

Universal War Two Tome 1 Le Temps Du Da C Sert

Lizzie O'Malley is back with a purpose in life. Still flighty and unpredictable, she knows that loving and losing Teagan Gallagher has changed her life forever. As she navigates her new life in Boston as a full time working mother, she promises herself she will never fall in love again. But can she keep that promise after meeting Nick Sawyer, the gorgeous Texan who has fallen for her? Follow Lizzie to Ireland where she struggles with tragedy and rediscovers herself all over again.

Many of the combatants in the European wars of the late middle ages fought for their own gain, but they observed a code of regulations, part chivalrous and part commercial which they called the 'law of arms'. This book, originally published in 1965, examines this soldiers' code, to understand its rules and how they were enforced. How did a soldier sue for ransom money if his prisoner would not pay it, and before what court? How did he know whether what he took by force was lawful spoil? As the answers to these and other questions reveal, the workings of the law of arms gave practical point to the contemporary cult of chivalry. It also had an important influence on the early development of ideas of international law.

La Première Guerre Universelle a été apocalyptique. L'humanité a failli être anéantie en même temps que la Terre, même si la civilisation de Canaan, fondée par Kalish sur une planète lointaine, s'efforce d'améliorer ce qu'il en reste.Sur Mars, on observe avec inquiétude le soleil mourir, dévoré par l'ultime wormhole laissé par la dictature. Tandis que les autorités de Canaan tentent le tout pour le tout afin de fermer le wormhole, l'inattendu se produit : un gigantesque triangle d'obscurité se matérialise devant la flotte. Et commence à se démultiplier... C'est dans ce contexte menaçant que l'on s'attache aux pas de Théa, descendante de Kalish, qui, bien à contrecoeur, fait son service militaire sur Mars, au sein de l'armée d'occupation..Trente ans après les événements relatés dans Universal War One (1998 – 2006), série SF en six volumes vite devenue une oeuvre culte de la bande dessinée, un nouveau cycle narratif commence, centré sur de nouveaux personnages. Très attendu par un lectorat de fans très motivés, UW2 propose une histoire distincte du premier cycle, qui peut se lire de façon indépendante et comptera elle aussi six volumes. Ici commence la Deuxième Guerre Universelle !

Universal basic income (UBI) is emerging as one of the most hotly debated issues in development and social protection policy. But what are the features of UBI? What is it meant to achieve? How do we know, and what don't we know, about its performance? What does it take to implement it in practice? Drawing from global evidence, literature, and survey data, this volume provides a framework to elucidate issues and trade-offs in UBI with a view to help inform choices around its appropriateness and feasibility in different contexts.

Specifically, the book examines how UBI differs from or complements other social assistance programs in terms of objectives, coverage, incidence, adequacy, incentives, effects on poverty and inequality, financing, political economy, and implementation. It also reviews past and current country experiences, surveys the full range of existing policy proposals, provides original results from micro+tax benefit simulations, and sets out a range of considerations around the analytics and practice of UBI.

Living and Breathing

The Purple Decades

A History of Nazi Germany

Red Queen Book 1

Sunday Times Top 10 Bestseller Shortlisted for a British Book Industry Book of the Year Award 2016 The new series Ultimate Rome: Empire Without Limits on BBC2 now Ancient Rome matters. Its history of empire, conquest, cruelty and excess is something against which we still judge ourselves. Its myths and stories - from Romulus and Remus to the Rape of Lucretia - still strike a chord with us. And its debates about citizenship, security and the rights of the individual still influence our own debates on civil liberty today. SPQR is a new look at Roman history from one of the world's foremost classicists. It explores not only how Rome grew from an insignificant village in central Italy to a power that controlled territory from Spain to Syria, but also how the Romans thought about themselves and their achievements, and why they are still important to us. Covering 1,000 years of history, and casting fresh light on the basics of Roman culture from slavery to running water, as well as exploring democracy, migration, religious controversy, social mobility and exploitation in the larger context of the empire, this is a definitive history of ancient Rome. SPQR is the Romans' own abbreviation for their state: Senatus Populusque Romanus, the Senate and People of Rome'.

