

Zimsec Geo Paper 2 Section

A union list of serials commencing publication after Dec. 31, 1949. As political, economic, and environmental issues increasingly spread across the globe, the science of geography is being rediscovered by scientists, policymakers, and educators alike. Geography has been made a core subject in U.S. schools, and scientists from a variety of disciplines are using analytical tools originally developed by geographers. Rediscovering Geography presents a broad overview of geography's renewed importance in a changing world. Through discussions and highlighted case studies, this book illustrates geography's impact on international trade, environmental change, population growth, information infrastructure, the condition of

Get Free Zimsec Geo Paper 2 Section

cities, the spread of AIDS, and much more. The committee examines some of the more significant tools for data collection, storage, analysis, and display, with examples of major contributions made by geographers. Rediscovering Geography provides a blueprint for the future of the discipline, recommending how to strengthen its intellectual and institutional foundation and meet the demand for geographic expertise among professionals and the public.

Exploring the dynamic growth, change, and complexity of qualitative research in human geography, The SAGE Handbook of Qualitative Geography brings together leading scholars in the field to examine its history, assess the current state of the art, and project future directions. "In its comprehensive coverage, accessible text, and range of illustrative studies, past and present, the Handbook has

Get Free Zimsec Geo Paper 2 Section

established an impressive new standard in presenting qualitative methods to geographers." - David Ley, University of British Columbia Moving beyond textbook rehearsals of standard issues, the Handbook shows how empirical details of qualitative research can be linked to the broader social, theoretical, political, and policy concerns of qualitative geographers and the communities within which they work. The book is organized into three sections: Part I: Openings engages the history of qualitative geography, and details the ways that research, and the researcher's place within it, are conceptualized within broader academic, political, and social currents. Part II: Encounters and Collaborations describes the different strategies of inquiry that qualitative geographers use, and the tools and techniques that address the challenges that arise in the research process. Part III: Making Sense explores the issues and

Get Free Zimsec Geo Paper 2 Section

processes of interpretation, and the ways researchers communicate their results. Retrospective as well as prospective in its approach, this is geography's first peer-to-peer engagement with qualitative research detailing how to conceive, carry out and communicate qualitative research in the twenty-first century. Suitable for postgraduate students, academics, and practitioners alike, this is the methods resource for researchers in human geography.

A key resource for the IGCSE Geography specification, written by leading and experienced Geography teachers and authors. This book has been carefully prepared to cover the full curriculum for the University of Cambridge International Examinations IGCSE course in Geography. It is accompanied by a CD-ROM offering invaluable study and revision support.

First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

This book takes a comprehensive look at several cases of climate change adaptation responses

Get Free Zimsec Geo Paper 2 Section

across various sectors and geographical areas in urban Africa and places them within a solid theoretical context. Each chapter is a state-of-the-art overview of a significant topic on climate change adaptation in urban Africa and is written by a leading expert in the field. In addition to the focus on the geography of urban adaptation to climate change in Africa, this collection offers a broader perspective by blending the use of case studies and theory based research. It examines transformations in climate change adaptation and its future orientation from the perspectives of urban planners, political economists,

Get Free Zimsec Geo Paper 2 Section

environmentalists, ecologists, economists and geographers, thereby addressing the challenges facing African cities adaptation responses from all angles. Providing up-to-date and authoritative contributions covering the key aspects of climate change adaptation in urban Africa, this book will be of great interest to policymakers, practitioners, scholars and students of geography, urban development and management, environmental science and policy, disaster management, as well as those in the field of urban planning.

Writing regions, undertaking a regional study, was once a standard form of

Get Free Zimsec Geo Paper 2 Section

geographic communication and critique. This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century. From then on writing regions as they were experienced phenomenologically, or arguing culturally, historically, and politically with regions, was deemed to be old-fashioned. Yet the region is,

Get Free Zimsec Geo Paper 2 Section

and always will be, a central geographical concept, and thinking about regions can tell us a lot about the history of the discipline called geography. Despite taking up an identifiable place within the geographical imagination in scholarship and beyond, region remains a relatively forgotten, under-used, and in part under-theorised term. Reanimating Regions marks the continued reinvigoration of a set of disciplinary

