"Cover Down Yuh Bucket is a credit to the persistence of those who have sought to recuperate aspects of the lost cultural heritage of a people.... The size of this volume and the wide sweep of its comparative data speak to the enthusiasm which Mottley and his co-writers have brought to this enterprise." [Prof. Maureen Warner-Lewis] " What is special about us is our people and their achievements. Sticklicking is one of these achievements, and should have a prominent place in our consciousness. " [Elombe] **FAULTLINE 49** is the harrowing account of American reporter David Danson's Gonzo-style trip through US-occupied Canada in search of the principal provocateur in the Canadian-American War: terrorist mastermind Bruce Kalnychuk. As Danson draws closer to the truth about the 2001 World Trade Center Bombing in Edmonton, Alberta, and the criminal war it propagated, his journalistic distance to the story collapses, rendering him not only a brutalized participant, but an enemy of the state. David's findings are as daunting as the personal price he's paid to make them available to the North American public.

Shard is a gryfon in exile from the pride of the Silver Isles. After learning of the injustices wrought by the Red King he once served loyally, Shard now seeks to fulfill the promise of the legendary Summer King, who is destined to bring peace and balance when he appears. There he will learn of the fierce enmity that drove the Red King and his pride from their homeland, and the deadly grudge stretching back two generations that, if left unfinished, could destroy them all.

A Decade of Negative Thinking brings together writings on contemporary art and culture by the painter and feminist art theorist Mira Schor. Mixing theory and practice, the personal and the political, she tackles questions about the place of feminism in art and political discourse, the aesthetics and values of contemporary painting, and the influence of the market on the creation of art. Schor writes across disciplines and is committed to the fluid interrelationship between a formalist aesthetic, a literary sensibility, and a strongly political viewpoint. Her critical views are expressed with poetry and humor in the accessible language that has been her hallmark, and her perspective is informed by her dual practice as a painter and writer and by her experience as a teacher of art. In essays such as " The Ism that dare not speak its name, " " Generation 2.5, " " Like a Veneer, " " Modest Painting, " " Blurring Richter, " and " Trite Tropes, Clich é s, or the Persistence of Styles, " Schor considers how artists relate to and represent the past and how the art market influences their choices: whether or not to disavow a social movement, to explicitly compare their work to that of a canonical artist, or to take up an exhausted style. She places her writings in the rich transitory space between the near past and the " nextmodern. " Witty, brave, rigorous, and heartfelt, Schor ' s essays are impassioned reflections on art, politics, and criticism.

AN INSTANT NEW YORK TIMES BESTSELLER! The definitive biography of Nancy Pelosi, the most powerful woman in American political history, written by New York Times bestselling author and USA Today Washington bureau chief Susan Page. From exclusive interviews with those who know her best—and a series of in-depth, news-making interviews with Pelosi herself—MADAM SPEAKER is unprecedented in the scope of its exploration of Nancy Pelosi's remarkable life and of her incredible political career. She was Nancy Pelosi, she was Nancy D'Alesandro. Her father was a big-city mayor and her mother his political organizer; when she encouraged her young daughter to become a nun, Nancy told her mother that being a priest sounded more appealing than an office until she was forty-six years old, her five children mostly out of the nest. With that, she found her calling. Nancy Pelosi has lived on the cutting edge of the revolution in both women's roles and in the nation's movement to a fiercer and more established herself as a crucial friend or formidable foe to U.S. presidents, a master legislator, and an indefatigable political warrior. She took on the Democratic establishment to become the first female Speaker of the House, then battled the Republicans for power. She has soared in the sharp-edged inside game of politics, though she has struggled in the outside game—demonized by conservatives, second-guessed by progressives, and routinely underestimated by nearly everyone. All of this was done while she would ever face, at a time she had been privately planning her retirement. When Donald Trump was elected to the White House, Nancy Pelosi became the Democratic counterpart best able to stand up to the disruptive president and to the Republican Party and Pelosi, chronicled in this book with behind-the-scenes details and revelations, stands to be the titanic political struggle of our time.

