First came the storms. Then came the Fever. And the Wall. After a string of devastating hurricanes and a severe outbreak of Delta Fever, the Gulf Coast has been quarantined. Years later, residents of the Outer States are under the assumption that life in the Delta is all but extinct...but in reality, a new primitive society has been born. Fen de la Guerre is living with the O-Positive blood tribe in the Delta when they are ambushed. Left with her tribe leader ' s newborn, Fen is determined to get the baby to a

better life over the wall before her blood becomes tainted. Fen meets Daniel, a scientist from the Outer States who has snuck into the Delta illegally. Brought together by chance, kept together by danger, Fen and Daniel navigate the wasteland of Orleans. In the end, they are each other ' s last hope for survival. Sherri L. Smith delivers an expertly crafted story about a fierce heroine whose powerful voice and firm determination will stay with you long after you ' ve turned the last page.

by an edifice which was to become synonymous with the Cold War: the Berlin Wall. This new history rejects traditional, top-down approaches to Cold War politics, exploring instead how the border closure affected ordinary East Germans, from workers and farmers to teenagers and even party members, 'caught out' by Sunday the Thirteenth. Party, police, and Stasi reports reveal why one in six East Germans fled the country during the 1950s, undermining communist rule and forcing the eleventh-hour decision by Khrushchev and Ulbricht to build a wall along the Cold War's frontline. Did East Germans resist or come to terms with immurement?

Did the communist regime become more or less dictatorial within the confines of the so-called 'Antifascist Defence Rampart'? Using film and literature, but also the GDR's losing battle against Beatlemania, Patrick Major's cross-disciplinary study suggests that popular culture both reinforced and undermined the closed society. Linking external and internal developments, Major argues that the GDR's official quest for international recognition, culminating in Ostpolitik and United Nations membership in the early 1970s, became its undoing, unleashing a human rights movement which fed into, but then broke with, the protests of 1989.

After exploring the reasons for the fall of the Wall and reconstructing the heady days of the autumn revolution, the author reflects on the fate of the Wall after 1989, as it moved from demolition into the realm of memory.

In the past, our ideas of psychiatric hospitals and their history have been shaped by objects like straitjackets, cribs, and binding belts. These powerful objects were often used as a synonym for psychiatry and the way psychiatric patients were

treated, yet very little is known about the agency of these objects and their appropriation by staff and patients. By focusing on material cultures, this book offers a new perspective on the history of psychiatry: it enables a narrative in which practicing psychiatry is part of a complex entanglement in which power is constantly negotiated. Scholars from different academic disciplines show how this material-based approach opens up new perspectives on the agency and imagination of men and women inside psychiatry.

An outrageous, fantastical, uncategorizable novel of obsession, adventure, and coconuts In 1902, a radical vegetarian and nudist from Nuremberg named August Engelhardt set sail for what was then called the Bismarck Archipelago. His destination: the island Kabakon. His goal: to found a colony based on worship of the sun and coconuts. His malnourished body was found on the beach on Kabakon in 1919; he was forty-three years

old. Christian Kracht's *Imperium* uses the outlandish details of Engelhardt's life to craft a fable about the allure of extremism and its fundamental foolishness. Engelhardt is at once a sympathetic outsider—mocked, misunderstood, physically assaulted—and a rigid ideologue, and his misguided notions of purity and his spiral into madness presage the horrors of the mid-twentieth century. Playing with the tropes of classic adventure tales like *Treasure Island* and *Robinson Crusoe*, Kracht's novel, an international bestseller, is funny, bizarre, shocking, and poignant—sometimes all on the

same page. His allusions are misleading, his historical time lines are twisted, his narrator is unreliable—and the result is a novel that is also a mirror cabinet and a maze pitted with trapdoors. Both a provocative satire and a serious meditation on the fragility and audacity of human activity, *Imperium* is impossible to categorize, and utterly unlike anything you've read before.

In Berlin, Germany, in the early 1930s, the acclaimed Swiss film director Emil Nægeli receives the assignment of a lifetime: travel to Japan and make a film to establish the dominance of Adolf Hitler's Nazi empire once and for all. But his handlers are unaware that Nægeli has colluded with the Jewish film critics to pursue an alternative objective—to create a monumental, modernist, allegorical spectacle to warn the world of the horror to come. Meanwhile, in Japan, the film minister Masahiko Amakasu intends to counter Hollywood's growing influence and usher in a new

The arrival of Nægeli's film-star fiancée and a strangely thuggish, pistol-packing Charlie Chaplin—as well as the first stirrings of the winds of war—soon complicates both Amakasu's and Nægeli's plans, forcing them to face their demons . . . and their doom. "The Dead is the beautiful, brilliant, and utterly mad novel that Thomas Mann would have written had he known the East like Yukio Mishima and loved his adopted Hollywood with the gusto of Nathanael West." —Joshua Cohen

and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

Avery Stowe has moved to Redwood Ridge, Oregon. All she wants is a quiet place to raise her autistic daughter, Hailey. The last thing she needs is to fall for the local veterinarian, no matter how sweet and sexy he is. But the well-meaning patrons of her new hometown have other ideas, and it appears playing Cupid is one of them. Cade O'Grady has never met a woman he couldn't handle, but when Avery Stowe walks into his office late one night cradling an injured puppy, he's dumbstruck.

relevance of Wolf's oeuvre today, also for non-German readers. Thus, it brings East German culture alive to students, teachers, scholars and the general public by connecting the socialist German Democratic Republic (GDR) and the lived experiences of its citizens to nations and cultures around the world. The collection focuses on topical matters including the search for authenticity, agency, race, cosmopolitanism, gender, environmentalism, geopolitics, war, and memory debates, as well as movie adaptations and