Get Free Zimsec Geo Paper 2 Section

debates surrounding regions, the regional, and regional geography. Across 18 chapters from international, interdisciplinary scholars, this book writes and performs region as a temporary permanence, something held stable, not fixed and absolute, at different points in time, for different purposes. There is, as this expansive volume outlines, no single reading of a region. *Reanimating Regions* collectively rebalances the region

Get Free Zimsec Geo Paper 2 Section

within geography and geographical thought. In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world, what emerges is a powerful reworking of the geographic imagination. Read against one another, the chapters weave together timely commentaries on region and regions across the globe, with a particular emphasis upon the regional as played

Get Free Zimsec Geo Paper 2 Section

out in the United Kingdom, and regional worlds both within and beyond Europe, offering chapters from Africa and South America. Addressing both the political and the cultural, this volume responds to the need for a consolidated and considered reflection on region, the regional, and regional geography, speaking directly to broader intellectual concerns with performance, aesthetics, identity, mobilities, the environment, and the body.

Get Free Zimsec Geo Paper 2 Section

Harare is at the epicentre of the economic meltdown and political crisis that has devastated Zimbabwe over the last decade and led to a mass exodus from the country. Those who remained in Zimbabwe's largest city and capital endured unprecedented hardship as the formal economy collapsed, unemployment soared and poverty deepened. Household surveys conducted in Harare with official sanction between 2003 and 2009 appear to demonstrate that food

Get Free Zimsec Geo Paper 2 Section

insecurity was not a particularly serious problem, a conclusion sharply at odds with reality. In 2008, at the height of the crisis, AFSUN therefore implemented its own baseline food security survey in Harare using a well-tested and reliable methodology. This paper presents and discusses the results of that survey and shows that Harare had become the most food insecure city in the SADC region by 2008. Levels of food insecurity were

Get Free Zimsec Geo Paper 2 Section

extraordinarily high as poor households struggled to find the income to purchase what little food was available in the shops and informal markets. The paper demonstrates that participation in the informal food economy was the major response to the crisis, providing poor households with a modicum of food and income. Urban agriculture for home consumption also grew in importance as a crisis response. While the political and economic situation in Zimbabwe has

Get Free Zimsec Geo Paper 2 Section

stabilised somewhat since 2008, the long-term impact of many years of enforced food insecurity on the city population is incalculable. This paper concludes with the recommendation that ongoing monitoring of the urban food security situation in Harare is essential in order to begin to develop national and municipal policies that could ensure a food secure future for the city.

This book adds to the research of urban informality in the Global South with a specific focus on South

Get Free Zimsec Geo Paper 2 Section

Africa and Zimbabwe. It addresses the agency and the potential transformative capacity of the phenomenon of urban informality in connection with Southern African cities and towns. It adopts a political economy approach to analyse the evolution of informality in cities and its implications for urban planning. It brings to bear how the South African and Zimbabwean historical and/or ideological and contemporary political and economic trajectories have impacted on the ever changing nature of urban informality, both spatially and structurally and/or compositionally; thus resulting in unique urban

Get Free Zimsec Geo Paper 2 Section

materialities, which are aspects that have scarcely been studied or discussed in the extant literature. This book, therefore, seeks to close the academic gap by dealing with the dearth of literature on spatial (re)locational discourses of urban informality. The work positions urban informality as a resilient force with potency in terms of political mobilisation and (re)shaping urban spaces. Though these are fundamental issues, they have received comparatively little attention, especially in literature that focuses on the Southern African region. Accordingly, undergraduate and post-graduate

Get Free Zimsec Geo Paper 2 Section

students, as well as academics in the fields of Urban Geography, Political Science, Development Studies, Sociology, Town and Regional Planning among others, will find the range of topics and depth of coverage in this book particularly valuable. Similarly, practitioners and activists on issues of urban informality and urban governance will find the book very useful.

Our aim in writing this book is to provide students and teachers with a simple introductory text which deals with practical aspects of ecology, environmental biology and biogeography, emphasizing actual

Get Free Zimsec Geo Paper 2 Section

field and classroom investigations. Basic concepts and methods of survey, mapping and aerial photography, data collection and data analysis are described and discussed, in order to encourage students to identify and tackle worthwhile projects. The level at which this text is appropriate depends very much upon particular circumstances. The greater part lies within the scope of the sixth form and the first and second years of college, polytechnic and university courses in the British Isles and their equivalents overseas. All students inevitably meet difficulties in the identification of plant

Get Free Zimsec Geo Paper 2 Section

and animal species, particularly when they venture into unfamiliar habitats and regions. This is often the cause of unnecessary alarm. Many ecological principles or problems may be illustrated by reference to familiar species and habitats, such as are found in urban environments, as well as those areas of semi-natural vegetation favoured for field courses.

