Hello, 911? I am the first person at this party. 'Samantha Irby is the king of sparkling misanthropy and tender, loving dread.' Jia Tolentino Staring down the barrel of her fortieth year, Samantha Irby is confronting the ways her life has changed since the days she could work a full 11 hour shift on 4 hours of sleep, change her shoes and put mascara on in the back of a moving cab and go from drinks to dinner to the club without a second thought. Recently, things are more 'Girls Gone Mild.' In Wow, No Thank You Irby discusses the actual nightmare of living in a rural idyll, weighs in on body negativity (loving yourself is a full-time job with shitty benefits) and poses the essential question: Sure sex is fun but have you ever googled a popular meme? 'A laugh. A fart. A snort. Or some combination thereof. Be prepared to totally lose control of the noises that come out of your body while reading the latest essay collection from humor writer Samantha Irby.' Bustle 'The only writer who can make me laugh with abandon in public... Her signature irreverence is intact, of course, but it can't mask the heart she leaves bleeding on the page.' Elle 'Samantha Irby is hilarious... Nothing is off limits and I love it.' Candice Carty-Williams

Non-fans regard Céline Dion as ersatz and plastic, yet to those who love her, no one could be more real, with her impoverished childhood, her (creepy) manager-husband's struggle with cancer, her knack for howling out raw emotion. There's nothing cool about Céline Dion, and nothing clever. That's part of her appeal as an object of love or hatred - with most critics and committed music fans taking pleasure (or at least geeky solace) in their lofty contempt. This book documents Carl Wilson's brave and unprecedented year-long quest to find his inner Céline Dion fan, and explores how we define ourselves in the light of what we call good and bad, what we love and what we hate.

The term "culture wars" refers to the political and sociological polarisation that has characterised American society the past several decades. This new edition provides an enlightening and comprehensive A-to-Z ready reference, now with supporting primary documents, on major topics of contemporary importance for students, teachers, and the general reader. It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context. With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues, this is a unique and defining work, indispensable to informed discussions of the most timely and critical issues facing America today.

Bhavan's Journal

A detailed study of sports' arrival, spread and advance in colonial and post-colonial South Asia. A selection of articles addresses critical issues of nationalism, communalism, commercialism and gender through the lens of sport. This book makes the point that the social histories of South Asian sport cannot be understood by simply looking at the history of the game in one province or region. Furthermore, it demonstrates that it would be wrong to understand sport in terms of the exigencies of the colonial state. Drawing inspiration from C.L.R. James' well-known epigram, 'What do they know of cricket who only cricket know?' the findings suggest that South Asian sport makes sense only when it is placed within the broader colonial and post-colonial context. The book demonstrates that sport not only influences politics and vice versa, but that the two are inseparable. Sport is not only political, it is politics, intrigue, culture and art. To deny this is to denigrate the position of sport in modern South Asian society. This volume was previously published as a special issue of The International Journal of the History of Sport.

Social Evolution, Economic Development and Culture brings together Ronald Dore's key writings for the first time, making his work accessible across a wide range of social science disciplines. It produces a distinctive perspective with four interlinking themes - technology-driven social evolution, late development, culture and polemics. These are highly topical in the current context of rapid technological innovation and socio-economic change, globalization and accompanying policy choices.
