*Simon Tofield's animations have taken YouTube by storm. This book based on the popular animated series. SIMON'S CAT depicts and exaggerates the hilarious relationship between a man and his cat. The daily escapades of this adorable pet, which always involve demanding more food, and his exasperated but doting owner come to life through Tofield's charming and hilarious illustrations.*

*From award-winning artist and author Christoph Niemann comes a collection of witty illustrations and whimsical views on working creatively. Taking its cue from his New York Times column Abstract Sunday, this book covers Niemann's entire career and showcases brilliant observations of contemporary life through sketches, travel journals, and popular newspaper features. The narrative guides readers through Christoph's creative process, how he built his career, and how he uses the internal and external obstacles that creative people face—all presented with disarming wit and intellect. Enhanced with nearly 350 original images, this book is a tremendous inspirational and aspirational resource. Also available from Christoph Niemann: Abstract City and I Lego N.Y.*

*The award-winning author of the Felix series follows two siblings' efforts to reenact events from the first Christmas by travelling from their home and using flashlights on an adventure that takes them across snowy fields, during which the sister whispers the story of Jesus' birth to her younger brother.*

*Includes 204 photos, plans and maps illustrating The Holocaust Arrested by the Gestapo in 1942 for involvement in the resistance, the author spent three years in Birkenau. Severyna Szmaglewska (1916-1992) began writing this book immediately after escaping from an evacuation transport in January 1945, and it is the first account of the Auschwitz-Birkenau camp and an eloquent and important analysis of the individual experience of modern war. It was ready for print before the end of 1945, after several months of feverish work. In February 1946 the International Tribunal in Nuremberg included it in the material making up the charges against the Nazi perpetrators, and called upon the author to give testimony. Since 1945, Smoke over Birkenau has been reprinted frequently and widely translated. Critics, and three generations of readers, praised it for truthfulness, accuracy, and lasting literary merit: as memories of war-time genocide fade with the passage of time, Szmaglewska's readers are able to stay in touch with extremes of experience which must never be forgotten. "Smoke over Birkenau is not a book about death or hatred," one critic wrote. "It is a powerful act of the will to live and a profession of the noblest humanism. The victorious idea of life is woven through every page. Maintaining, cultivating, and instilling in oneself the imperative: You must endure! You must live! - a plan carried out unwaveringly despite everything."-Print ed.*

This appealing Christmas story with a poignant message for young and old alike will gently prompt discussion on important issues An old owl tells the Christmas story to the community of birds as he has done so many times before, but when he tells of the special message from the Baby Jesus, a little bird questions why they no longer sing the message. "People no longer listen," is the sad realization. The birds decide to share the message once more, but this time to the children of the world. And what unfolds is surely a Christmas wonder.

**AN INSTANT NEW YORK TIMES BESTSELLER** The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "Found sheltering in a garage was one of just three Maserati A6G 2000 Berlinettas with coachwork by Frua, dating from 1956. And then, beneath piles of magazines, they discovered something even more exciting... a Ferrari 250 GT SWB California Spider, with covered headlights, a car whose first owner was comedian Gerard Blain... Blain sold the Ferrari to actor Alain Delon, who was on several occasions photographed at the wheel - accompanied, in 1964, by Jane Fonda." Classic Driver A Maserati A6G 2000 Gran Sport. A Facel Vega Excellence. A Hispano-Suiza H6B. A Bugatti 57 Ventoux. Alain Delon's Ferrari 250 GT SWB California Spider. Several Talbot-Lago, Delahaye and Voisin - the list of classic automobiles, forgotten for decades on an estate in Echire in south-western France, is almost unbelievable. That was not what the owner, the haulier Roger Ballon, had in mind. He intended to establish the first automobile museum of France before financial setbacks forced him to sell part of his impressive collection. What was left of his dream, his descendants have now handed to other collectors. Before the cars were auctioned in early 2015, French photographer Remi Dargegen took pictures of the incredible "Baillon Collection." When the photo sessions at Chateau Gaillard started, Remi Dargegen had not expected to find such a huge treasure trove of classic automobiles: "Unbelievable, just unbelievable. This place is unique. What is most impressive, is the sheer number of cars that were stored in the barns." That enthusiasm is reflected in his photographs, presented for the first time in this book: Baillon Collection. It is also the first publication of a "barnfind"; historically unique and outstanding in dimension. Text in English and German."

The Dutch people are some of the happiest in the world. Their secret? They are masters of nixken, or the art of doing nothing. Nixken is not a form of meditation, nor is it a state of laziness or boredom. It's not scrolling through social media, or wondering what you're going to cook for dinner. Rather, to niks is to make a conscious choice to sit back, let go, and do nothing at all. With this book, learn how to do nothing in the most important areas of your life, such as: AT HOME. Find a comfy nook and sit. No technology or other distractions. AT WORK: Stare at your computer. Take in the view from your office. Close your eyes. In PUBLIC: Forget waiting for the bus, enjoy some relaxing nixken time. Backed with advice from the world's leading experts on happiness and productivity, this book examines the underlying science behind nixken and how doing less can often yield so much more. Perfect for anyone who feels overwhelmed, burnt out, or exhausted, NIKSEN does not tell you to work harder. Instead, it shows you how to take a break from all the busyness while giving you sincere, heartfelt permission to do nothing.