Marine Geo-Hazards in China, the first book to focus specifically on potential marine geological hazards in China, includes 19 chapters with varying focus on key issues surrounding the topic. Early chapters

Get Free Zimsec Geo Paper 2 Section

discuss the historical background, research progress, and geological environments in China's sea area. Next, multiple chapters present special topics on geological hazards in China's sea area, including its disaster pregnant environment, mechanisms of disaster change, the development regularity and disaster formation process, and existing or potential dangers and countermeasures. Final chapters present the latest information on the distribution, development, assessment, and risk analysis of marine geological hazards. This book is an important source of information for government

Get Free Zimsec Geo Paper 2 Section

and local policymakers, environmental and marine scientists, and engineers. Discusses the background, current research, and systematically reviews the history, major advances in the studies in the field, and demonstrates the development prospect of this subject. Contains and summarizes the author's longstanding achievements in the field, as well as includes a wide range of researches conducted both locally and overseas. Systematically summarizes the basic characteristics of the distribution and development of the main types of geological hazards in China seas. Puts forward the

Get Free Zimsec Geo Paper 2 Section

scheme of marine geological disaster regionalization of China, and is significant for researches in other countries or regions.

Climate Change and Agriculture in Zimbabwe

Single women, land and livelihood vulnerability in a communal area in Zimbabwe

The subject of real estate is increasingly becoming important, especially in the countries of the developing

Get Free Zimsec Geo Paper 2 Section

world. States and governments realise that real estate is the corner stone of socio-economic development. Real estate development contributes immensely to the gross physical capital formation. Its formation, construction and ancillary sectors contribute to the employment, infrastructure development and gross domestic product. The main challenges about real estate is about where to develop it, how to develop it, how to manage and commercial valuations about it. Such are the issues discussed in this volume. The book draws on Zimbabwe as a case study, demonstrate the critical aspects that define theory and real estate practice in various contexts – national,

Get Free Zimsec Geo Paper 2 Section

regional and international.

This book proves, through empirical research, that indigenous and traditional agricultural communities have experienced severe climate change impacts, and have developed corresponding livelihood strategies to strengthen their resilience in a variable climate. With a focus on indigenous minority farming communities in the developing region of South-Western Zimbabwe, the study presents both qualitative and quantitative approaches and data analysis to assess sustainability problems amid climate change and climate variability challenges, and proposes potential solutions. In eight chapters, the book

Get Free Zimsec Geo Paper 2 Section

expands on the scarce availability of community-based research on climate change and variability in Zimbabwe. The book is meant for college and university students, stakeholders involved in development work in rural minority farmer communities, especially in climate change prone regions of Africa and other developing countries who have very few options of adaptation and mitigation.

Applied Geography offers an invaluable introduction to useful research in physical, environmental and human geography and provides a new focus and reference point for investigating and understanding problem-orientated

Get Free Zimsec Geo Paper 2 Section

research. Forty-nine leading experts in the field introduce and explore research which crosses the traditional boundary between physical and human geography. A wide range of key issues and contemporary debates are with the books main sections, which cover: natural and environmental hazards environmental change and management challenges of the human environment techniques of spatial analysis Applied geography is the application of geographic knowledge and skills to identify the nature and causes of social, economic and environmental problems and inform policies which lead to their resolution.

Topic 12: The Cold War: Superpower Tensions and Rivalries (20th century) of the History for the IB Diploma syllabus for first assessment in 2017. Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the following detailed studies of leaders and crises from around the world: Truman, Khrushchev, Gorbachev, Castro, and Reagan; and the Cuban Missile Crisis, the Korean War, the Prague spring, and the Soviet invasion of Afghanistan.

Get Free Zimsec Geo Paper 2 Section

Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo,

Get Free Zimsec Geo Paper 2 Section

and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate

Get Free Zimsec Geo Paper 2 Section

in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshall extraordinary

Get Free Zimsec Geo Paper 2 Section

historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and

Get Free Zimsec Geo Paper 2 Section

empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions? *Why Nations Fail* will change the way you look at—and understand—the world.

