

What Heaven Looks Like Comments On A Strange Word

Popular culture continues to search the depths of the poetic imagination concerning heaven. It seems to be a constant theme in literature, film, and music, spanning genres throughout the Western world. Yet, some contemporary scholars suggest that all of these narratives are somewhat misguided and remain, at best, only partial constructions of a proper eschatology. The creative imagination in popular culture, especially in relation to the arts has often carried a less-than-trustworthy role in theology and philosophy. Heaven and the Popular Imagination analyzes a number of approaches within the theology of culture conversation to suggest that a hermeneutic of popular imagery can open up new horizons for understanding and challenging the role heaven plays in Christian theology. From ancient literature to popular music and films, heaven is part of the framework of our ecumenical imagining about beginnings and endings. Such a hermeneutic must encompass an interdisciplinary approach to theology.

If any of us learned we were going to move to a foreign country, we'd do everything we could to learn about that place so that we'd be prepared when moving day arrived. As Christians, we know some day we will leave our familiar country and be united with God in heaven. And yet many of us know very little about this place called heaven. In this enlightening book, bestselling author Dr. Robert Jeffress opens the Scriptures to unpack ten surprising truths about heaven and explain who we will see there and how we can prepare to go there someday. Perfect for believers or skeptics who are curious about heaven.

Asleep in Heaven's Nursery

Delivered is a story about a woman, named Heaven who lived a double life. Heaven, known for her beauty, defined herself as man's best friend as she secretly gave them their hearts desires. But there was more to Heaven than she knew. Not knowing her identity, she hid herself in her fleshly abilities but later found that her identity was already defined, she just had to see it.

It's obvious from the bookshelves and the big screen that heaven is on everyone's mind. All of us long to know what life after death will be like. Bestselling author John Burke is no exception. For decades, he has been studying accounts of people who have had near-death experiences (NDEs). While not every detail of individual NDEs correlate with Scripture, Burke shows how the common experiences shared by thousands of survivors clearly point to the God of the Bible and the exhilarating picture of heaven he promises. Imagine Heaven is an inspirational journey through the Bible's picture of heaven, colored in with the real-life stories of heaven's wonders. Burke compares gripping stories of NDEs to what Scripture says about our biggest questions of heaven: Will I be myself? Will I see friends and loved ones? What will it look like? What is God like? What will we do forever? What about children and pets? This book will propel readers into an experience that will forever change their view of the life to come and the way they live life today. It also tackles the tough questions of heavenly reward and hellish NDEs. Anyone interested in NDEs or longing to imagine heaven more clearly will enjoy this fascinating and hope-filled book.

Living system ministry is an approach to Christian ministry in the Western world that recognizes the differences between cats, the world God created, and toasters, the world we create using our technology and our capacities, limited as they are. The church is the Body of Christ, a living system. Neighborhoods, cities, and cultures, too, are complex and interrelated living social systems. Why, then, would we try to do God's work in a church or social system using tools and methods designed for non-living systems? We do it because our culture is very organizationally - and technologically - centered. We have grown accustomed to thinking of our social contexts not as living systems, but as things we can easily measure and control. Embracing both perspective and procedure, Living System Ministry is about doing better ministry by seeing a better picture of what exists in the total system. Like farmers, rather than technicians, we learn to be involved in and to be "in tune with" what causes fruitfulness. We never cause fruit to happen. God does! But as our work becomes better aligned with what God is already doing in his complex, living-system environment, there is an explosion of life. We discover the fruit that remains. Writing from his forty-five years of experience as an urban ministry practitioner in Boston, Dr. Doug Hall introduces us to an approach to missions that recognizes the lead role of God's larger, living social systems as powerful engines for doing far more in our world than we can even begin to imagine.

From the acclaimed author of The Last Year of the War comes a novel set during the Spanish flu pandemic of 1918, telling the story of a family reborn through loss and love. In 1918, Philadelphia was a city teeming with promise. Even as its young men went off to fight in the Great War, there were opportunities for a fresh start on its cobblestone streets. Into this bustling town, came Pauline Bright and her husband, filled with hope that they could now give their three daughters—Evelyn, Maggie, and Willa—a chance at a better life. But just months after they arrive, the Spanish Flu reaches the shores of America. As the pandemic claims more than twelve thousand victims in their adopted city, they find their lives left with a world that looks nothing like the one they knew. But even as they lose loved ones, they take in a baby orphaned by the disease who becomes their single source of hope. Amidst the tragedy and challenges, they learn what they cannot live without—and what they are willing to do about it. As Bright as Heaven is the compelling story of a mother and her daughters who find themselves in a harsh world not of their making, which will either crush their resolve to survive or purify it.

10 Surprising Truths about Your Eternal Home

The sixth-century bishop Gregory of Tours described how mixing water with dust from the tomb St. Martin would create a potion that would act as a "celestial purgative." Indeed, Gregory could observe Christians being purged of sickness and sin all around him. By contrast, God's willingness to purge Christians of their sin after death was a more complicated proposition. As a process hidden from view, it raised questions: What was purgatory like? Who would experience it? Did purgatory purify souls, punish them, or both? And how painful would it be? This book explores purgatory's earliest history from the first century to the eighth. This was an era in which the idea that sinful Christians might improve their lot after death was often contentious, even heretical. In this, the first study focused on purgatory's history in late antiquity, Moreira explores a wide variety of interests and influences at play in purgatory's early formation. Some of the influences discussed are ideas about punishment and correction in the Roman world, slavery, the value of medical purges at the shrines of saints, and the authority of visions of the afterlife for informing Christians on the hereafter. Finally, this study challenges the deeply ingrained supposition that purgatory was a symptom of barbarized Christianity. It assesses the extent to which Irish and Germanic views of society, and the sources associated with them - penitentials and legal tariffs - played a role in purgatory's formation. Highlighting the importance of the Anglo-Saxon contribution to purgatory, special attention is given to the writings of the last patristic author of antiquity, the Northumbrian monk, Bede.

The coherence and beauty of these notions make heaven one of the most impressive medieval ‘cathedrals of the mind’. With contributions from experts such as A.C. Spearing, Peter Meredith, Peter Dronke and Robin Kirkpatrick, this collection is essential reading for all those interested in medieval religion and culture.
