The Three Little Pigs: A Literature Unit

Walt Disney's Three Little Pigs

It was time for the three little wolves to go out into the world, so they set off and built themselves a splendid brick house. But they hadn't reckoned on the big bad pig coming along with a sledgehammer...

A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and

opportunity. A Libertarian Walks Into a Bear is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear. Tells the story of three little pigs who leave home to seek their fortunes and how they deal with the big bad wolf.

Retells the story of three pigs who build houses made of straw, wood, and bricks, only to be threatened by a hungry wolf, with suggested activities for young readers.