On Growth, Trajectory and Aftermath

The sustainable management of waste water should aim at pollution prevention and reduction first, followed by resource recovery and reuse. This work shows that substantial water quality improvements could be achieved through a so-called 3-Step Strategic Approach. The frameworks developed in this research

Get Free Zimsec Geo Paper 2 Section

for managing water on-site and at centralized
This edited volume discusses the role of innovation and
regional integration in economic development in
Africa. Over the past five decades, post-colonial
African countries have struggled to break loose from
the trap of poverty and underdevelopment through the
adoption of various development strategies at regional,
national, and continental levels. However, the results
of both national and regional efforts at advancing
development on the continent have been mixed.
Although the importance of agglomeration and fusion
of institutions have long been recognized as possible

Get Free Zimsec Geo Paper 2 Section

path to achieving economic development in Africa, the approach to regionalism has been unduly focused on market integration, while neglecting other dimensions such as social policy, mobility of labor, educational policy, biotechnology, regional legislation, manufacturing, innovation, and science and technology. This volume investigates the link between innovation, regional integration, and development in Africa, arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities.

Get Free Zimsec Geo Paper 2 Section

The book is divided into four parts. Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa. Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa. Part III of the book deals with sectoral issues on innovation and integrated development in Africa. Part IV sets the future research on innovation, regional integration, and development in Africa. Combining theoretical analysis and a comparative, interdisciplinary approach, this volume is appropriate for researchers and students interested in economic

Get Free Zimsec Geo Paper 2 Section

development, political economy, African studies, international relations, agricultural science, and geography, as well as policymakers in regional economic communities and the African Union.

There has been limited research on single women in customary tenure areas. Single women's experiences have been marginalized in research that focuses on notions of property, male headed domestic units and relies on normative research methods to investigate resource access in the communal farming areas of Zimbabwe. This work focuses on the hearth-hold as a domestic unit and uses innovative research methods to

Get Free Zimsec Geo Paper 2 Section

investigate how women outside the marriage institution negotiate access to land, livelihood resources and make decisions to cope with livelihood vulnerability in customary tenure areas. The research illustrates through a focus on pathways and rural-urban connections how single women make decisions to secure livelihoods under fast changing conditions. The findings that patriarchy is only one but not the only institution governing land access in customary tenure areas and that women have more room to negotiate land access in communal areas especially through entitlements, family obligations and

Get Free Zimsec Geo Paper 2 Section

exploitation of multi-layered tenure systems are some of the publication's contribution to knowledge on single women, customary land tenure and livelihood vulnerability.

Uneven Zimbabwe examines the influence of domestic and international financial markets and

Get Free Zimsec Geo Paper 2 Section

financiers in uneven development in Zimbabwe, using - and contributing to - the tools of radical political economy. Theoretically, Bond begins with criticism of the classical Marxist concepts of "finance capital" for focusing on institutional characteristics and failing to grasp underlying dynamics. Instead, as economic crisis tendencies emerge, the power of finance periodically intensifies, temporarily displacing crisis through time and space and across geographical scales. But the limits of the financial solution become evident when paper assets delink from the productive assets they are meant to

Get Free Zimsec Geo Paper 2 Section

represent, as well as in the role that finance plays in amplifying uneven development across different economic sectors, spaces and scales.

Among the most important and exciting current steps forward in geo-engineering is the development of coupled numerical models. They represent the basic physics of geo-engineering processes which can include the effects of heat, water, mechanics and chemistry. Such models provide an integrating focus for the wide range of geo-engineering disciplines.

The articles within this volume were originally presented at the inaugural GeoProc conference held

Get Free Zimsec Geo Paper 2 Section

in Stockholm and contain a collection of unusually high quality information not available elsewhere in an edited and coherent form. This collection not only benefits from the latest theoretical developments but also applies them to a number of practical and wide ranging applications. Examples include the environmental issues around radioactive waste disposal deep in rock, and the search for new reserves of oil and gas.

