

## *The Serenity Passport A World Tour Of Peaceful Li*

Who says having all your dreams come true is a good thing? Serenity Winters is taking the summer off. After her last year included crushing on the wrong guy (again), having her best friend move all the way across the country, and an unexpected loss she's still not prepared to deal with, she deserves it. And a visit to see Maia in California seems the perfect getaway. Beaches, bonfires and boys? Yes please! But Rennie's dreams aren't so easy to elude. Sketching what she can remember of them helps some, but her drawings are taking on a life of their own and the dreams they represent are starting to come true. Enter Alex, who may or may not be perfect. (No, who is she kidding? He's perfect. Great hair, plus he can quote Hamlet and Yoda? Come on!) But Alex has secrets of his own, namely a hidden ability to transport himself through time using a book as a portal. Could it be that both Rennie and Alex are being drawn in to the same mystery? They better find out quickly, because her dreams are getting louder. And they know her by name. Relates the experiences of Bevington during her travels through Europe, Asia, South America, Africa, and elsewhere, in her search for the bo tree--paradise

Steve is just an ordinary guy living in a rural town north of Toronto. And when the world goes to shit, everyone looks to him for help. Heck, he even gets a girlfriend out of it. But survival in a broken world can be tough when everyone wants to have what you have. Even the corpses lumber after him through the adventure of staying alive. The topper of his whole existence is the bikers, they blame him for everything that happens. And when things go real wrong, they try to take their revenge. Little do they know he has friends. From the mind of Douglas Owen comes the story of the zombie apocalypse as it unfolds just north of Toronto. Steve is nice, polite, caring, and trying to survive in a country with gun control laws.

In 33 Bits, a gold charm bracelet tangibly records the adventure, friendships, love, and disappointment experienced by a young American woman during a life-changing journey to England.

**This chilling, futuristic novel, written in 1913 and first published the following year, was incredibly prophetic on a major scale. Wells was a genius and visionary, as demonstrated by many of his other works, but this book is clearly one of his best. He predicts nuclear warfare years before research began and describes the chain reactions involved and the resulting radiation. He describes a weapon of enormous destructive power, used from the air that would wipe out everything for miles, and actually used the term "atomic bombs." This book may have been at least part of the original inspiration for the development of atomic weapons, as well as presenting many other ideas that would ultimately come to pass. Some ideas may still be coming, including a one-world government referred to as The World Republic, that will attempt to end all wars.**

**I will not surrender to terrorism By Mr.Gijo Vijayan. This book aims at preventing a person from becoming a terrorist. The author aim at killing the motive behind terrorism, whatever may be the reason behind. Forgive and forget, the world will be safer. An eye for an eye make the whole world blind, said Mahatma Gandhi. If you know anyone, who has extreme and radical views on religion or any ideology, that cause harm to society. This book can be an eye opener to narrow minded people, who think I am right and whole world is wrong. Stop revenge, forgive and forget, the world will be safer. For nations to live in peace, stop quest for dominance, stop trying to grab someone's land or sea. More investment in military makes common people suffer indirectly. Billions of dollars spent on military expenses can be diverted for betterment of the lives of people, if there is no friction between nations. Billions of dollars spent on atom bombs, missiles, ships, fighter planes etc will eventually of no use to the betterment of humanity. If a third world war occurs, there won't be anyone left to**

**celebrate victory, so it is foolishness to wage war in the name of any ideology or religion. There is only One way to stop terrorism - Education. When millions of people refuse to become terrorist at any cost - by applying thought, the purpose of this book is achieved. To kill terrorism, we must kill the motivation behind terrorism. When you refuse to become a terrorist, you make the world safer. When millions of people around the world refuse to become terrorists, we all win. So, take a pledge today itself, -I will not become a terrorist. -I will not allow my kids to become terrorists. -I will not change my mind, because of people or circumstances around me. -No media, politics or religion can manipulate me. -I will help misguided people to leave the path of terrorism.**

*A planet plagued with tumult from outsiders and divided by its own religious dichotomy could face extinction if their faiths are not united and an unholy artifact is destroyed. Safiro, the God of Death, and Sanguina, the Goddess of Life, created two heroes (Vytametas) -- mirror twins separated at birth yet destined to meet in a place where the future of their world will be decided by their powers. The only people who know not the ultimate purpose of the legendary Vytametas are the young heroes themselves. While the teenage Vytametas learn of their world and of their mission, they will be turned against each other by the two faiths they are meant to save: the demented Safiric Brotherhood and the shady Sanguinic Sisterhood.*