Clarice Lispector's masterly second novel, now available in English for the first time "She found the best clay that one could desire: white, supple, sticky, cold ... She would get a clear and tender material from which she could shape a world' like the clay from which she sculpts figurines as a girl, Virginia is constantly shifting and changing. From her dreamlike childhood on Quiet Farm with her adored brother Daniel, through an adulthood where the past continues to pull her back and shape her, she moves through life, grasping for the truth of existence. Illuminating Virginia's progress through intense flashes of image, sensation and perception, The Chandelier, Lispector's landmark second novel, is a disorienting and exhilarating portrait of one woman's inner life. The Message of the Birds

The First Ten Years: The Definitive Story Behind the Blockbuster Studio

Fake news in Weimar Berlin: a blistering classic satire of journalism, lies and celebrity, in English for the first time In Berlin, 1930, the name Käsebier is on everyone's lips. A literal combination of the German words for "cheese" and "beer," it's an unglamorous name for an unglamorous man – a small-time crooner who performs nightly on a shabby stage for labourers, secretaries, and shopkeepers. Until the press shows up. In the blink of an eye, this everyman is made a star: one who can sing songs for a troubled time. All the while, the journalists who catapulted Käsebier to fame watch the monstrous media machine churn in amazement – and are aghest at the demons they have unleashed.

Here, collected in book form for the first time, are the letters written by Mark Twain on the famous Holy Land Excursion of 1867—letters that Twain once said would ruin him if published. Twain, a brash young journalist with one book under his belt, was one of seventy-seven passengers on the steamship Quaker City when it left New York in June 1867, to begin "The Grand Holy Land Pleasure Excursion." As special correspondent for the Daily Alta California, Twain wrote fifty letters during the next six months, describing in detail the places visited and the sights seen as the pilgrims journeyed from Tangier to Paris, then to Venice, Constantinople, and Bethlehem—with many stops in between. Full of sprightly humor and savage satire, these letters also contain some of the most elegant vituperation ever to appear in an American newspaper. Twain later incorporated parts of the letters into The Innocents Abroad, probably the most famous travel book ever written by an American, but every letter was drastically revised to appeal to the more refined taste of eastern readers. Daniel Morley McKeithan's discussion of the alterations and deletions made in each letter throws light on Twain's methods of composition and revision. Those who have read The Innocents Abroad and those who have not will find equal delight in this volume.

From bestselling YA rom-com queen Becky Albertalli (author of *Love, Simon*) comes a new novel about daring to step out of the shadows and into the spotlight in love, life and theatre. [PRINCIPAL CAST LIST] Kate Garfield Anderson Walker Best friends, and contrary to popular belief, not co-dependent. Examples: Carpooling to and from theatre rehearsals? Environmentally sound and efficient. Consulting each other on every single life decision? Basic good judgment. Pining for the same guys from afar? Shared crushes are more fun anyway. But when Kate and Andy's latest long-distance crush shows up at their school, everything goes off-script. Enter Stage Left: Matt Olsson He is talented and sweet, and Kate likes him. She really likes him. The only problem? So does Anderson. Turns out, communal crushes aren't so fun when real feelings are involved. This one might even bring the curtains down on Kate and Anderson's friendship... Praise for Becky Albertalli: 'Heart-fluttering, honest and hilarious' - Stephanie Perkins, author of *Anna and the French Kiss* 'Touching and passionate... completely lovable with bags of empathy' - The Observer 'Stunningly three-dimensional' - Bookseller 'Stunningly three-dimensional' - Entertainment Weekly 'Sharp and funny' - Publishers Weekly 'Funny, moving and emotionally wise' - Kirkus Reviews 'Timeless' - Teen Vogue "Romantik. Journal for the Study of Romanticisms" is a multidisciplinary journal dedicated to the study of romantic-era cultural productions and concepts. The journal promotes innovative research across disciplinary borders. It aims to advance new historical discoveries, forward-looking theoretical insights and cutting-edge methodological approaches. The articles range over the full variety of cultural practices, including the written word, visual arts, history, philosophy, religion, and theatre during the romantic period (c. 1780-1840). But contributions to the discussion of pre- or post-romantic representations are also welcome. Since the romantic era was characterized by an emphasis on the vernacular, the title of journal has been chosen to reflect the Germanic root of the word. But the journal is interested in all European romanticisms - and not least the connections and disconnections between them - hence, the use of the plural in the subtitle. Romantik is a peer-reviewed journal supported by the Nordic Board for Periodicals in the Humanities and Social Sciences (NBP-HS).