The instant #1 New York Times bestseller. In time for the twentieth anniversary of 9/11, master storyteller Alan Graiz (Refugee) delivers a pulse-pounding and unforgettable take on history and hope, revenge and fear -- and the stunning links between the past and present. September 11, 2001, New York City: Brandon is visiting his dad at work, on the 107th floor of the World Trade Center. Out of nowhere, an airplane slams into the tower, creating a fiery nightmare of terror and confusion. And Brandon is in the middle of it all. Can he survive -- and escape? September 11, 2019, Afghanistan: Reshmina has grown up in the shadow of war, but she dreams of peace and progress. When a battle erupts in her village, Reshmina stumbles upon a wounded American soldier named Tac. Should she help Tac -- and put herself and her family in mortal danger? Two kids. One devastating day. Nothing will ever be the same. A prophecy of old is drawing nigh: There shall be two halves coming forth, that will test the balance of earth... One from hate, in darkness and blood, one from water where made from love... If you liked stories like Lord of the Rings or Chronicles of Narnia, you'll hopefully love this trilogy which tells a tale of an old prophecy about the breakdown or coming together of all things. There is hidden meaning not only behind the storyline, but also in the character's names, poetry, and classical art used in this first published book by M.J. Knight.

Paul Kennedy's classic naval history, now updated with a new introduction by the author This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural 'sons of the waves', he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between 'continental' and 'maritime' schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. 'Excellent and stimulating' Correll Barnett 'The first scholar to have set the sweep of British Naval history against the background of economic history' Michael Howard, Sunday Times 'By far the best study that has ever been done on the subject ... a sparkling and apt quotation on practically every page' Daniel A. Baugh, International History Review 'The best single-volume study of Britain and her naval past now available to us' Jon Sumida, Journal of Modern History

Is it possible to experience joy made full? This story is one of heroic recovery. Darcy's sights are firmly set on winning The National Oldtime Fiddle Contest in Weiser, Idaho. She barely gains traction with her quest when tragedy strikes.

La Première Guerre Universelle a été apocalyptique. L'humanité a manqué d'être anéantie en même temps que la Terre. Et la situation des survivants reste dramatique partout dans le système solaire. Sur Mars, on observe avec inquiétude le soleil mourir, dévoré par l'ultime wormhole laissé par la dictature. Après quelques années de paix, c'est une nouvelle tragédie qui se prépare. Et cette fois, elle embrasera toute la galaxie. Ici commence la Deuxième Guerre Universelle.

Chronicles the Nazi's rise to power, conquest of Europe, and dramatic defeat at the hands of the Allies.

Life is hard for Gary. He has a dead-end job, a grouchy boss, and a beat-up car-and he's only in eighth grade! Things go from bad to worse when a wave of bank robberies hits the city and Gary becomes the prime suspect. With time running out to clear his name and nail the real crooks, this teenage tough-guy must rely on cunning, stealth, and good, old-fashioned, two-fisted justice! It's all in a day's work in a city that doesn't exist.

Life, the Universe and Everything

Strings of Faith

Love Love Love - Volume 1 - Yeah Yeah Yeah

The end of the world is only just the beginning. So eighteen-year-old Thea discovers when her solitary life on a dying Earth is shattered by a mysterious dream, a devastating choice, and a strange gift that propels her on a journey towards the restoration of all mankind. Thea is bitter and alone, just like everyone else left eking out an existence on a sunless, cloud-covered Earth. A terrifying dream convinces her to save the life of sixteen-year-old Viviana, who has a deadly infection, as well as a freakish patch of glowing skin over her heart. When this light spreads to Thea, causing her palms to glow, she is forced to trust Caden, an arrogant, lazy, and annoyingly handsome boy she utterly despises. Caden has a map to the last on Earth, and the only place that might have a cure for both Viv's infection and the strange light on Thea's hands. As the trio embark on a journey through the barren wilderness, Thea and Caden discover, and try to fight, their mounting attraction to each other. Along the way they are joined by Rain, Naomi, and Enoch who explain that the light is not a curse, but a powerful gift meant to heal the polluted Earth and reconnect the remnants of humanity. When the group learns that Viv is the key to this planet-wide redemption, and that there are deadly shadows who will do anything to keep humans in the darkness forever, they each must make the difficult decision to help Viv fulfill her destiny...and save the world. Don't miss WAR INSIDE, an exciting young adult dystopian/fantasy novel by debut author M. Kircher.

