A Novel

*When the beavers bring Yakari a battered old canoe, the young Sioux and his friends repair it and go for a little trip—and find more adventure than they bargained for, in the person of a father coyote. Fortunately, their new friend is up to his reputation for cunning: When Buffalo Seed is cornered by an angry puma, it will take all of the coyote's tricks, combined with Yakari's bravery, to get the young hunter out of his predicament.*

*"A starkly beautiful, morally complicated and astonishingly accomplished debut set in 1920s rural Alabama following Roscoe T. Martin, a prideful electrician sent to prison after his illegal siphoning of electrical state power for his wife's family's farm leads to an innocent man's death"--*

*The Beavers are very worried: Linden Tree, Yakari's young and mischievous friend, has lost his appetite for... well, everything. And his people have no time to devote to him, as they must repair their precious dam, damaged by heavy rains. While the young Sioux attempts to dispel his friend's melancholy, Thousand-mouths suddenly realises he is several labourers short of a full work gang. Is something in the lake going after the hard-working beavers?*

*Inspired by the works of Dashiell Hammett, No Room at the Morgue is Jean-Patrick Manchette's unparalleled take on the private eye novel— fierce, politically inflected, and finely rendered by the haunting, pitch-black prose for which the author is famed. No Room at the Morgue came out after Jean-Patrick Manchette had transformed French crime fiction with such brilliantly plotted, politically charged, unrelentingly violent tales as Nada and The Mad and the Bad. Here, inspired by his love of Dashiell Hammett, Manchette introduces Eugene Tarpon, private eye, a sometime cop who has set up shop after being kicked off the force for accidentally killing a political demonstrator. Months have passed, and Tarpon desultorily tries to keep in shape while drinking all the time. No one has shown up at the door of his office in the midst of the market district of Les Halles. Then the bell rings and a beautiful woman bursts in, her hands dripping blood. It's Memphis Charles, her roommate's throat has been cut, and Memphis can't go to the police because they'll only suspect her. Can Tarpon help? Well, somehow he can't help trying. Soon bodies mount, and the craziness only grows.*

Young officer, Franz Bauer, is asked by the leaders of Xhystos to visit the mysterious city of Samaris and research the rumors that have been circulating. Several before him had left to explore the city and never returned. After a long journey by Altiplan and Aerophele, Franz reaches Samaris, only to find that the rumors he had heard in Xhystos don't compare to the real secrets held within the walls of this fantastic city. His sanity and the fate of the other explorers is at stake in this, the first installment of the now internationally acclaimed THE OBSCURE CITIES graphic novel series. This edition, marking the 30th anniversary of the original English language publication, features an expanded main story, an all-new creator-approved translation, and new coloring. The book also contains the never before published in-English THE MYSTERIES OF PAHRY, a THE OBSCURE CITIES story, originally published in four different parts, three in the French Comics magazine, A Suivre, from 1987 through 1989, and in the December 1994 issue of Macadam-plus.

Chess Explained books provide an understanding of an opening and the middlegames to which it leads, enabling you to find the right moves and plans in your own games. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what specific knowledge you need to have. The Nimzo-Indian is one of the most important of all chess openings, and popular at all levels of play. Together with the Queen's Indian (also covered in this series), the Nimzo has provided the backbone of the opening repertoire of a large portion of the world's top players over the last 80 years. It is considered a fully reliable defence, and provides winning chances for both sides as it leads to structures of great strategic variety and complexity. Key battlegrounds in the Nimzo include the blockade, IQP positions, the handling of unbalanced pawn-structures, and the struggle between bishop and knight. All these topics are covered in depth in this book, and an understanding of them will prove valuable in a much broader context than just the Nimzo-Indian.

After a hunt that brought the tribe much needed supplies, Yakari is visited in his dreams by the buffalo, killed the day of his birth, whose pelt still serves as his blanket. Intrigued, the young Sioux and Little Thunder go see the great herd. From encounter to encounter, and by helping a young mother and her newborn calf against a particularly nasty wolf, Yakari learns to know those majestic animals so important to his own people's survival.

From the opening pages, amidst the throes of Ramadan during the hottest and driest season in Mali, Dutch ethnographer Geert Mommersteeg welcomes readers into the religious culture of a historic city uniquely filled with Islamic scholars known as marabouts. This finely crafted English-language translation provides a remarkable contribution to the study of Islam practices and beliefs observed in local contexts in sub-Saharan Africa, with a focus on the interrelationship between public and secret knowledge of maraboutage in everyday reality. This inviting personal narrative of an anthropologist's long-term fieldwork in Djennor centuries a center of West African culture, scholarship, and architectureis full of valuable methodological insights. Mommersteeg, with unassuming honesty, becomes absorbed in the knowledge of the Holy Word and slowly enters the closed world of religious practice in which marabouts serve as intermediaries between God and their clients. While marabouts do not claim to be all-knowing, they do know how God can be addressed most effectively, which

amulets are the most powerful, and which alms are best for nudging the future in the right direction. After dismantling the conspiracy that nearly claimed his life, XIII returns to his quest of uncovering the past of Jason Fly, the man that he seems to be, by going to his home town of Green Falls.

Beloved of Clapton, Dylan and the Stones, Robert Johnson remains one of the most iconic and mythologised figures in popular music (and the first of many to die at the age of 27). Born in the in the South in Mississippi, Johnson made his way to the urban North as a travelling musician, but it was only when he returned to the South that he recorded the twenty-nine songs, in two sessions, which would create his legacy.