Developing countries in Africa, Asia, and Latin America are increasingly influenced by human-induced environmental changes. It is crucial that

Get Free Zimsec Geo Paper 2 Section

sustainable development be based on insights into these expanding processes conservation as well as deterioration. Nature s Geography offers a new perspective on the geographical nature of these changes. The book reveals how human-environment relations must be understood at multiple scales and time frames. Editors Karl S. Zimmerer and Kenneth R. Young have forged an exciting group of case studies from distinguished geographers focusing on high mountains, tropical forests, and lowlands, as well as humid and arid-semiarid landscapes. Each chapter analyzes the implications for meshing

Get Free Zimsec Geo Paper 2 Section

environmental protection and sound resource use with development. The case studies evaluate three topics: spatial habitat fragmentation and forest dynamics; disturbances in mountain ecosystems; and the major activities of settled areas, chiefly farming, livestock-raising, and forestry. Included are analyses of interactions involving wildlife, such as primates and wild pandas; assessment of fire impacts and road-building; long-term forest management as well as recent techniques; and the role of environmental variation and ecosystem properties in agriculture and rangeland. Nature s

The thoroughly Revised & Updated 3rd Edition of the book “The Geography Compendium” has been prepared with enormous efforts for all IAS aspirants, State PCS and other competitive exams. The book is prepared on the concept "Latest Information - Authentic Data". The book is divided into 10 chapters followed by 2 levels of exercises with 1000+

Get Free Zimsec Geo Paper 2 Section

Simple MCQs & statement based MCQs. The book not only covers 100% syllabus but is also covered with Mind Maps, Infographics, Charts, Tables and latest exam pattern MCQs. The emphasis of the book has been on conceptual understanding and better retention which are important from the point of view of the exam. The book captures most of the important questions with explanations of the past years of the IAS Prelim exam, CDS, NDA and other competitive exams distributed in the various chapters.

This interdisciplinary book provides a cross-sectoral and multi-dimensional exploration and assessment

Get Free Zimsec Geo Paper 2 Section

of the urban geography perspectives in Zimbabwe. Drawing on work from different disciplines, the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle-income status by 2030. Adopting a multi-dimensional assessment that transcends disciplines such as urban and regional planning, human and physical geography, urban governance, political science, economics and development studies, the book provides a background for co-production concerning urban development in the Global South. The book contributes into its analysis of the

Get Free Zimsec Geo Paper 2 Section

institutional and legislative framework that relates to the urban geography of Zimbabwe, as these are responsible for the evolution of the urban system in the country. The connections among different sectors and issues such as environment, economy, politics and the wider objectives of the SDGs, especially goal 11 aspiring to create sustainable communities by 2030, are explored. The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning, policy and management.

This text contains 15 papers which aim to assess the

The State of Food Insecurity in Harare, Zimbabwe

"Addressing several themes in the social protection literature, this book makes an original and important

Get Free Zimsec Geo Paper 2 Section

contribution to the rapidly growing body of literature on social protection in sub-Saharan Africa. Some of the themes are relatively neglected or under-researched, while some others are not usually conceptualised as social protection. These themes are organized around the major issues: informal social protection, urban social protection, social protection and physical security, social protection in unstable contexts, climate change, pastoralism, and gender"--Back cover.

Within the field of management of natural resources, this book focuses on the various approaches of policy formulation and implementation. The question central to this book is how to co-operate with people, the various categories of residents as well as non-residents, in the

Get Free Zimsec Geo Paper 2 Section

rural areas: in a top-down, a participatory or a contractual (co-management) way. On the basis of a comparative analysis of 12 case studies in the book, these three approaches are thoroughly discussed and their internal and external constraints examined. The book starts with an editorial chapter, discussing the recent administrative and political developments in Africa as well as the new opportunities, which they offer for policies in the field of environment, and development. The question is brought up whether the recent processes of decentralization, democratization, and empowerment of local organizations have indeed created new opportunities or that they have only superficially changed the political culture of the countries concerned.

Get Free Zimsec Geo Paper 2 Section

In the concluding chapter of the book, the approaches are contrasted to each other as logical models, each with its own potentiality and limitations. Conclusions are formulated why the top down approach must result in improvization to escape from failure, and why the participatory approach risks to end up into a mixed balance. Special attention is given to the conditions and the prospects for the contractual or co-management approach, which has been introduced into Africa only recently. Under certain conditions, this approach seems rather promising.

An investigative approach to Cambridge IGCSE Geography, written in partnership with the Geographical Association. Encourage students to make links between