In the hands of such writers as Rebecca Solnit, Claudia Rankine, David Shields, Zadie Smith and many others, the essay has re-emerged as a powerful literary form for tackling a fractious 21st-century culture. The Essay at the Limits brings together leading scholars to explore the theory, the poetics and the future of the form. The book links the formal innovations and new voices that have emerged in the 21st-century essay to the history and theory of the essay. In so doing, it surveys the essay from its origins to its relation to contemporary cultural forms, from the novel to poetry, film to music, and from political articles to intimate lyrical expressions. The book examines work by writers such as: Theodor W. Adorno, Kwame Anthony Appiah, Francis Bacon, James Baldwin, Roland Barthes, Maurice Blanchot, Ta-Nehisi Coates, Annie Dillard, Brian Dillon, Jean Genet, William Hazlitt, Samuel Johnson, Karl Ove Knaussgaard, Ben Lerner, Audre Lorde, Oscar Wilde, Michel de Montaigne, Zadie Smith, Rebecca Solnit, Wallace Stevens, Eliot Weinberger and Virginia Woolf.

Assesses the range and magnitude of Robert Gardner's achievements as a filmmaker, photographer, writer, educator, and champion of independent cinema. During his lifetime, Robert Gardner (1925–2014) was often pigeonholed as an ethnographic filmmaker, then criticized for failing to conform to the genre's conventions—conventions he radically challenged. With the release of his groundbreaking film *Dead Birds* in 1963, Gardner established himself as one of the world's most extraordinary independent filmmakers, working in a unique border area between ethnography, the essay film, and poetic/experimental cinema. Richly illustrated, *Looking with Robert Gardner* assesses the range and magnitude of Gardner's achievements not only as a filmmaker but also as a still photographer, writer, educator, and champion of independent cinema. The contributors give critical attention to Gardner's most ambitious films, such as *Dead Birds* (1963, New Guinea), *Rivers of Sand* (1975, Ethiopia), and *Forest of Bliss* (1986, India), as well as lesser-known films that equally exemplify his mode of seeking anthropological understanding through artistic means. They also attend to his films about artists, including his self-depiction in *Still Journey On* (2011); to his roots in experimental film and his employment of experimental procedures; and to his support of independent filmmakers through the Harvard Film Study Center and the television series *Screening Room*, which provided an opportunity for numerous important film and video artists to present and discuss their work. "This book is a monumental, fearless, and insightful contribution of critique that looks both with and at Gardner's works as a whole." — Catherine Summerhayes, author of *Google Earth: Outreach and Activism* "Looking with Robert Gardner introduces new and exciting voices into the dialogue about the renowned ethnographic and documentary filmmaker. The book contains very close readings of many of his films and suggests fresh approaches for analyzing those as well as ethnographic films in general." — Ilisa Barbash, coeditor of *The Cinema of Robert Gardner*

A new expanded edition of the classic study of translation, finally back in print The difficulty (and necessity) of translation is concisely described in *Nineteen Ways of Looking at Wang Wei*, a close reading of different translations of a single poem from the Tang Dynasty—from a transliteration to Kenneth Rexroth's loose interpretation. As Octavio Paz writes in the afterword, "Eliot Weinberger's commentary on the successive translations of Wang Wei's little poem illustrates, with succinct clarity, not only the evolution of the art of translation in the modern period but at the same time the changes in poetic sensibility."

The Argead Dominion is the last holdout against the Imperial Padishah's brutal westward expansion. An aging arsenal of decaying tanks and antique rifles lets Argead forces scrape by, but true victories are won by the Polaris: elite battle-mages enslaved for the world-ending sins of their ancestors. Taki is an ambitious Polaris stuck with the dregs of his kind in a squad named Tirefire the Lesser. Though career suicide might be bearable in the right company, his new companions are anything but. The sniper despises him, the man-at-arms is profoundly depressed, and his beautiful captain has a penchant for beating her underlings. As the invading horde draws closer, this squad of defectives must band together despite the long odds against them. But with Imperial assassins out for their blood and treachery from within their own ranks, survival will come with a high price.

Presented at the PEN World Voices Festival as a "post-national" writer, Eliot Weinberger is "a sparkling essayist" (Confrontation), and his writings "a boundary-crossing, shape-shifting cabinet of curiosities" (The Bloomsbury Review). Many of the twenty-eight essays in *Oranges & Peanuts for Sale* have appeared in translation in seventeen countries; some have never been published in English before. They include introductions for books of avant-garde poets; collaborations with visual artists, and articles for publications such as *The New York Review of Books*, *The London Review of Books*, and *October*. One section focuses on writers and literary works: strange tales from classical and modern China; the Psalms in translation: a skeptical look at E. B. White's *New York*. Another section is a continuation of Weinberger's celebrated political articles collected in *What Happened Here: Bush Chronicles* (a finalist for the National Books Critics Circle Award), including a sequel to "What I Heard About Iraq," which the *Guardian* called the only antiwar "classic" of the Iraq War. A new installment of his magnificent linked "serial essay," *An Elemental Thing*, takes us on a journey down the Yangtze River during the Sung Dynasty. The reader will also find the unlikely convergences between Samuel Beckett and Octavio Paz, photography and anthropology, and, of course, oranges and peanuts, as well as an encomium for Obama, a manifesto on translation, a brief appearance by Shiva, and reflections on the color blue, death, exoticism, Susan Sontag, and the arts and war.

