The term "Color and Weave Effects" refers to a careful arrangement of light and dark colored threads in the warp and weft that weave into beautiful patterns. Log Cabin is probably the best known color and weave pattern. Combining Huck with Color and Weave orders opened the door to astonishing pattern possibilities. He then came up with four color arrangements: Light and Complementary Colors, Monochromatic, and Triadic colors. With 144 patterns and four color themes for each pattern, that's 576 patterns. Each pattern includes the full draft and a woven sample for reference. Tom also includes full details for five projects that are perfect for weaving Huck dish towels, mug rugs, baby blanket, and two scarves.
