gatsby’s sparkling, champagne-fueled world in The Great Gatsby, F. Scott Fitzgerald vacationed in the French Riviera, where a small green lighthouse winked at ships on the horizon. Before the nameless lovers began their illicit affair in The Lover, Marguerite Duras embarked upon her own scandalous relationship amidst the urban streets of Saigon. And before readers were terrified by a tentacled dragon-man called Cthulhu, H.P. Lovecraft was enthralled by the Industrial Trust tower-- the 26-story skyscraper that makes up the skyline of Providence, Rhode Island. Based on the popular New York Times travel column, Footsteps is an anthology of literary pilgrimages, exploring the geographic muses behind some of history’s greatest writers. From the "dangerous, dirty and seductive" streets of Naples, the setting for Elena Ferrante’s famous Neapolitan novels, to the "stone arches, creaky oaken doors, and riverside paths" of Oxford, the backdrop for Alice's adventures in Wonderland, Footsteps takes a fresh approach to literary tourism, appealing to readers and travel enthusiasts alike.

Conversations on the Rosie Effect: a Novel by Graeme Simsion

Grace Lisa Vandenburg, the narrator of this pleasant neurotic-girl-meets-boy debut, is 35 years old and has been addicted to counting since she was eight. She lives alone in Melbourne, Australia, and is on sick leave from her teaching job, filling her weeks with counting-'steps and syllables and bites and things'-and sticking to her rigid routines, which include trips to the cafe and phone calls from her mother and self-absorbed younger sister. The only person in her life Grace relates to is her 10-year-old niece, Hilary, who is as quirky and charming as Grace is. Things are fine until Grace meets Seamus Joseph O'reilly, an Irish transplant who works at the local movie theater. Grace has not been on a date in two years and hasn't been in love in forever, but as things progress with Seamus, she realizes what she has been missing. With some gentle encouragement, Grace agrees to test her boundaries and tries to find a happy medium between her obsession and living a full life. Rick Gekoski tells the very human stories that lie behind some of the greatest losses to artistic culture - and addresses the questions such disappearances raise. Some of the items are stolen (the Mona Lisa), some destroyed (like Philip Larkin's diaries, shredded, then burnt, on his dying request) and some were lost before they even existed, like the career of the brilliant art deco architect, Charles Rennie Mackintosh, which foundered amid a lack of cash - but behind all of them lies an often surprising story which reveals a lot about what art means to us. Gekoski explores in depth the greater questions these tremendous losses raise - such as the rights artists and authors have over their own work, the importance of the search for perfection in creativity, and what motivated people to queue to see the empty space where the Mona Lisa once hung in the Louvre.

Origins

Until ten years ago, geneticist Don Tillman had never had a second date. Then he developed The Wife Project and met Rosie, 'the world's most incompatible woman'. Now, having survived 3,653 days of marriage, Don's life-contentment graph, recently at its highest point, is curving downwards. Don and Rosie's ten-year-old son, Hudson, is having trouble at school: his teachers say he isn't fitting in with the other kids. Rosie is battling Judas at work, and Don is in hot water after the Genetics Lecture Outrage. For Don, learning to be a good parent as well as a good partner will require the help of friends old and new. It will mean letting Hudson make his way in the world, and grappling with difficult truths about his own identity. It will also mean opening a cocktail bar.

Claire and Matt are no longer together but decide that it would be best for their daughter, Scarlett, to have a “normal” family Christmas. They can’t agree on whose idea it was to go to the Happy Forest holiday park, or who said they should bring their new partners. But someone did—and it’s too late to pull the plug. Claire brings her new boyfriend, Patrick (never Pat), a seemingly sensible, eligible from a distance Ironman in Waiting. Matt brings the new love of his life, Alex, funny, smart, and extremely patient. Scarlett, who is seven, brings her imaginary friend Posey. He’s a giant rabbit. Together the five (or six?) of them grit their teeth over Forced Fun Activities, drink a little too much after Scarlett’s bedtime, overshare classified secrets about their pasts . . . and before you know it, their holiday is a powder keg that ends where this novel begins—with a tearful, frightened call to the police. What happened? They said they’d all be adults about this. . . . Praise for The Adults “A delectable premise . . . Minalan's Summer Vacation! What does the most powerful wizard in the world do after the war is over? Despite the hordes of goblins still ready to ravage human lands, King Rard has signed a treaty with them, so Minalan is forbidden from taking advantage of their weakened state. Most would take a well-deserved rest over the summer . . . but Minalan and his household are busy repaying a favor owed to the tribal Kasari for their help in the war, and the Spellmonger pays his debts. So Minalan spends his summer sneaking two thousand Kasari children through enemy lines, goblin territory, hostile Wilderlords, and through some of the roughest territory in the Five Duchies toward salvation. But the Spellmonger soon learns that not even the help of a goddess is sufficient to contend with the realities of the quest. Despite his best efforts and some of the most advanced magic seen since the Magocracy, the march attracts enemies . . . and far too many friends. For when the desperate refugees of the war-torn Alshari Wilderlands see the well-fed legions of Kasari march by, they cannot help but follow, even if they have no idea of the destination. Any life is better than the hopeless existence they've lived avoiding starvation and the goblins' stewart. And the promise of hope the great march of the Spellmonger's children offers is just too good to pass up. Security and the promise of a brighter future lie just on the other side of the border with the duchy of Castal. The problem is that the Duke of Castal, Prince Tavard, who is also Minalan's titular overlord, is dead-sez against a single Alshari refugee crossing his frontier - and he's assembled a small army to stop any from doing so. With political pressure high and the very gods maneuvering behind the scenes, it's going to take some clever magic, some inspired legal maneuvering, and some serious effort to pull off this miracle . . . but that's the kind of job the Spellmonger does in Journesmage!