A both sacred and a wonderful, welcoming place of both commerce and curiosity. That's the goal for Woody, an American recently transferred to England to run a branch of Texts. He wants a clean, orderly store and lots of orders to show his bosses when they arrive from the States for a pre-Christmas inspection. Not easy given the shop's location in a foggy strip mall. And things keep going wrong. No matter how often the shelves are put in order before the doors are locked at night, when the staff returns in the morning, books are lying all over the floor, many damp and damaged beyond repair. The store's computers keep acting up-errors appear in brochures and ads and orders disappear completely. And even when the machines are turned off, they seem to glow with a spectral gray light. The hit-and-run death of an employee in the store's parking lot marks a turning point. One employee accuses another of making sexual advances and they come to blows. Between one sentence and the next, one loses his ability to read. The security monitors display half-seen things crawling behind the stacks that vanish before anyone can find them. Desperate, Woody musters his staff for an overnight inventory. When the last customers reluctantly depart, leaving all visible trails of slime shining behind them, the doors are locked, sealing Woody and the others inside for a final orgy of shelving. The damp, grey, silent things that have been lurking in the basement and hiding in the fog may move slowly, but they are inexorable. This bookstore is no haven. It is the doorway to a hell unlike any other. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Unbuilt tells the stories of the plans, drawings and proposals that emerged during the 20th century in an unparalleled era of optimism in architecture. Many of these grand projects stayed on the drawing board, some were flights of fancy that couldn't be built, and in other cases test structures or parts of buildings did emerge in the real world. The book features the work of Buckminster Fuller, Geoffrey Bawa, Le Corbusier, Frank Lloyd Wright, and Aalto, as well as contemporary architects such as Norman Foster, Zahra Hadid, Will Alsop and Rem Koolhaas. Richly illustrated with photographs, drawings, maps, collages and models from all over the world, it covers everything from Buckminster Fuller's plan for a 'Domed city' in Manhattan to Le Corbusier's utopian dream of skyscraper living in central Paris, from a proposed network of motorways ploughing through central London to a crazy-looking scheme for 'rolling pavements' in post-war Berlin. This is an important book, not just for the rich stories of what might have been in our built world, but also to give understanding to the motivations and dreams of architects, sometimes to build a better world, but sometimes to pander to egos. It includes plans that pushed the boundaries – from plug-in cities, moving cities, space cities, domes and floating cities to Maglev, teleportation and rockets. Many ideas were just ahead of their time, and some, thankfully, were always better without.

The greatest wisdom comes from the smallest creatures There is so much we can learn from birds. Through twenty-two little lessons of wisdom inspired by how birds live, this charming french book will help you spread your wings and soar. We often need the help from those smaller than us. Having spent a lifetime watching birds, Philippe and Élise – a French ornithologist and a philosopher – draw out the secret lessons that birds can teach us about how to live, and the wisdom of the natural world. Along the way you'll discover why the robin is braver than the eagle, what the arctic tern can teach us about the joy of travel, and whether the head or the heart is the best route to love (as shown by the mallard and the penguin). By the end you will feel more in touch with the rhythms of nature and have a fresh perspective on how to live the fullest life you can.

Have you ever imagined the destruction of the Library of Alexandria and the innumerable manuscripts that perished when it burned? Do you dream of owning a first edition of The Great Gatsby, The Adventures of Tom Sawyer, or The Sun Also Rises to cradle in your arms and admire on your shelf? Have you gleaned wisdom from an old copy of Fahrenheit 451 that you never returned to your high school library? Do you sometimes, just for a second, regret the introduction of the internet and e-mail? German author Burkhard Spinnen revisits these moments of bibliophilia mixed with anguish through a personal and historical journey of the books we encounter and the places we meet them. With anecdotes of serendipitously finding vintage copies of literary classics and bemoaning the loaned book you'll never get back, Spinnen reminds us that even if the eBook has made reading during a commute easier, it will never bring us as much pride as a well-stocked shelf. Or recover the smell of ink on paper, or the pleasure of good margins and letter-spaced capitals. For those wanting to keep their hard copies close and chat with friends about the way the books have brought into their lives, The Book offers up a kindred spirit. There's a hole in the heart of humanity that only books like The Book can fill. This condensed history of the printed word along with the dashing and mildly provocative line-cut illustrations of Line Haven will embolden you to speak out and insure its future.

For marine, boating, and climbing amateurs and professionals at all levels, splices-the strongest way of attaching or joining the end of a rope—are essential. Why? Because a splice gives the strongest way of attaching or joining the end of a rope to any object or to another rope. (Every knot, on the other hand, weakens a rope.) In this much-anticipated handbook, world-renowned expert Fried guides you through modern splicing techniques with his clear directions, one-of-a-kind color diagrams, and 200+ color photos. The book is supplemented by four-plus hours of excellent video instruction. Throughout, every type of splice is shown by an expert climber and shipbuilder. Learn what to know before starting to splice, then build a solid understanding and competence of modern cordage, its construction, and its fiber materials. Fried has over 35 years of sailing experience, including several Atlantic crossings, and is also a professional climber. He teaches seminars and workshops on modern splicing worldwide, and in 2006, Fried made the modern soft shackle internationally known. Now, his much-anticipated book allows you, whether you are a hobbyist or a professional, to leverage splicing skills to become more self-reliant while making your maritime or climbing pursuits safer.