I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippine Islands. I was shocked to discover that I was of mixed racial birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial, religious and cultural differences gave the book a more defined nature, one of which I was proud. I had given up on the idea of a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their own heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race that will enslave the population and to strip the earth of all its resources to maintain and expand their vast empire. However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa Empire. The Paladin merges with a human named Caleb Oocda as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then man's his ship with the best the earth has to offer as they go out and defend the earth from the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named Paladin, the only defense of earth. After searching all possible answers to save himself and his ship, Caleb finds a way to find the X'ena to see if they can cure him before his death, but time is short and the single ship must travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?

With his unmatched investigative skill, Bob Woodward tells the behind-the-scenes story of how President George W. Bush and his top national security advisers led the nation to war.

Extensive quotations from the secret deliberations of the National Security Council and firsthand revelations of the private thoughts, concerns and fears of the president and his war cabinet, make **BUSH AT WAR** an unprecedented chronicle of a modern presidency in a time of grave crisis. Based on interviews with more than a hundred sources and four hours of exclusive interviews with the president, **BUSH AT WAR** reveals Bush's sweeping, almost grandiose vision for remaking the world. Woodward's virtual wiretap into the White House Situation Room reveals a stunning group portrait of an untested president and his advisers, three of whom might themselves have made it to the presidency. In **BUSH AT WAR**, Bob Woodward once again delivers a reporting tour de force.

What is real? What can we know? How might we act? This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times. Arguing that the concept of security in world politics has long been imprisoned by conservative thinking, Ken Booth explores security as a precious instrumental value which gives individuals and

groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives. Booth suggests that human society globally is facing a set of converging historical crises. He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business-as-usual and for planning to reconstruct a more cosmopolitan future. Theory of World Security is a challenge both to well-established ways of thinking about security and alternative approaches within critical security studies.

With wit and anger, What Happened Here takes us through the administration of the Bush junta: the inauguration of George Dubya, September 11, the invention of the War on Terror, the real wars in Afghanistan and Iraq, and the often bizarre behaviour of the Republican party. Ranging from first-person journalism to political analysis to a kind of documentary prose poetry, Eliot Weinberger teases out the nightmarish absurdities of the Bush administration with incisive, ferocious elegance.

Lorine Niedecker and the Poetics of Place

A Decade of Negative Thinking

When Lorine Niedecker died in 1970, the British poet and critic Basil Bunting eulogized her warmly. "In England," he wrote, "she was, in the estimation of many, the most interesting woman poet America has yet produced." Aesthetically linked with the New York Objectivist poets, Niedecker remained committed to her community in rural Wisconsin despite the grinding poverty that dogged her throughout her life. Largely self-taught, Niedecker formed attachments through her voracious reading and correspondence, but she also delighted in the disruptive richness of vernacular usage and in the homegrown, improvisational aesthetics that thrived within her immediate world. Niedecker wrote from a highly attenuated concern with biological, cultural, and political sustainability and, in her stridently modernist poems, anticipated many of the most urgent concerns in twenty-first-century poetics. In *Radical Vernacular*, Elizabeth Willis collects essays by leading poets and scholars that make a major contribution to the study of an important but long overlooked American poet. This pathbreaking volume contains essays by seventeen leading scholars: Rae Armantrout, Glenna Breslin, Michael Davidson, Rachel Blau DuPlessis, Ruth Jennison, Peter Middleton, Jenny Penberthy, Mary Pinard, Patrick Pritchett, Peter Quartermain, Lisa Robertson, Elizabeth Robinson, Eleni Sikelianos, Jonathan Skinner, Anne Waldman, Eliot Weinberger, and Elizabeth Willis.

In an extraordinary montage of facts, sound-bites and testimonies, Weinberger assembles an uncompromising and blackly comic narrative which permits the voices of war to speak for themselves, and allows the protagonists and the apologists to damn themselves in their own words.

Celebrated practitioners speak on the creative, critical, political, and historical aspects of their work.