The Best of Adam Sharp

Summary of the Rosie Project

By Graeme Simsion: a Complete Summary!

A New York Times bestseller, The Silver Linings Playbook was adapted into the Oscar-winning movie starring Bradley Cooper and Jennifer Lawrence. It tells the riotous and poignant story of how one man regains his memory and comes to terms with the magnitude of his wife's betrayal. During the years he spends in a neural health facility, Pat Peoples formulates a theory about silver linings: he believes his life is a movie produced by God, his mission is to become physically fit and emotionally supportive, and his happy ending will be the return of his estranged wife, Nikki. When Pat goes to live with his parents, everything seems changed: no one will talk to him about Nikki; his old friends are saddled with families; the Philadelphia Eagles keep losing, making his father moody; and his new therapist seems to be recommending adultery as a form of therapy. When Pat meets the tragically widowed and clinically depressed Tiffany, she offers to act as a liaison between him and his wife, if only he will give up watching football, agree to perform in this year's Dance Away Depression competition, and promise not to tell anyone about their "contract." All the while, Pat keeps searching for his silver lining. In this brilliantly written debut novel, Matthew Quick takes us inside Pat's mind, deftly showing us the world from his distorted yet endearing perspective. The result is a touching and funny story that helps us look at both depression and love in a wonderfully refreshing way.

In a merciless summer of biblical heat and destructive winds, Gabrielle Fox's main concern is a personal one: to rebuild her career as a psychologist after a shattering car accident. But when she is assigned Bethany Krall, one of the most dangerous teenagers in the country, she begins to fear she has made a terrible mistake. Raised on a diet of evangelical hellfire, Bethany is violent, delusional, cruelly intuitive and insistent that she can foresee natural disasters - a claim which Gabrielle interprets as a symptom of doomsday delusion. But when catastrophes begin to occur on the very dates Bethany has predicted, and a brilliant, gentle physicist enters the equation, the apocalyptic puzzle intensifies and the stakes multiply. Is the self-proclaimed Nostradamus of the psych ward the ultimate manipulator, or could she be the harbinger of imminent global cataclysm on a scale never seen before? And what can love mean in 'interesting times'? A haunting story of human passion and burning faith set against an adventure of tectonic proportions, The Rapture is an electrifying psychological thriller that explores the dark extremes of mankind's self-destruction in a world on the brink.

How the Nine Months Before Birth Shape the Rest of Our Lives

Don Tillman, professor of genetics, has never been on a second date. He is a man who can count all his friends on the fingers of one hand, whose lifelong difficulty with social rituals has convinced him that he is simply not wired for romance. So when an acquaintance informs him that he would make a "wonderful" husband, his first reaction is shock. Yet he must concede to the statistical probability that there is someone for everyone, and he embarks upon The Wife Project. In the orderly, evidence-based manner with which he approaches all things, Don sets out to find the perfect partner. He sets up a project designed to find him the perfect wife, starting with a questionnaire that has to be adjusted a little as he goes along. She will be punctual and logical, most definitely not a barmaid, a smoker, a drinker, or a late-arriver. Then he meets Rosie Jarman, who is everything he's not looking for in a wife. Rosie is all these things. She is also beguiling, fiery, intelligent, and on a quest of her own. She is looking for her biological father, a search that a certain DNA expert might be able to help her with. Don's Wife Project takes a back burner to the Father Project and an unlikely relationship blooms, forcing the scientifically minded geneticist to confront the spontaneous whirlwind that is Rosie, and the realization that love is not always what looks good on paper.
