The Game Of Life And How To Play It, Your Word Is Your Wand, The Secret Door To Success - The Classic Florence Scovel Shinn Trilogy about Law of Attraction, The Power of the word and how to impress the Subconscious Mind in order to be happy, wealthy, healthy and successful - Most people consider life a battle, but it is not a battle, it is a game. It is a game, however, which cannot be played successfully without the knowledge of spiritual law.

return to him; what he gives, he will receive. Man receives only that which he gives. The Game of Life is a game of boomerangs. Man's thoughts, deeds and words, return to him sooner or later, with astounding accuracy. When man knows his own powers and the workings of his mind, his great desire is to find an easy and quick way to impress the subconscious with good, for simply an intellectual knowledge of the Truth will not bring results. There is nothing too great of accomplishment for the man who knows the power of his word, and who follows his intuitive leads. By the word he starts in action unseen forces and can rebuild his body or remold his affairs.

Can man decree a thing and have it come to pass? Most decidedly he can! Man has always decreed that which has appeared in his world and is today

decreeing that which is appearing in his world and shall continue to do so as long as man is conscious of being man. Not one thing has ever appeared in man's world but what man decreed that it should. This you may deny, but try as you will you cannot disprove it, for this decreeing is based upon a changeless principle.

**Florence Scovel Shinn was an American artist and book illustrator by trade but she is probably best remembered for her inspirational works of self-empowerment. Shinn's writings are classic examples of the New Thought movement, a philosophical movement which developed near the end of the 19th century which asserted that the power of God is in all things and that by correctly focusing one's mind one can both heal oneself and attract success. Shinn began self publishing her works in 1925 with the introduction of "The Game of Life and How**

Shinn's philosophy can be summed up by the following statement from that work: "The invisible forces are ever working for man who is always 'pulling the strings' himself, though he does not know it.
