New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Fashion has always sought to celebrate nature - from sumptuous silks and floral patterns, to the spectacular creations of designers such as Alexander McQueen and Christian Dior, the two have long been entwined. Yet this reverence is sometimes combined with a damaging need for raw materials. From the seventeenth century to the present day, Fashioned from Nature examines our dependence on the natural world and the devastating effect of certain trends, as seen in the demand for ivory, fur, skins and exotic feathers. Today, intense consumerism and fast fashion have a different impact on the world around us, and this book discusses the need for a more responsible fashion cycle. But which has the greater environmental impact - a leather handbag or a white cotton t-shirt? Consider the effects of land clearance, insecticides and water consumption - not to mention washing after every wear - and the answer may not be completely clear. Fascinating and beautifully illustrated, this book will stimulate an important and timely debate. Exhibition: Victoria & Albert Museum, London, UK (21.04.2018-24.02.2019).

Spectrum offers a fascinating visual analysis of the colour palettes used in furnishing fabrics and wallpapers from the 15th century to the present day. Each textile or wallpaper is reproduced alongside a simple proportional grid, giving a clear understanding of the ways colours have been expertly combined at different periods to create the beautiful designs we admire and emulate today. This unique sourcebook will provide inspiration for all designers, both amateur and professional.

What is the kimono? Everyday garment? Art object? Symbol of Japan? As this book shows, the kimono has served all of these roles, its meaning changing across time and with the perspective of the wearer or viewer. *Kimono: A Modern History* begins by exposing the seventeenth- and eighteenth-century foundations of the modern kimono fashion industry. It explores the crossover between 'art' and 'fashion' in this period at the hands of famous Japanese painters who worked with clothing pattern books and painted directly onto garments. With Japan's exposure to Western fashion in the nineteenth century, and Westerners' exposure to Japanese modes of dress and design, the kimono took on new associations and came to symbolize an exotic culture and an alluring female form. In the aftermath of the Second World War, the kimono industry was sustained through government support. The line between fashion and art became blurred as kimonos produced by famous designers were collected for their beauty and displayed in museums, rather than being worn as clothing. Today, the kimono has once again taken on new dimensions, as the Internet and social media proliferate images of the kimono as a versatile garment to be integrated into a range of individual styles. *Kimono: A Modern History*, the inspiration for a major exhibition at the Metropolitan Museum of Art in New York, not only tells the story of a distinctive garment's ever-changing functions and image, but provides a novel perspective on Japan's modernization and encounter with the West.

This exciting book explores fashion not simply from an aesthetic point of view but also as a manifestation of social and cultural change. Focusing on fashion from 1850, noted fashion historians Daniel James Cole and Nancy Deihl consider the evolution of womenswear, menswear, and childrenswear, decade by decade. The book looks at the dissemination of style and the mechanisms of change, at the relationship between fashion and the visual, applied, and performing arts, the intertwined relationship between fashion and popular culture, the impact of new materials and technology, and the growing globalization of style. With photographs of costume from museums and images from the fashion press including editorial photography, illustrations, and advertising, the book will include insights into icons of fashion and the clothes worn by "real people", providing a valuable visual reference for the reader.

Provides guidelines and advice on starting points for fashion designers of all levels, including defining and rendering concepts, understanding textiles, developing sewing skills, and building an audience.

If we lived in a liquid world, the concept of a "machine" would make no sense. Liquid life is metaphor and apparatus that discusses the consequences of thinking, working, and living through liquids. It is an irreducible, paradoxical, parallel, planetary-scale material condition, unevenly distributed spatially, but temporally continuous. It is what remains when logical explanations can no longer account for the experiences that we recognize as part of "being alive." Liquid life references a third-millennial understanding of matter that seeks to restore the agency of the liquid soul for an ecological era, which has been banished by reductionist, "brute" materialist discourses and mechanical models of life. Offering an alternative worldview of the living realm through a "new materialist" and "liquid" study of matter, it conjures forth examples of creatures that do not obey mechanistic concepts like predictability, efficiency, and rationality. With the advent of molecular science, an increasingly persuasive ontology of liquid technologies can be identified. Through the lens of lifelike dynamic droplets, the agency for these systems exists at the interfaces between different fields of matter/energy that respond to highly local effects, with no need for a central organizing system. Liquid Life seeks an alternative partnership between humanity and the natural world. It provokes a re-invention of the languages of the living realm to open up alternative spaces for exploration: Rolf Hughes' "angelology" of language explores the transformative invocations of prose poetry, and Simone Ferracina's graphical notations help shape our concepts of metabolism, upcycling, and designing with fluids. A conceptual and practical toolset for thinking and designing, Liquid Life reunites us with the irreducible "soul substance" of living things, which will neither be simply "solved," nor go away. □Grammar correction is done ♥♥ A Lost Lady by Willa Cather ♥♥ Marian Forrester is the emblematic blossom of the Old American West. She draws her quality from that strong establishment, carrying joy and excellence to her older spouse, to the community of Sweet Water where they live, to the prairie land itself, and the youthful storyteller of her story, Neil Herbert. All are beguiled by her splendor and effortlessness, and all are eventually sold out. For Marian yearns for "life on any terms," and in satisfying herself, she loses all she adored and all who cherished her. This, Willa Cather's absolute best novel, isn't just a representation of a disturbing stunner, yet additionally, an eerie inspiration of an honorable age slipping permanently into the past. ♥♥ A Lost Lady by Willa Cather ♥♥ The Finest family in Sweet Water, The Forresters are known for their gatherings, and Mrs. Forrester, to be an enchanting hostess. Neil Herbert, finds himself at the Forester estate playing with friends, and he falls in love with Mrs. Forrester, and what she represents. As he grows up, he finds it increasingly harder to keep his boyhood image of her, and she does nothing to help. Marian Forrester is the symbolic flower of the Old American West. She draws her strength from that solid foundation, bringing delight and beauty to her elderly husband, to the small town of Sweet Water where they live, to the prairie land itself, and to the young narrator of her story, Neil Herbert. All are bewitched by her brilliance and grace, and all are ultimately betrayed. For Marian longs for "life on any terms," and in fulfilling herself, she loses all she loved and all who loved her. ♥♥ A Lost Lady by Willa Cather ♥♥ This, Willa Cather's most perfect novel, is not only a portrait of a troubling beauty, but also a haunting evocation of a noble age slipping irrevocably into the past. The kimono is an iconic garment with a history as rich and colourful as the textiles from which it is crafted. Deeply associated with Japanese culture both past and present, it has often been thought of as a highly gendered, rigidly traditional and unchanging national costume. This book challenges that perception, revealing the nuanced meanings and messages behind the kimono from the point of view of its wearers and producers, many of whom – both men and women – see the garment as a vehicle for self-expression. Taking a material culture approach, *The Social Life of Kimono* is the first study to combine the history of the kimono as