*This is not your standard book on leadership! The interpersonal aspects of leadership require crucial competencies for project professionals. People Skills 3.0: Next Generation Leadership Skills for Project Success presents a very unique view of leadership- the interpersonal dynamics that impact performance. Remember: In today's world, we all are "leaders" in our respective enterprise efforts, regardless of whether or not we hold that title. People Skills 3.0 is your practical companion for facing and conquering the interpersonal leadership demands of our global economy. Author Steven Flannes, Ph.D., brings a unique background to the topic of leadership: clinical psychologist, operations leader, and project professional. (Dr. Flannes authored related interpersonal skills books, such as People Skills for Project Managers, translated into Russian, and Essential People Skills for Project Managers, translated into Japanese). People Skills 3.0: Five Core Beliefs: 1. As leader, you can easily learn to grasp the technical challenges. 2. The people issues, however, are more complicated. This book offers you innovative, tangible skills you can apply to master these challenges. 3. You do not need to be a natural "people person" to still be a good leader. 4. Small improvements in your interpersonal leadership skills will bring disproportionately big dividends in performance. 5. Learn to "thrive," and not just "survive," in your work and personal life (less stress, more enjoyment). People Skills 3.0 describes leadership complexities, and provides you with developmental paths you can follow to sharpen the skills needed to meet these challenges. The book presents: \* Next-generation leadership challenges, and what you as leader will see in our multicultural world (Chapter 1). \* The importance of "knowing yourself." Self-knowledge is the foundation for developing interpersonal skills, the key competencies of next-generation leaders (Chapter 2). \* How to make the personal changes you need in order to stay effective as a leader. Leaders who continually re-define themselves will flourish (Chapter 3). \* What are the skills you need, and how you can create your developmental plan towards achieving and expanding these skills? (Chapter 4). \* What distinct leadership competencies you will need in a world of economic, cultural, and technological complexity? (Chapter 5). \* What unique approaches can you follow to achieve high levels of performance? And how can you return to those high levels after you or your team experience an intense, negative event or crisis? (Chapter 6). \* What can you do as leader to create the best team culture, one noted for creativity, effective interpersonal functioning, and achievement? (Chapter 7). \* What specific approaches can you apply to manage the inevitable conflicts, keeping the team task focused? (Chapter 8). \* Learn to apply tangible approaches from neuroscience and mindfulness to function at your best while maintaining balance in life (Mike Mombrea, MA, MFT). \* Discover leadership lessons from a leader who has worked in many settings. Learn what 43 other successful leaders said are key leadership attributes they have noticed over their careers. (Larry Butler, MA, MFT). \* How can positive psychology help leaders develop? A member of the next generation of professionals shares his observations about*

*how positive psychology behaviors can assist leaders increase their effectiveness with teams (Jonathan Flannes, B.S.).\* What future global challenges will you face? What creative approaches can you take to prepare yourself to be "the evolving people-centric leader?" (Chapter 12).The authors use personal self-disclosure to illustrate key points, creating an intimate and engaging reader experience. People Skills 3.0 is formatted in a visually appealing manner through the use of charts, images, checklists, text boxes, and ideas presented with bullet-point clarity.*

*The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. *Global Citizenship Education addresses the intersection of globalization, education and programmatic efforts to prepare young people to live in a more interdependent, complex and fragile world. The book explores topics such as sustainability education, cultural diversity, and human rights education, offering critical insights into how these facets of GCE are interpreted around the world. The book also strives to give voice to student populations within historically marginalized communities, rather than focusing solely on the role of GCE in elite schools. Gaudelli blends theory and practice to provide both an overview of GCE as well as examining current efforts to develop more globally-conscious classrooms. Blending empirical research and practical illustrations, this important volume encourages educators to take seriously their own call to prepare young people to engage global challenges with a sense of urgency and helps chart a new direction for global learning that is increasingly expansive, dialogic and inclusive.*

Robert Moore Williams (1907–1977) was an American writer, primarily of science fiction. He wrote not only under his own name, but as John S. Browning, H. H. Hermon, Russell Storm and E. K. Jarvis (a house name shared with other writers). Rereading his work in preparation for assembling this volume, we were impressed by how well much of his fiction holds up today. His writing style is smooth and crisp, and he avoids scientific lectures, preferring to let the plots speak for himself. Included in this volume are: PLANET OF THE GODS THE NEXT TIME WE DIE SINISTER PARADISE THOMPSON'S CAT PUBLICITY STUNT MARTIAN ADVENTURE BRIDGE OF LIFE BE IT EVER THUS THE LOST WARSHIP THE ACCIDENTAL MURDERS If you enjoy this ebook, don't forget to search your favorite ebook store for "Wildside Press Megapack" to see more of the 250+ volumes in this series, covering adventure, historical fiction, mysteries, westerns, ghost stories, science fiction -- and much, much more!

The world is infected and humanity is reduced to creatures of vicious insanity. Doctor Thorn's rescue by a group of young survivors is just the beginning of their nightmarish journey to survive. In this apocalyptic landscape, humankind has one final hope that rests on the strength and determination of 10 young men and women.

The sight of a place he called home since birth faded in the distance. He trembled. It was a complete paradox since his pounding heart sunk out of both fear and excitement as he crossed the border into a new country and a world of the unknown. Everything including his name immediately changed and he became a foreigner and a refugee. An unjustified stigma followed him. Life was never the same. He was treated like an outcast, felt unwelcome, prejudiced and constantly sidelined. He was labelled and branded, "The first suspect." He longed for a world free of stereotypes and xenophobia. He wondered and got lost in his thoughts. With his passport safely stuck deep in his pocket, his spirit magically wrote letters, his soul sung songs and lullabies; his heart recited poetry and his inner being painted a mosaic picture portraying the trials and tribulations of a son away from home. The world of genuine brotherhood, humanity, love and tolerance across different nationalities and various cultures remained a far-fetched dream.

This book discusses contemporary constellations of international politics and global transformation. It offers guidance on how to conceptualize the complexity of current global changes and practical policy advice in order to promote an open global society. In the light of today's challenges, the author re-interprets the main argument of the philosopher Karl Popper in "The Open Society and Its Enemies". Based on this framework and new empirical evidence, the book discusses the thesis of an ongoing Third World War, triggered by fundamental deficits in nation-building, occurring primarily within states and not between them, and accelerated by asymmetric forms of warfare and Islamist totalitarianism. The book also explores various threats to the global order, such as the paradox of borders as barriers and bridges, the global effects of the youth bubble in many developing countries, and the misuse of religious interpretation for the use of political violence. Lastly, the author identifies advocates and supporters of a liberal, multilateral and open order and argues for a reinvention of the Western world to contribute to a revival of a liberal global order, based on mutual respect and joint leadership.