The first in Ken Follett's bestselling Century Trilogy, Fall of Giants is a captivating novel that follows five families through the world-shaking dramas of the First World War, the Russian Revolution, and the struggle for votes for women. A world in chaos. 1911, a thirteen-year-old boy, Billy Williams, begins working down the mines as George V is crowned king. The escalating arms race between the empire nations will put not only the king but this young boy in grave danger. A terrible war. Billy's family is inextricably linked with the Fitzherberts, the aristocratic owners of the coal mine where he works. And when Maud Fitzherbert falls in love with Walter von Ulrich, a spy at the German embassy in London, their destiny also becomes entangled with that of Gus Dewar, an ambitious young aide to Woodrow Wilson, and two orphaned Russian brothers, the Peshkovs, whose plan to emigrate to America fails foul of conscription, revolution and imminent war. A revolution that will change everything. When Russia convulses in bloody revolution and the Great War unfolds, the five families' futures are entwined forever, love bringing them closer even as conflict takes them further apart. What seeds will be sown for further tragedy in the twentieth century and what role will each play in what is to come?

In October 2005, UNESCO Member States adopted by acclamation the Universal Declaration on Bioethics and Human Rights. For the first time in the history of bioethics, some 190 countries committed themselves and the international community to respect and apply fundamental ethical principles related to medicine, the life sciences and associated technologies. This publication provides a new impetus to the dissemination of the Declaration, and is part of the organisation's continuous effort to contribute to the understanding of its principles worldwide. The authors, who were almost all involved in the elaboration of the text of the Declaration, were asked to respond on each article: Why was it included? What does it mean? How is it applied? Their responses shed light on the historical background of the text and its evolution throughout the drafting process. They also provide a reflection on its relevance to previous declarations and bioethical literature, and its potential interpretation and application in challenging and complex bioethical debates.

The Pinnacle of Power, first book in the Keeper of the Balance Trilogy, combines all of the classic elements of epic fantasy and sci-fi with a little touch of political intrigue mystery, suspense, espionage and romance.

Is peace an aberration? The bestselling author of Paris 1919 offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR "Margaret MacMillan has produced another seminal work. . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of Dereliction of Duty and Battlefields: The Fight to Defend the Free World The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. War: How Conflict Shaped Us explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

In a futuristic Paris, robots have evolved into sentient beings whose rights are being revoked due to the perceived threat they pose to human society. But not everyone has turned their backs on these so-called mechas. When the cherish bot Karel and down-on-her-luck Ellie meet in the subway, they soon become friends, and something more... But a robot resistance is forming, and the two of them are dragged unwittingly into the chaos. Not only that, but Karel's programmed life expectancy is mysteriously decreasing... Will they be able to stop the countdown, and steer clear of both the robot rebels and human police?

The year is 2454. Humanity has engineered a hard-won golden age, forged in the aftermath of a bitter conflict that wiped both religion and nation state from the planet. Now seven factions or 'hives' co-govern the world, their rule fuelled by benign censorship, oracular statistical analytics and technological abundance. But this is a fragile Utopia – and someone is intent on pushing it to breaking point. Convicted for his crimes, celebrated for his talents, Mycroft Canner is the indentured instrument – and confidant – of some of the world's most powerful figures. When he is asked to investigate a bizarre theft, he finds himself on the trail of a conspiracy that could shatter the tranquil world order the Hives have maintained for three centuries. But Mycroft has his own secrets. He is concealing a much greater threat to the seven Hives, a wild card no degree of statistical analysis could have prophesied. This threat takes the unlikely form of a thirteen-year-old called Bridger. For how will a world that has banished God deal with a child who can perform miracles?

While trying to escape an avalanche triggered by the killers of the First Families, Ivan drowned. Though this is a less permanent problem that it used to be for the children, Ivan 'returned' far from his friends, in a small village in Brittany where he used to holiday with his parents. There he lives alone, preparing for the long trip back to Neo-Salem. Until the day Camille, now revealed as the Midnight Child, pays him a terrifying visit, and the nightmare begins ...

A Living Series...

A Guide to Navigating Concepts, Evidence, and Practices

The Secret War

Spies, Ciphers, and Guerrillas, 1939-1945

A small exploratory vessel crashes onto an unknown ocean planet after its crew is seized by a sudden madness. After escaping their sinking ship, the five survivors are helped to the surface by giant squid-like creatures who guide them to what appears to be the planet's only island. To their surprise, they are greeted on the shore by primitive humans, who prove to be welcoming despite their cannibalistic rituals. But their fixed smiles and total docility suggest that something more sinister is going on. Are the castaways doomed to join them in submitting to the will of the mysterious Great One?

