Chinese "Southern Dynasties." It shows how, although one of the medieval world's largest empires, Jiankang has been rendered politically invisible by the standard narrative of Chinese nationalist history, and proposes a new framework and terminology for writing about medieval East Asia. The book pays particular attention to the problem of ethnic identification, rejecting the idea of "ethnic Chinese," and delineating several other, more useful ethnographic categories, using case studies in agriculture/foodways and vernacular languages. The most important, the Wuren of the lower Yangzi region, were believed to be inherently different from the peoples of the Central Plains, and the rest of the book addresses the extent of their

ethnogenesis in the medieval era. It assesses the political culture of the Jiankang Empire, emphasizing military strategy, institutional cultures, and political economy, showing how it differed from Central Plains-based empires, while having significant similarities to Southeast Asian regimes. It then explores how the Jiankang monarchs deployed three distinct repertoires of political legitimation (vernacular, Sinitic universalist, and Buddhist), arguing that the Sinitic repertoire was largely eclipsed in the sixth century, rendering the regime yet more similar to neighboring South Seas states. The conclusion points out how the research re-orientes our understanding of acculturation and ethnic identification in medieval East

of the most enduring forms of political organization and power. We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods, such as the relatively short age of European colonialism. The history of empire, as these volumes amply demonstrate, needs to be drawn on the much broader canvas of global history. Volume I: The Imperial Experience is dedicated to synthesis and comparison. Following a comprehensive theoretical survey and bold world history synthesis, fifteen chapters analyze and explore the multifaceted experience of empire across cultures and through the ages. The broad range of perspectives includes: scale, world systems and geopolitics, military

organization, political economy and elite formation, monumental display, law, mapping and registering, religion, literature, the politics of difference, resistance, energy transfers, ecology, memories, and the decline of empires. This broad set of topics is united by the central theme of power, examined under four headings: systems of power, cultures of power, disparities of power, and memory and decline. Taken together, these chapters offer a comprehensive and unique view of the imperial experience in world history.
