**It's easy to identify rage in people who lose their temper at traffic jams, unruly children, unresponsive coworkers, and unrealistic bosses. But we may not recognize more subtle manifestations of anger, such as being uncomfortable with loose ends, acting impatiently, or being overly critical. That is anger, too. And, as is so often the case, angry folks don't seem to realize that the behavior causing them problems at home or at work actually stems from unrecognized and unresolved pain and emotional injuries from the past. You Are What You Read, DiYanni provides a practical guide that shows how we can increase the benefits and pleasures of reading literature by becoming more skillful and engaged readers. DiYanni suggests that we attend first to what authors say and the way in which they say it, rather than rushing to decide what they mean. He considers the various forms of literature, from the essay to the novel, the short story to the poem, demonstrating rewarding approaches to each in sample readings of classic works.

And how has architecture validated that idea? *Living on Campus* is the first architectural history of this critical building type. Grounded in extensive archival research, Carla Yanni's study highlights the opinions of architects, professors, deans, and also includes the voices of students.