a fashionable garment with an in-depth exploration of its multifaceted role today on both the street and the catwalk. Through case studies covering historical advertising campaigns, fashion magazines, interviews with contemporary kimono designers, large scale and small craft producers, and consumers who choose to wear them, *The Social Life of Kimono* gives a unique insight into making and meaning of this complex garment.

In this 21st installment of Kaffe Fassett's ever-popular series of patchwork and quilting books, Kaffe has chosen to show off his latest range of fabrics by revisiting many of his favorite medallion quilt blocks. Assisted by his team of designers and makers, Kaffe has created an exquisite and varied range of 19 medallion designs, among them: the rich Berry Ice Cream quilt, photographed in Hidcote's world famous Red Border the dramatic Dark Gameboard, photographed against the geometric precision of Hidcote's famous topiary hedges the soft Flowery Jar, its pink and blue themed design echoing the colors of the flowers in Hidcote's early summer border Kaffe Fassett's Quilts in the Cotswolds provides all the basic instructional text, diagrams, and templates to make the quilts, plus a section on basic patchwork techniques for less experienced quilters.

With its vivid descriptions of courtly society, gardens, and architecture in early eleventh-century Japan, *The Tale of Genji*—recognized as the world's first novel—has captivated audiences around the globe and inspired artistic traditions for one thousand years. Its female author, Murasaki Shikibu, was a diarist, a renowned poet, and, as a tutor to the young empress, the ultimate palace insider; her monumental work of fiction offers entry into an elaborate, mysterious world of court romance, political intrigue, elite customs, and religious life. This handsomely designed and illustrated book explores the outstanding art associated with *Genji* through in-depth essays and discussions of more than one hundred works. *The Tale of Genji* has influenced all forms of Japanese artistic expression, from intimately scaled albums to boldly designed hanging scrolls and screen paintings, lacquer boxes, incense burners, games, palanquins for transporting young brides to their new homes, and even contemporary manga. The authors, both art historians and *Genji* scholars, discuss the tale's transmission and reception over the centuries; illuminate its place within the history of Japanese literature and calligraphy; highlight its key episodes and characters; and explore its wide-ranging influence on Japanese culture, design, and aesthetics into the modern era. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

"This is the first publication to consider art to wear, also known as wearable art, as a discrete American movement with roots and intersections in fine arts, fiber arts, craft, performance, and fashion. It looks in depth at the generation of artists who came of age in the late 1960s and 1970s and trained primarily as painters and sculptors but broke well-established boundaries in their use of nontraditional forms, materials, and techniques to create one-of-a-kind works using the body as an armature. --

The fruits and flowers are: apple (utility); pomegranate (hard to make out - amb.?); wheat and hops (strength & wealth); blackberries and other red berries (charity); strawberries (kisses); grapes (hospitality); hazelnuts? and grain (retrospection); cherries (smiles); mulberries? (tears); peach (sensibility?); apricots (independence)"--Abe Books website.

Poetry. **READING THE REMOVE OF LITERATURE** is a reading of Maurice Blanchot's seminal book *The Space of Literature*, performed on the page as an annotative writing that encircles the should-be space of print. Through the progressive appropriation and then erasure of Blanchot's text, and through a processual transposition of hand-writing into formal typography, Thurston addresses the very question of the possibility of literature that obsessed Blanchot. The meaning of the candid reflections and meditations which form the incisive marginalia is founded in a tension with the suggestions of the absent text. Floating alone these annotations may have little worth or make little sense, but between these covers they do not deny the history of their derivation: They are constantly anchored by that which is missing, in a creative erring, in a process of over-coming, which in this book asserts an equality of presence between the read and the written; the reading and the writing.