How much do we know ourselves is critically very important and perhaps very essential. Life we do face many curves up and down while in course of life. Marriage, becoming parent, life traumas and recoveries, retiring from jobs, empty nest, loss of relations, death of beloved. So yes various experiences... We get tired sometimes and immediately ask a question "why me?," but do remember the universe is not short of any wakeup calls we are just very quick in reactions. The four elements of life Air, Water, Earth, Fire are the only truth which then render the whole meaning of being as a human. Are we authentic? Are we living in courage? Are we kind and in patience? Are we kind and in patience? How we face life and respond to life is all that matters. Elements of Life explores the options and choices which will help you to live more in tune with what you want from life. Motivational chapters simple questions based on elements of life - air, fire, water and earth providing simple strategies of life help you to live in harmony with yourself, others and the world, enhancing you to be true to your values and to interact with others while being in more patience. To do otherwise is to foster discontentment and unhappiness, but everyone wants to be in peace and lead a happy life in the end of the day. Living in moderation balancing all the elements of being authentic, being in peace, being grateful, being a little more compassionate can improve the very purpose of being in this awesome life.

Entre Saturne et Jupiter, au coeur des jeunes Etats les plus prospères de la Fédération des Terres Unies, la troisième flotte de l'United Earthes Force veillait inlassablement sur la périphérie du système solaire. Elle assurait par son gigantisme un incroyable sentiment de sécurité à ses habitants. Mais LE MUR apparaît. Si grand, si sombre, insondable. Et c'est ainsi que commença la Première Guerre Universelle.

Universal War Two (Tome 1) - Le Temps du désert

The Poetry of the Great War, Revolution and the Transformation of Europe

A History of Ancient Rome

Background, Principles and Application

Inhuman

The Laws of War in the Late Middle Ages

2058. Humanity has colonized our entire solar system. In the middle of a civil war between the core planets and distant outlying planetary settlements, an immense black wall appears, cutting our solar system in two. The black wall absorbs all light and matter, and it's up to a band of disgraced soldiers to investigate the phenomenon.

In Life, the Universe and Everything, the third title in Douglas Adams' blockbusting sci-fi comedy series, The Hitchhiker's Guide to the Galaxy, Arthur Dent finds himself enlisted to prevent a galactic war. This edition includes exclusive bonus material from the Douglas Adams archives, and an introduction by Simon Brett, producer of the original radio broadcast. Following a number of stunning catastrophes, which have involved him being alternately blown up and insulted in ever stranger regions of the Galaxy, Arthur Dent is surprised to find himself living in a cave on prehistoric Earth. However, just as he thinks that things cannot possibly worsen, they suddenly do. An eddy in the space-time continuum lands him, Ford Prefect, and their flying sofa in the middle of the cricket ground at Lord's, just two days before the world is due to be destroyed by the Vogons. Escaping the end of the world for a second time, Arthur, Ford, and their old friend Slartibartfast embark (reluctantly) on a mission to save the whole galaxy from fanatical robots. Not bad for a man in his dressing gown . . . Follow Arthur Dent's galactic (mis)adventures in the rest of the trilogy with five parts: So Long, and Thanks for All the Fish, and Mostly Harmless.

Hailed as one of the greatest novels of all time and a classic of world literature, War and Peace is a tale of strivers in a world fraught with conflict, social and political change, and spiritual confusion, Tolstoy's magnificent work continues to entertain, enlighten, and inspire readers around the world. Both an intimate study of individual passions and an epic history of Russia and its people, "War and Peace" is nothing more or less than a complete portrait of human existence. Among its many unforgettable characters is Prince Andrey Bolkonsky, a proud, dashing man who, despising the artifice of high society, joins the army to achieve glory.

Badly wounded at Austerlitz, he begins to discover the emptiness of everything to which he has devoted himself. His death scene is considered one of the greatest passages in Russian literature. Terror swiftly engulfs the country as Napoleon's army marches on Russia, and the lives of three young people are changed forever. The stories of guisotic Pierre, cynical Andrey and impetuous Natasha interweave with a huge cast, from aristocrats and peasants, to soldiers and Napoleon himself. In War and Peace (1869-70), Tolstoy entwines grand themes—conflict and love, birth and death, free will and fate.

