"The Pintupi, a hunting-and-gathering people of Australia's Western Desert, were among the last Aborigines to come into contact with white Australians. Anthropologist Fred Myers, who has been working with the Pintupi since 1973, presents an innovative study of this small-scale, spatially dispersed, egalitarian society. His comprehensive ethnography focuses on contradictions between indigenous ideas of individual autonomy and those of

"relatedness", a tension mediated in politics, spatial relations, and the mythological construction of The Dreaming. Myers' sophisticated analysis shows how these contradictions shape Pintupi personhood; despite the duress of recent relocation in settlements, these Aboriginal people struggle to define themselves in terms of this cultural logic."

form of postrevolutionary pop music. Created by professional musicians and media producers fleeing Iran's revolutionary-era ban on “immoral” popular music, Tehrangeles pop has been a part of daily life for Iranians at home and abroad for decades. In *Tehrangeles Dreaming* Farzaneh Hemmasi draws on ethnographic fieldwork in Los Angeles and musical and textual analysis to examine how the songs, music videos, and television made in Tehrangeles express modes of Iranianness not possible in Iran. their music makes available to global Iranian audiences, Hemmasi shows how unquestionably Iranian forms of Tehrangeles popular culture exemplify the manner in which culture, media, and diaspora combine to respond to the Iranian state and its political transformations. The transnational circulation of Tehrangeles culture, she contends, transgresses Iran's geographical, legal, and moral boundaries while allowing all Iranians the ability to imagine new forms of identity and belonging.

A Conflict of Self Interest

Self or Soul is an essential energy centred in every living body and is about instinct, species survival and coexistence with all other Life. It is not a belief nor any part of Brain. Brain is the natural manager of the body in which Soul exists. The natural function of

Brain is to facilitate Soul-purpose throughout Life. Brain copies or creates beliefs to make everything true or real, and with memory and logic it creates time, space, knowledge and world. Educated Brain tends to deny Self and so creates a greater need for entertainment, exploration, pets and more. Civilization is run entirely by Brains. But that complex process has yet to run for more than a few hundred years without final disaster. The only peoples who have survived

for millenia, have done so by depending consistently upon Self, family, home, legend, lore, wisdom, and heritage, most of which are presently being civilly disrespected and ignored. No belief of science, psychology or religion can ever explain or replace any of these. On this finite planet, population increase has become too serious to ignore. Natural increase seems due mostly to cultural stress and ageing. But serious unnatural population increase is now due to

religiously enforced non-birth-control amongst poor and ignorant people.

Greedy corporations and developers also encourage population expansion which will ultimately cause the collapse of people-species. For survival of people-species, the current civil process must accept a more localized, traditional and cultural Wisdom, not based upon nor necessarily denying science or religion.

to their close, with Thatcherism holding the nation tight in its grip, something funny was happening right across the jungle of Britain's nightlife scene. People were dressing down, not up, to go to clubs. And they were dancing right through the night armed seemingly with only bottles of water. Ecstasy and acid house music had arrived on British shores, and a tribal battle between for the moral future of the nation, between the youth and the establishment, had begun.
