Corporations large and small, political figures, artists, and organizations: all of them need public relations to make their products or services known, to stimulate interest in a brand name, or to build the right image. As a result, recognition of the importance of communications is steadily growing, and interest in working in the PR field is on the rise. But those who want to enter the profession can't forget that making a name for oneself takes skill, diplomacy, creativity, and well-focused training. In this lively guide, Tiziana Rocca, an undisputed public-relations leader, shares her approach and her vision for the profession. Rocca begins with a series of reflections on the nature and the goals of PR, then turns to an examination of key aspects of professionalism: service quality, relationships with clients, and the human values that must be reinforced on a day-to-day basis. A large section of the book is dedicated to issues related to marketing and publicity, to managing information, and to the profession's concrete aspects: the creation of successful events, the modern art of entertaining, practical work tools and strategies, and effective collaboration with coworkers and team members. Experience, ideas, guidelines, and tips: Rocca's guide is a decisive leg up for anyone who wants to stand out in the complex and diverse world of communications.

This volume is addressed to researchers in the field of phraseology, and to teachers, translators and lexicographers. It is a collection of essays offering a comprehensive, modern analysis of phrasemes, embracing a wide range of subjects and themes, from linguistic, both applied and theoretical, to cultural aspects. The contrastive approach underlying this variety of themes allows the divergences and analogies between phraseological units in two or more languages to be outlined. The languages compared here are both major and minor, European and non-European, and the text includes contrastive analyses of the most commonly investigated languages (French-German, English-Spanish, Russian-German), as well as some less frequently investigated languages (like Ukrainian, Romanian, Georgian and Thai), which are not as well-represented in phraseological description, despite their scientific interest.

The Reception of Northrup Frye takes a thorough accounting of the presence of Frye in existing works and argues against Frye's diminishing status as an important critical voice.

Since 2006, Henry Jenkins's Confessions of an Aca-Fan blog has hosted interviews in which academics, activists, and artists have shared their views on the changing media landscape. For the first time, Jenkins – often called “the Marshall McLuhan for the twenty-first century” – compiles some of these interviews to highlight his recurring interests in popular culture and social change. Structured around three core concepts – culture, learning, politics – and designed as a companion to Participatory Culture in a Networked Era, this book broadens the conversation to incorporate diverse thinkers such as David Gauntlett, Ethan Zuckerman, Sonia Livingstone, S. Craig Watkins, James Paul Gee, Antero Garcia, Stephen Duncombe, Cathy J. Cohen, Lina Srivastava, Jonathan McIntosh, and William Uricchio. With an introduction from Jenkins and reflections from each interviewee, this volume speaks to a sense of crisis as contemporary culture has failed to fully achieve the democratic potentials once anticipated as a consequence of the participatory turn. This book is ideal for students and scholars of digital media, popular culture, education, and politics, as well as general readers with an interest in the topic.

An analysis of the relationship between detective fiction and its setting, this book is the most wide-ranging examination of the way in which Italian detective fiction in the last 20 years has become a means to articulate the changes in the social landscape of the country.

Saul Bellow's Herzog is part confessional, part exorcism, and a wholly unique achievement in postmodern fiction. Is Moses Herzog losing his mind? His formidable wife Madeleine has left him for his best friend, and Herzog is left alone with his whirling thoughts – yet he still sees himself as a survivor, raging against private disasters and the myriad catastrophes of the modern age. In a crumbling house which he shares with rats, his head buzzing with ideas, he writes frantic, unsent letters to friends and enemies, colleagues and famous people, the living and the dead, revealing the spectacular workings of his labyrinthine mind and the innermost secrets of his troubled heart. This Penguin Modern Classics edition includes an introduction by Malcolm Bradbury 'Spectacular ... surely Bellow's greatest novel' Malcolm Bradbury 'A masterpiece ... Herzog's voice, for all its wildness and strangeness and foolishness, is the voice of a civilization, our civilization' The New York Times Book Review

Even worse, when one visitor appears to be poisoned by the famous marinara recipe, Nell will have to work fast to uncover a killer and keep a lid on bad press before her fresh start is spoiled for good.

The Cultural Politics of Food, Taste, and Identity examines the social, cultural, and political processes that shape the experience of taste. The book positions flavor as involving all the senses, and describes the multiple ways in which taste becomes tied to local, translocal, glocal, and cosmopolitan politics of identity. Global case studies are included from Japan, China, India, Belize, Chile, Guatemala, the United States, France, Italy, Poland and Spain. Chapters examine local responses to industrialized food and the heritage industry, and look at how professional culinary practice has become foundational for local identities. The book also discusses the unfolding construction of “local taste” in the context of sociocultural developments, and addresses how cultural political divides are created between meat consumption and vegetarianism, innovation and tradition, heritage and social class, popular food and authenticity, and street and restaurant food. In addition, contributors discuss how different food products-such as kimchi, quinoa, and Soylent-have entered the international market of industrial and heritage foods, connecting different places and shaping taste and political identities.

Bringing together historians and political scientists, this unique collaboration compares nineteenth-century civil societies that failed to develop lasting democracies with civil societies that succeeded.

"Andrea Zanzotto (1921-) is now widely recognised as Italy's greatest living poet. This is the first comprehensive study of Zanzotto's poetry, making it accessible not only to scholars of Italian literature but to all readers with a general interest in contemporary European literature." "Vivienne Hand provides line-for-line translations of Zanzotto's poems as well as detailed textual analyses. She highlights the intertextuality of Zanzotto's work - how it draws not only on the Italian (medieval, renaissance and modern) tradition, but also on other modern European poets such as Eluard, Lorca and Holderlin. And concentrating on the poet's presentation of language, self and reality, she offers a lucid insight into the interaction between modern linguistic and psychoanalytic theory and creative writing."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Move past the obstacles and implement your new strategy Move is your guide to mobilizing your whole organization to take your business forward. Whatever your needed transformation may be: a new initiative, a new market, a new product, your fresh strategy is up against a powerful foe: an organization's tendency to stay very busy and completely engaged what it's already doing.

This book shows you how to cut through resistance and get your team engaged and proactively doing the new thing! Author Patty Azzarelo draws on over twenty-five years of international business management experience to identify the chronic challenges that keep organizations from decisively executing strategy, and to give you a practical game plan for breaking through.

Leaders tend to assume that stalls in execution are inevitable, unchanging parts of the workplace—but things can change. At the heart of every execution problem is the fact that there simply are not enough people doing what the business needs. This guide shows you how to get your entire organization on board—remove the fear, excuses, and hurdles—and uphold the new pursuit against distractions and dissent. No transformation can succeed without suitable engagement from the whole organization, but building engagement can be difficult, uncomfortable, and tentative. This book shows you how to get it done. Get your organization to embrace and personally commit to the new work Remove obstacles and passive aggressive attacks that block progress Defend new strategic initiatives against short term pressures to revert to "business as usual" Sustain momentum and the desire to move forward Make sure no one is ever asking, 'Are we still doing this?' Inertia isn't just a law of the universe, it's a law in the workplace that can be a major obstacle to making things happen. The great thing about inertia is that it cuts two ways: a body at rest remains at rest, but a body in motion remains in motion. People love to finish things. Move shows you how to make successful execution the new norm—starting today.
