ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks

VetSet2Go was a three-year project that ran from September

2015 through to August 2018. It aimed to explore what employability means in the veterinary context; develop an evidence-based, multi-stakeholder framework of the capabilities most important for employability and success in the veterinary profession; and create aligned assessment tools and resources to build these capabilities, in order to improve veterinary graduate employability, resilience in transition to practice, and professional satisfaction and success. Scoping reviews and research subprojects converged to inform a Delphi consensus process and an inaugural Veterinary Employability Forum held in February 2017. The project initiated a body of new research from multiple stakeholder perspectives, which was distilled to inform an evidence-based framework. The VetSet2Go framework consists of 18 capabilities within five

This promises to be the only book on sheep you will ever need! Packed full of detailed information, The Sheep Book for Smallholders covers every aspect of keeping sheep on a small scale. Beginning with a brief overview of the sheep industry, and the rise and fall of the artisan shepherd, the author has logically divided the book up into the shepherd's calendar, so that the sheep keeper knows what to expect with each season. All aspects of looking after the flock are covered, including selection, culling, nutrition, housing, lambing, grassland management, ailments and prevention. There are also sections

on home slaughter and butcher, and, uniquely, processing the byproducts, including the fleece and keeping sheep for dairying. Unusually, the book also has a section on training sheepdogs. Supported by stunning photography and clear illustrations, as well as huge and useful appendices. This is a welcome addition to the smallholder's bookshelf, and is going to be a reference classic in years to come.