The first novel in the #1 bestselling RED QUEEN series by Victoria Aveyard. THIS IS A WORLD DIVIDED BY BLOOD - RED OR SILVER. The Reds are commoners, ruled by a Silver elite in possession of god-like superpowers. And to Mare Barrow, a seventeen-year-old Red girl from the poverty-stricken Stilts, it seems like nothing will ever change. That is, until she finds herself working in the Silver Palace. Here, surrounded by the people she hates the most, Mare discovers that, despite her red blood, she possesses a deadly power of her own. One that threatens to destroy the balance of power. Fearful of Mare's potential, the Silvers hide her in plain view, declaring her a long-lost Silver princess, now engaged to a Silver prince. Despite knowing that one misstep would mean her death, Mare works silently to help the Red Guard, a militant resistance group, and bring down the Silver regime. But this is a world of betrayal and lies, and Mare has entered a dangerous dance - Reds against Silvers, prince against prince, and Mare against her own heart . . .

The Rise And Fall of British Naval Mastery

Alone - Volume 11

Red Rising Series 1

The Conquest of the Middle East

Ulysses

The basis of this book is my initial introduction into combat in Vietnam as a 1st Lieutenant with the Vietnamese Ranger infantry. I was the Deputy Senior Advisor to the Vietnamese 52d Ranger Battalion located at Xuan Loc, Long Kanh Province, III Corps, South Vietnam. The book is 95 percent fact and 5 percent speculation regarding a major action the battalion fought in June of 1967 near the Dong Ngai River, War Zone D. The action begins with a Viet Cong (VC) soldier surrendering to U.S. elements in Long Kanh. He related that a VC company was building a base camp near the Dong Ngai along a stream named Suoi Long. The intelligence led the commanding general of the 18th ARVN Division to assign the task of finding and destroying the camp to the 52d Rangers. The Rangers deployed in less than 24 hours from initial notification to a Landing Zone approximately 2½ kilometers from the reported base camp. The Rangers were immediately engaged and ambushed by a full strength Main Force VC battalion backed by an entire VC regiment, which quickly engaged the trapped Rangers that night and early morning. No U.S. support was available other than long range artillery. In desperation, the Ranger battalion commander, the following morning at dawn, ordered a covering assault into the attacking VC by one company to be followed by a withdrawal under pressure of the remainder of the battalion aided by more than 72 tactical airstrikes within a 45 minute period. As I regrouped into our new perimeter at around 10 a.m., I counted a total of 32 Rangers left from an original assault force of 450. During the Christmas period in December 1967, a number of Ranger prisoners held by the VC during this action were released back to our control as a good will gesture. During the debrief of the ex-POWs, they independently related that they were told by their captors that the entire action was planned at the highest level in order to trap and destroy a major South Vietnamese unit. We had no reason to doubt the authenticity of the report and this book is based on the supposition that it is true. The character of Hu, the informant, and his actions are real. The death of Gen Do, COSVN commander, and the effect of the B-52 Arc Light strike with subsequent movement into Laos, is as the former POWs related to us. The portrayal of Do and his planning briefings are conjecture. The remainder of the description is as I saw the action, the players, and the effects. For this action, the 52d Ranger Battalion was awarded a second U.S. Presidential Unit Citation, one of the very few Vietnamese units to garner two of the highest awards the U.S. can proffer upon a military unit, U.S. or foreign.

NEW YORK TIMES BESTSELLER From one of the foremost historians of the period and the acclaimed author of Inferno and Catastrophe: 1914, The Secret War is a sweeping examination of one of the most important yet underexplored aspects of World War II—intelligence—showing how espionage successes and failures by the United States, Britain, Russia, Germany, and Japan influenced the course of the war and its final outcome. Spies, codes, and guerrillas played unprecedentedly critical roles in the Second World War, exploited by every nation in the struggle to gain secret knowledge of its foes, and to sow havoc behind the fronts. In The Secret War, Max Hastings presents a worldwide cast of characters and some extraordinary sagas of intelligence and resistance, to create a new perspective on the greatest conflict in history

A sweeping and dramatic history of the last half century of conflict in the Middle East from an award-winning journalist who has covered the region for over forty years, The Great War for Civilisation unflinchingly chronicles the tragedy of the region from the Algerian Civil War to the Iranian Revolution; from the American hostage crisis in Beirut to the Iran-Iraq War; from the 1991 Gulf War to the American invasion of Iraq in 2003. A book of searing drama as well as lucid, incisive analysis, The Great War for Civilisation is a work of major importance for today's world.