"Daddy, what is a white lie?" My father put down his spoon and looked at me thoughtfully. "Why'd you ask, Princess?" "I heard you talking yesterday and you said 'one more white lie isn't going to make a difference.' I just want to know what you meant." "You heard that, huh?" My father tilted his head to study me. "It's just a small lie you tell when you don't want to hurt someone's feelings. It's nothing for you to worry about." My eyes grew wide. "Like when you told Aunt Rena that her pie was good even though it tasted icky?" "Exactly." He smiled. "Or when you told the man last week that you hadn't seen Uncle Bruno and you had?" The smile fell from his face and he straightened in his chair. "No, Princess, that was a different kind of lie." Scrunching up my nose, I asked, "What kind of lie was that?" My father swallowed hard before replying. "That's the kind of lie where you have to have a real good memory." As an inquisitive child, the woman known as Clarissa Solano, could never have imagined how significant those words would become. That she would spend years twisting the truth: hoping and praying that she would not contradict herself and expose the secrets she keeps locked inside. Most of the people in her life don't really know her at all. She forces them to swallow her lies, but she is the one who feels the bitter aftertaste of deception. When Lane Hunter sweeps into her life, she finds herself opening up in ways she never thought possible. He sees beyond the facade to the woman beneath and knows instantly that he wants her. However, all is not as it seems and when secrets and lies are exposed, it threatens to destroy them all. This is the first book in a series of standalone HEAs"

The Impact of 9-11 on Religion and Philosophy is the sixth volume of the six-volume series *The Day that Changed Everything?* edited by Matthew J. Morgan. This volume features a foreword by John Esposito and contributors include Jean Bethke Elshtain, Philip Yancey, John Milbank, Ada Maria Isasi-Diaz, John Cobb and Martin Cook.

A man patiently watches a group of young girls walk home from school, waiting for the perfect moment to take the one child he has designated as his next victim. However, what this predator does not know is that he, too, is being stalked. There is someone in the shadows—a trained Citizen—who is ready to make sure that the child under his assigned protection is never harmed. One pedophile, one abuser, one killer at a time; this Citizen and others like him will take a stand against those who prey on the weak and the innocent.

For those who could read between the lines, the censored news out of China was terrifying. But the president insisted there was nothing to worry about. Fortunately, we are still a nation of skeptics. Fortunately, there are those among us who study pandemics and are willing to look unflinchingly at worst-case scenarios. Michael Lewis' s taut and brilliant nonfiction thriller pits a band of medical visionaries against the wall of ignorance that was the official response of the Trump administration to the outbreak of COVID-19. The characters you will meet in these pages are as fascinating as they are unexpected. A thirteen-year-old girl' s science project on transmission of an airborne pathogen develops into a very grown-up model of disease control. A local public-health officer uses her worm' s-eye view to see what the CDC misses, and reveals great truths about American society. A secret team of dissenting doctors, nicknamed the Wolverines, has everything necessary to fight the pandemic: brilliant backgrounds, world-class labs, prior experience with the pandemic scares of bird flu and swine flu...everything, that is, except official permission to implement their work. Michael Lewis is not shy about calling these people heroes for their refusal to follow directives that they know to be based on misinformation and bad science. Even the internet, as crucial as it is to their exchange of ideas, poses a risk to them. They never know for sure who else might be listening in.

Nineteen Ways of Looking at Wang Wei (with More Ways)

Reflections on Leo Tolstoy's "War and Peace," these original essays examine various facets of violence and human efforts to create peace. Religion is deeply involved in both processes: ones that produce violence and ones that seek to create harmony. In the war on terror, radical religion is often seen to be a major cause of inter-group violence. However, these essays show a much more complex picture in which religion is often on the receiving end of conflict that has its origin in the actions of the state in response to tensions between majorities and minorities. As this volume demonstrates, the more public religion becomes, the more likely it is to be imbricated in communal strife.

A gorgeously illustrated co-publication with Christine Burgin by "one of the world's great essayists" (The New York Times). With a guide to the illustrations by Mary Wellesley. Angels have soared through Western culture and consciousness from Biblical to contemporary times. But what do we really know about these celestial beings? Where do they come from, what are they made of, how do they communicate and perceive? The celebrated essayist Eliot Weinberger has mined and deconstructed, resurrected and distilled centuries of theology into an awe-inspiring exploration of the heavenly host. From a litany of angelic voices, Weinberger's lyrical meditation then turns to the earthly counterparts, the saints, their lives retold in a series of vibrant and playful capsule biographies, followed by a glimpse of the afterlife. Threaded throughout Angels & Saints are the glorious illuminated grid poems by the eighteenth-century Benedictine monk Hrabanus Maurus. These astonishingly complex, proto-"concrete" poems are untangled in a lucid afterword by the medieval scholar and historian Mary Wellesley.
