of societal problems are specially developed in Chapters 10 and 11. Psychology is going through changes and is in danger of losing the methodological sophistication that has propelled it to the forefront of social and biological sciences. Psychologists are leaders in business, industry, government, politics, and academia, and their research findings on topics important for the public are cited daily in the media. However, that preeminence may erode as many psychologists neglect the study and use of sound research methodology. This book has always attempted to develop a broad perspective about where sound psychological research fits