This chilling, futuristic novel, written in 1913 and first published the following year, was incredibly prophetic on a major scale. Wells was a genius and visionary, as demonstrated by many of his other works, but this book is clearly one of his best. He predicts nuclear warfare years before research began and describes the chain reactions involved and the resulting radiation. He describes a weapon of enormous destructive power, used from the air that would wipe out everything for miles, and actually used the term "atomic bombs." This book may have been at least part of the original inspiration for the development of atomic weapons, as well as presenting many other ideas that would ultimately come to pass. Some ideas may still be coming, including a one-world government referred to as The World Republic, that will attempt to end all wars.

Too Like the Lightning

The Great War for Civilisation

Fall of Giants

Just Another Day in Vietnam

One, Holy, Catholic, and Apostolic, Tome 1

Universal War One

The poets' Great War: violence, revolution and modernism The First World War changed the map of Europe forever. Empires collapsed, new countries were born, revolutions shocked and inspired the world. This tumult, sometimes referred to as 'the literary war', saw an extraordinary outpouring of writing. The conflict opened up a vista of possibilities and tragedies for poetic exploration, and at the same time poetry was a tool for manipulating the sentiments of the combatant peoples. In Germany alone during the first few months there were over a million poems of propaganda published. We think of war poets as pacifistic protestors, but that view has been created retrospectively. The verse of the time, particularly in the early years of the conflict—in Fernando Pessoa or Filippo Tommaso Marinetti, for example—could find in the violence and technology of modern warfare an awful and exhilarating epiphany. In this cultural history of the First World War, the conflict is seen from the point of view of poets and writers from all over Europe, including Rupert Brooke, Anna Akhmatova, Guillaume Apollinaire, Gabriele D'Annunzio, Vladimir Mayakovsky, Rainer Maria Rilke and Siegfried Sassoon. Everything to Nothing is the award-winning panoramic history of how nationalism and internationalism defined both the war itself and its aftermath—revolutionary movements, wars for independence, civil wars, the treaty of Versailles. It reveals how poets played a vital role in defining the stakes, ambitions and disappointments of postwar Europe.

NEW YORK TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ENTERTAINMENT WEEKLY, BUZZFEED, GOODREADS AND SHELF AWARENESS Pierce Brown's heart-pounding debut is the first book in a spectacular series that combines the drama of Thrones with the epic scope of Star Wars. ***** Pierce Brown's empire-crushing debut is a sprawling vision . . . Darrow, Katniss, and now Darrow - Scott Sigler, New York Times bestselling author of Pandemic [A] top-notch debut novel . . . Red Rising ascends above a crowded dystopian field' - USA Today ***** Darrow is a Helldiver. A pioneer of Mars. Born to slave beneath the earth so that one day, future generations might live above it. He is a Red - humankind's lowest caste. But he has his selections the Golds - the ruthless ruling class - will never understand. He has a wife he worships, a family who give him strength. He has love. And when they take that from him, all that remains is revenge . . .

The Purple Decades brings together the author's own selections from his list of critically acclaimed publications, including the best from The Electric Kool-Aid Acid Test, Radical Chic, From Bauhaus to Our House, The Right Stuff and the complete text of Mau-Mauing and the Flak Catchers. An essential introduction to the non-fiction writing of the inventor of New Journalism.

The mid-nineteenth century is a gold mine for contemporary scholars interested in American Protestant ecclesiology. There one will find the extensive writings of John Nevin who came to the notice of the theological world with The Anxious Bench, a critique of the "quackery" of Protestant revivalism. Influenced by a critical appropriation of cutting-edge contemporary German theology, he came to believe that the church was not "invisible," but the visible manifestation of Jesus Christ's incarnate life. Christians were to pursue unity, not in external institutional arrangements, but as unity of spiritual life. This compilation presents his theology of the catholicity of the church prior to his masterpiece, The Mystical Presence, and a multifaceted, sophisticated critique of American sectarianism. This edition carefully preserves the original texts while providing extensive introductions, annotations, and bibliography. The Mercersburg Theology Study Series presents for the first time attractive, readable, scholarly modern editions of the key writings of the nineteenth-century movement known as the Mercersburg Theology. An ambitious multi-year project, it aims to make an important contribution to the academic community and to the broader public, who can at last be properly introduced to this unique blend of American and European Reformed and Catholic theology.
